 Cutler,2018-03-05 Health care costs represent a nearly 18% of U S gross domestic product and 20% of government spending
 While there is detailed information on where these health care dollars are spent there is much less evidence on how this
 spending affects health The research in Measuring and Modeling Health Care Costs seeks to connect our knowledge of
 expenditures with what we are able to measure of results probing questions of methodology changes in the pharmaceutical
 industry and the shifting landscape of physician practice The research in this volume investigates for example obesity's effect
 on health care spending the effect of generic pharmaceutical releases on the market and the disparity between disease based
 and population based spending measures This vast and varied volume applies a range of economic tools to the analysis of
 health care and health outcomes Practical and descriptive this new volume in the Studies in Income and Wealth series is full
 of insights relevant to health policy students and specialists alike *Fodor's Las Vegas [With Map]* Fodor's,2009-11
