Hand Taming Wild Birds At The Feeder:

Hand-taming Wild Birds at the Feeder Alfred G. Baicich, Margaret A. Barker, Carrol L. Henderson, 2015-01-28 Today according to the US Fish and Wildlife Service more than fifty million Americans feed birds around their homes and over the last sixty years billions of pounds of birdseed have filled millions of feeders in backyards everywhere Feeding Wild Birds in America tells why and how a modest act of provision has become such a pervasive popular and often passionate aspect of people's lives Each chapter provides details on one or more bird feeding development or trend including the discovery of seeds the invention of different kinds of feeders and the creation of new companies Also woven into the book are the worlds of education publishing commerce professional ornithology and citizen science all of which have embraced bird feeding at different times and from different perspectives The authors take a decade by decade approach starting in the late nineteenth century providing a historical overview in each chapter before covering topical developments such as hummingbird feeding and birdbaths On the one hand they show that the story of bird feeding is one of entrepreneurial invention on the other hand they reveal how Americans through a seemingly simple practice have come to value the natural world **Hand-feeding Backyard Birds** Hugh Wiberg, 1999 Lists the birds most likely to hand feed their favorite foods and the best times places and weather conditions for hand feeding The Curious Naturalist Sy Montgomery, 1991-01-01 Boston Globe nature columnist discusses the lovelorn messages sent by singing insects on autumn evenings the messages contained in spiderwebs the effects of winter snow on the way sound travels the way all life depends on the unusual structure of water and much more Most fun is the author's description of ways to interact with other creatures e.g. teaching wild birds to eat out of your hand *Enslaved by Ducks* Bob Tarte, 2025-04-08 From the author of *Kitty Cornered* comes a laugh out loud chronicle of household pets who slowly but surely overrun the house Marty Becker DVM Good Morning America When Bob Tarte and his wife Linda brought a rabbit into their rural Michigan home they didn't anticipate how it might upset their tranquil lives But even after the bunny chewed through their electrical wiring their household menagerie kept growing Soon Bob found himself constructing cages buying feed clearing duck waste and spoon feeding an assortment of furry and feathery residents He unwittingly became a servant to a relentlessly demanding family They dumbfounded him controlled and teased him took their share of his flesh and stole his heart Kirkus Reviews In this loving memoir of the joy and madness of living with animals Bob offers dead on character portraits and keeps readers laughing about unreliable pet store proprietors a duck named Hector who doesn't like water an amorous dove named
