Erwin Prassler, Rainer Bischoff, Wolfram Burgard, Robert Haschke, Martin H6gele, Gisbert Lawitzky, Bernhard Nebel, Paul Pl6ger, Ulrich Reiser, Marius Z6llner, 2012-03-14 People have dreamed of machines which would free them from unpleasant dull dirty and dangerous tasks and work for them as servants for centuries if not millennia Service robots seem to finally let these dreams come true But where are all these robots that eventually serve us all day long day for day A few service robots have entered the market domestic and professional cleaning robots lawnmowers milking robots or entertainment robots Some of these robots look more like toys or gadgets rather than real robots But where is the rest This is a question which is asked not only by customers but also by service providers care organizations politicians and funding agencies The answer is not very satisfying Today s service robots have their problems operating in everyday environments This is by far more challenging than operating an industrial robot behind a fence There is a comprehensive list of technical and scientific problems which still need to be solved To advance the state of the art in service robotics towards robots which are capable of operating in an everyday environment was the major objective of the DESIRE project Deutsche Service Robotik Initiative Germany Service Robotics Initiative funded by the German Ministry of Education and Research BMBF under grant no 01IME01A This book
