Photography, Reconstruction and the Cultural History of the Postwar European City Tom Allbeson, 2020-11-16 Examining imagery of urban space in Britain France and West Germany up to the early 1960s this book reveals how photography shaped individual architectural projects and national rebuilding efforts alike Exploring the impact of urban photography at a pivotal moment in contemporary European architecture and culture this book addresses case studies spanning the destruction of the war to the modernizing reconfiguration of city spaces including ruin photobooks about bombed cities architectural photography of housing projects and imagery of urban life from popular photomagazines as well as internationally renowned projects like UNESCO's Paris Headquarters Coventry Cathedral and Berlin's Gendarmenmarkt This book reveals that the ways of seeing shaped in the postwar years by urban photography were a vital aspect of not only discourses on the postwar city but also debates central to popular culture from commemoration and modernization to democratization and Europeanization This book will be a fascinating read for researchers in the fields of photography and visual studies architectural and urban history and cultural memory and contemporary European history **A Cultural History of Objects in the Medieval Age** Julie Lund, Sarah Semple, 2022-08-31 A Cultural History of Objects in the Medieval Age covers the period 500 to 1400 examining the creation use and understanding of human made objects and their consequences and impacts The power and agency of objects significantly evolved over this time Exploring objects and artefacts within art technology and everyday life the volume challenges our understanding of both life worlds and object worlds in medieval society The 6 volume set of the Cultural History of Objects examines how objects have been created used interpreted and set loose in the world over the last 2500 years Over this time the West has developed particular attitudes to the material world at the centre of which is the idea of the object The themes covered in each volume are objecthood technology economic objects everyday objects art architecture bodily objects object worlds Julie Lund is Associate Professor at the University of Oslo Norway Sarah Semple is Professor at Durham University UK Volume 2 in the Cultural History of Objects set General Editors Dan Hicks and William Whyte **Culture from the Slums** Jeff Hayton, 2022-03-10 Culture from the Slums explores the history of punk rock in East and West Germany during the 1970s and 1980s These decades witnessed an explosion of alternative culture across divided Germany and punk was a critical constituent of this movement For young Germans at the time punk appealed to those gravitating towards cultural experimentation rooted in notions of authenticity endeavors considered to be more real and genuine Adopting musical subculture from abroad and rearticulating the genre locally punk gave individuals uncomfortable with their societies the opportunity to create alternative worlds Examining how

youths mobilized music to build alternative communities and identities during the Cold War Culture from the Slums details how punk became the site of historical change during this era in the West concerning national identity commercialism and politicization while in the East over repression resistance and collaboration But on either side of the Iron Curtain punks struggles for individuality and independence forced their societies to come to terms with their political social and aesthetic challenges confrontations which pluralized both states a surprising similarity connecting democratic capitalist West Germany with socialist authoritarian East Germany In this manner Culture from the Slums suggests that the ideas practices and communities which youths called into being transformed both German societies along more diverse and ultimately democratic lines Using a wealth of previously untapped archival documentation this study reorients German and European history during this period by integrating alternative culture and music subculture into broader narratives of postwar inquiry and explains how punk rock shaped divided Germany in the 1970s and 1980s

Cultural Heritage and Slavery Stephan Conermann,Claudia Rauhut,Ulrike Schmieder,Michael Zeuske,2023-11-20 In the recent cultural heritage boom community based and national identity projects are intertwined with interest in cultural tourism and sites of the memory of enslavement Questions of historical guilt and present responsibility have become a source of social conflict particularly in multicultural societies with an enslaving past This became apparent in the context of the Black Lives Matter movement in 2020 when statues of enslavers and colonizers were toppled controversial debates about streets and places named after them re ignited and the European Union apologized for slavery after the racist murder of George Floyd Related debates focus on museums on artworks acquired unjustly in societies under colonial rule the question of whether and how museums should narrate the hidden past of enslavement and colonialism including their own colonial origins with respect to narratives about presumed European supremacy and the need to establish new monuments for the enslaved their resistance and abolitionists of African descent In this volume we address this dissonant cultural heritage in Europe with a strong focus on the tangible remains of enslavement in the Atlantic space in the continent This may concern for instance the residences of royal noble and bourgeois enslavers charitable and cultural institutions universities banks and insurance companies financed by the traders and owners of enslaved Africans merchants who dealt in sugar coffee and cotton and the owners of factories

[Judaism for Christians](#)
 Sina Rauschenbach, 2019-10-16 Menasseh ben Israel 1604 1657 was one of the best known rabbis in early modern Europe In the course of his life he became an important Jewish interlocutor for Christian scholars interested in Hebrew studies and negotiated with Oliver Cromwell and Parliament the return of the Jews to England Born to a family of former conversos Menasseh was versed in Christian theology and astutely used this knowledge to adapt the content and tone of his publications to the interests and needs of his Christian readers Judaism for Christians Menasseh ben Israel 1604 1657 is the first extensive study to systematically focus on key titles in Menasseh s Latin works and discuss the success and failure of his strategies of translation in the larger context of early modern Christian Hebraism Rauschenbach also examines the mistranslation of his books by Christian scholars who were not yet ready to share Menasseh s vision of an Abrahamic theology and of a republic of letters whose members were not divided by denomination Ultimately Menasseh s plans to use Jewish knowledge as an entrance billet for Jews into Christian societies proved to be illusory as Christian readers understood him instead as a Jewish witness for Christian truths Menasseh s Jewish coreligionists disapproved of what they perceived to be his dangerous involvement in Christian debates providing non Jews with delicate information It was only a century after his death that Menasseh became a model for new generations of Jewish scholars

Bodies and Ruins David F. Crew, 2017-05-19

Bodies and Ruins explores changing German memories of World War II as it analyzes the construction of narratives in the postwar period including the depiction of the bombing of individual German cities The book offers a corrective notion rising in the late 1990s notion that discussions of the Allied bombing were long overdue because Germans who had endured the bombings had largely been condemned to silence after 1945 David Crew shows that far from being marginalized in postwar historical consciousness the bombing war was in fact a central strand of German memory and identity Local narratives of the bombing war including photographic books had already established themselves as important vectors of memory in the late 1940s and early 1950s The bombing war had allowed Germans to see themselves as victims at a time when the Allied liberation of the concentration camps and the Nuremberg trials presented Germans to the world as perpetrators or at least as accomplices The bombing war continued to serve this function even as Germans became more and more willing directly to confront the genocide of European Jews which by the 1960s was beginning to be referred to as the Holocaust Bodies and Ruins examines a range of local publications that carried photographic images of German cities destroyed in the air war images that soon entered the visual memory of World War II Despite its obvious importance historians have paid very little attention to the visual representation of the bombing war This book follows the search for what were considered to be the right stories and the right pictures of the bombing war in local publications and picture books from 1945 to the present and is intended for historians as well as general readers interested in World War II the Allied bombing of German cities the Holocaust the history of memory and photographic visual history
