

How To Use This Book

The best way to use this songbook is, well, daily. Because there are 365 songs, you can play a different song each day for a whole year. (You get one day off during a leap year!) The songs are not always in strict alphabetical order, so consult the index in front when in doubt. We did create two special sections: The first is "Songs For Holidays And Celebrations," where you'll find Christmas carols and other holiday-related material. This section is organized around the calendar year starting with "Auld Lang Syne" for New Year's Eve. The other special section is "Songs For Children," which are tunes that are appropriate for kids to play or parents who want to play for their children.

Many of the songs included here should be easy for you to play and sing right away. Here are a few things to note that will make this songbook especially enjoyable:

1. **Chord Grids:** Just in case you need a reminder of how to make a certain chord, the chord grids for each song are directly under the title, in order of their appearance. The *Chord Chart* on page 12 shows suggested fingerings.
2. **First Note:** This shows the first singing note of the song. Although many of the first notes in this book are below middle C, all are above D below middle C, which is the lowest note on a DGBE-tuned baritone ukulele. This means that every single starting pitch is represented in the first note grid. In some songs, that note is fairly high up on the E string like the C on the 8th fret. In this case, rather than extend the "First Note" grid to 8 lines, we simply put an "8" next to the dot to indicate that the starting pitch can be found on the 8th fret of that string.
3. **Instrumentals:** There are a few songs included here that have instrumental sections built into the arrangement. An example of this is in "How Sweet It Is." You are welcome to ignore these sections entirely or take a real solo. Often solo uke performers will make a trumpet or trombone sound with their mouths. Harmonicas and kazoos will work here, too.
4. **N.C.:** Whenever you see N.C. above the staff that means "no chord," a place in the song where you should stop playing until you get to the next chord. This "break" can be a nice flourish that will add drama to your performance. A well-known example is in the sixth line of "Five Foot Two, Eyes Of Blue."

There are some additional symbols that you'll see used throughout the arrangements in this songbook. We've listed a few below with their meanings:

-  **Repeat Signs:** These mean that the section within the signs should be performed again before going on to the next section.
-  **First Ending:** Play through the measures under this bracketed area and then go back to the beginning of that section. Then look for further endings.
- D.C.** **Da Capo:** This means "from the beginning," indicating to go back to the beginning of the music.
- D.S.** **Dal Segno:** Means to look for the  sign and repeat that section from the sign.
-  **Coda:** Ending section. When you see "To Coda , jump ahead to the closing section that begins with this symbol.
