Handbook Of Intergenerational Justice:

Handbook of Intergenerational Justice Joerg Chet Tremmel, 2006-01-01 The contributors to this volume undertake to establish the foundations and definitions of intergenerational justice and to explore its capacity to guide us in policy and public opinion judgments we must make to face unprecedented issues We are changing the biosphere and using resources to an extent never contemplated in the history of ethics Deterioration of our oceans loss of topsoil insecurity about potable water supplies the ozone hole global warming and the question about how to handle high level nuclear waste which remains lethal perhaps 400 000 years from now are some examples whose consequences reach far beyond inherited principles and policies of responsibility to others This Handbook works to open a path for debate extension of our tradition and invention of new thinking on these issues Craig Walton University of Nevada Las Vegas US More than a Handbook this collection is a landmark work showing the way to a new ethics of intergenerational responsibility It raises in the most comprehensive way the overarching ethical questions of our time What are the rights of future generations and How might present generations establish a philosophical foundation for its responsibilities to generations to come Peter Blaze Corcoran Center for Environmental and Sustainability Education Florida Gulf Coast University US This important book provides a rich menu of history current theory and future directions in constitutional law philosophy of rights and justice and the relations of economics and politics to time institutions and the common good It is enlivened by back and forth discussions among the authors including some disagreements as well as by applications to important contemporary issues such as climate change nuclear waste and public debt Theoretic considerations are nicely balanced with examples of the means adopted in a number of countries to establish a legal foundation for protection of the quality of life for future generations Neva Goodwin Tufts University US Do we owe the future anything If so what and why Our capacity to affect the lives of future generations is greater than ever before but what principles should regulate our relationship with people who don't yet exist This Handbook offers a comprehensive survey of the key debates and pathbreaking accounts of potential ways forward both ethical and institutional Andrew Dobson The Open University UK This Handbook provides a detailed overview of various issues related to intergenerational justice Comprising articles written by a distinguished group of scholars from the international scientific community the Handbook is divided into two main thematic sections foundations and definitions of intergenerational justice and institutionalization of intergenerational justice The first part clarifies basic terms and traces back the origins of the idea of intergenerational justice It also focuses on the problem of intergenerational buck passing in the ecological context for example in relation to nuclear waste and the greenhouse effect At the same time it also sheds light on the relationship between intergenerational justice and economics addressing issues such as public debt and financial sustainability The innovative second part of the volume highlights how posterity can be institutionally protected such as by inserting relevant clauses into national constitutions Reading this volume is the best way to gain an overall knowledge of intergenerational

justice an extremely salient and topical issue of our time The Handbook is an important contribution to the literature and will be of great interest to academics and graduate students as well as readers interested in wider human rights issues

Handbook of Intergenerational Justice Jörg Tremmel, 2006 Part I focuses on the problem of intergenerational buck passing in the ecological context and sheds light on the relationship between intergenerational justice and economics Part II highlights how posterity can be institutionally protected *The Oxford Handbook of Family Policy Over the Life Course* Mary Daly, Birgit Pfau-Effinger, Neil Gilbert, Douglas J. Besharov, 2023 Drawing on a multidisciplinary group of experts from many countries this Handbook is intended to be a reference work that provides students and scholars in policy related disciplines a wide ranging perspective on the diverse ways that family policies respond to modern issues and trends over the life course The Handbook is divided into two main parts The first part offers a panoramic introduction to the setting and issues which contemporary family policies have been designed to address The second part and main body of the volume is organized around four benchmark periods that encompass the main stages of the family life cycle and social policies that are called into play during these stages *The Oxford Handbook of Deliberative Democracy* André Bächtiger, John S.

Dryzek, Jane Mansbridge, Mark E. Warren, 2018-08-30 Deliberative democracy has been one of the main games in contemporary political theory for two decades growing enormously in size and importance in political science and many other disciplines The Oxford Handbook of Deliberative Democracy takes stock of deliberative democracy as a research field in philosophy in various research programmes in the social sciences and law and in political practice around the globe It provides a concise history of deliberative ideals in political thought and discusses their philosophical origins The Handbook locates deliberation in political systems with different spaces publics and venues including parliaments courts governance networks protests mini publics old and new media and everyday talk It engages with practical applications mapping deliberation as a reform movement and as a device for conflict resolution documenting the practice and study of deliberative democracy around the world and in global governance **Routledge Handbook of Climate Justice** Tahseen

