Handbook of Behavioral and Cognitive Therapies with Older Adults Dolores Gallagher Thompson,Ann Steffen,Larry W. Thompson,2007-10-12 It gives me great pleasure to witness continued growth in the application of cognitive and behavioral theories and therapies to more diverse populations including in this volume their application to the mental health problems of later life Evidence continues to accumulate demonstrating that these are effective in treating a broad range of elderly patient groups This is the first book to examine a number of these evidence based interventions currently in use with older adults The editors have assembled chapters developed in many of the leading clinical and clinical research programs focusing on elderly patients both in this country and in the UK Since the emphasis of this volume is primarily on

clinical application each author group was asked to discuss the empirical data for the treatment strategies it is using with the specific patient group selected Typically this was followed by a detailed description of treatment procedures that were then illustrated by one or more clinical examples The book begins by examining the treatment of depressive and anxiety disorders and then moves on to more complicated and/or serious disorders including schizophrenia and other psychoses suicidal behavior personality disorders bipolar disorders dementia and complicated bereavement A chapter on the problems and issues in training therapists to use evidence based interventions effectively is also included along with a chapter discussing the implications of Medicare policies and guidelines for service delivery

Recupero, 2017-11-30 This textbook one of the first provides a comprehensive review of the relationship between psychiatry and legal medicine in the older population Sections reviewing evaluation civil and criminal topics and numerous other areas such as risk management will help physicians attorneys and other professionals in their work with the elderly

Psychological Assessment and Therapy with Older Adults Bob G. Knight, Nancy A. Pachana, 2015-01-08 Due to improvements in health and healthcare the elderly population is expanding rapidly within the developed world However more and more elderly people require some form of psychological support at some point in their later years The types of problems faced by this population are quite distinct and often more complex than those faced by younger adults and throw up many new challenges in both assessment and treatment Though there are books available that focus individually on assessment or treatment few have combined the two into a single framework Within this book Knight and Pachana argue that psychological assessment needs to be more tightly integrated with therapy especially with older adult clients Using the Contextual Adult Lifespan Theory for Adapting Psychotherapy CALTAP as a framework for applying our knowledge about developmental social contextual and cohort generational factors that influence age differences in response to psychological assessment and therapy they present an integrated framework for psychological assessment and therapy with older adults This text is valuable for practitioners looking for a solid theoretical basis for the practice of assessment and therapy with older clients students in graduate courses looking at later lifespan issues and educators looking for material to enhance generalist

psychotherapy courses with a lifespan perspective

Psychotherapy with Older Adults Bob G. Knight, 2004-02-20 This

Third Edition of the bestselling *Psychotherapy with Older Adults* continues to offer students and professionals a thorough overview of psychotherapy with older adults Using the contextual cohort based maturity specific challenge CCMSC model it draws upon findings from scientific gerontology and life span developmental psychology to describe how psychotherapy needs to be adapted for work with older adults as well as when it is similar to therapeutic work with younger adults Sensitively linking both research and experience author Bob G Knight provides a practical account of the knowledge technique and skills necessary to work with older adults in a therapeutic relationship This volume considers the essentials of gerontology as well as the nature of therapy in depth focusing on special content areas and common themes *Psychotherapy with Older Adults* includes a comprehensive discussion of assessment and options for intervention Numerous case examples illustrate the dynamics of the therapeutic task and issues covered in therapy and stress the human element in working with older adults A concluding chapter considers ethical questions and the future of psychotherapy with older adults The author has updated the Third Edition to reflect new research findings and has written two entirely new chapters covering psychotherapy with persons with dementia and psychotherapy with caregivers of frail older adults Since its initial publication in 1986 the book has been used as a course text and a professional reference around the world including translations into French Dutch Chinese and Japanese It is a vital resource for practicing therapists and counselors who work with older adults and is also ideally suited as a text for advanced students in psychology social work gerontology and nursing Praise for Previous Editions Bob G Knight s largest contribution is his excellent discussion of therapy The book is clearly written with a good use of summaries and case examples to clarify the major points By linking research findings to practice experience Knight has provided a pragmatic introduction which should be helpful to psychiatrists psychologists social workers and psychiatric nurses working with older adults JOURNAL OF APPLIED GERONTOLOGY I recommend this book to anyone interested in working with the elderly partly because of the content and partly because the author presents the case for doing psychotherapy with the elderly with realism and enthusiasm BEHAVIOR RESEARCH THERAPY