Jafry, 2018-11-01 The term climate justice began to gain traction in the late 1990s following a wide range of activities by social and environmental justice movements that emerged in response to the operations of the fossil fuel industry and later to what their members saw as the failed global climate governance model that became so transparent at COP15 in Copenhagen The term continues to gain momentum in discussions around sustainable development climate change mitigation and adaptation and has been slowly making its way into the world of international and national policy However the connections between these remain unestablished Addressing the need for a comprehensive and integrated reference compendium The Routledge Handbook of Climate Justice provides students academics and professionals with a valuable insight into this fast growing field Drawing together a multidisciplinary range of authors from the Global North and South this Handbook addresses some of the most salient topics in current climate justice research including just transition urban climate justice

and public engagement in addition to the field's more traditional focus on gender international governance and climate ethics. With an emphasis on facilitating learning based on cutting edge specialised climate justice research and application each chapter draws from the most recent sources, real world best practices and tutored reflections on the strategic dimensions of climate justice and its related disciplines. The Routledge Handbook of Climate Justice will be essential reading for students and scholars as well as being a vital reference tool for those practically engaged in the field. **The Cambridge Handbook**

of Environmental Justice and Sustainable Development Sumudu A. Atapattu, Carmen G. Gonzalez, Sara L.

Seck, 2021-04-01 Despite the global endorsement of the Sustainable Development Goals, environmental justice struggles are growing all over the world. These struggles are not isolated injustices but symptoms of interlocking forms of oppression that privilege the few while inflicting misery on the many and threatening ecological collapse. This handbook offers critical perspectives on the multi-dimensional intersectional nature of environmental injustice and the cross-cutting forms of oppression that unite and divide these struggles including gender, race, poverty and indigeneity. The work sheds new light on the often neglected social dimension of sustainability and its relationship to human rights and environmental justice. Using a variety of legal frameworks and case studies from around the world, this volume illustrates the importance of overcoming the fragmentation of these legal frameworks and social movements in order to develop holistic solutions that promote justice and protect the planet's ecosystems at a time of intensifying economic and ecological crisis. **Handbook of Global**

Leadership and Followership Joan F. Marques, June Schmieder-Ramirez, Petros G. Malakyan, 2023-03-29 This handbook integrates the best leadership and followership theories and practices between the Global North West countries of Western individualistic cultures in Europe, North America, Australia and Oceania and the Global South East countries of Eastern collectivistic cultures in Asia, Africa, South America and South East Asian and Oceania. There is a need to bring the Global North West and the Global South East together to address global challenges such as climate change, global hunger and poverty, domestic and international terrorism, social justice, gender inequality and domestic and global abuse of human and natural resources. This innovative volume proposes that the democratic leadership of the Global North West and the human-centered followership of the Global South East can transform the world if leadership and followership values, education and practices are integrated. It utilizes findings from positive psychology, social psychology, organizational behavior and world religions and contemplative wisdom traditions to highlight the case for global leadership and followership. **The Oxford**

Handbook of Intergenerational Ethics Stephen M. Gardiner, 2025 This volume of new essays focuses on the increasing relevance of intergenerational ethics to key challenges of the 21st century such as climate change, rapid technological change, the expanding human population and threats of extinction. It features philosophers and political theorists of international standing providing a cutting edge perspective on these issues. **International Handbook on Mega-Projects** Hugo

Priemus, Bert van Wee, 2013-11-29 Providing crucial background information for those who want to understand decision

making processes on large transport infrastructure projects this fascinating Handbook will prove an important source of information for academics researchers and students

The Oxford Handbook of Child-Centered Approaches to Migrant Children Zorana Medaric, Mateja Sedmak, 2025 The Oxford Handbook of Child Centered Approaches to Migrant Children provides a comprehensive overview of the key issues and debates shaping the child centred approach to migrant children It presents key concepts approaches and methods as well as case studies legal and policy issues In this way the Handbook provides foundational knowledge that can be utilised in further research and practice with migrant children in different contexts

The Oxford Handbook of Distributive Justice Serena Olsaretti, 2018 Distributive justice has come to the fore in political philosophy how should we arrange our social and economic institutions so as to distribute benefits and burdens fairly Thirty eight leading figures from philosophy and political theory present specially written critical assessments of the key issues in this flourishing area of research

Between Care and Justice Elena Pulcini, 2024-05-01 Elena Pulcini 1950 2021 an internationally renowned philosopher of care was at the forefront of thinking and creating a new ethical framework to respond efficaciously to problems that affect individuals at a global level This translation of Pulcini s last work addresses perhaps the two fundamental questions for our times namely Why care for others when we are not bound by personal relationships and Why commit to justice even when it does not personally affect us By focusing on passions such as indignation fear compassion resentment and love Pulcini offers an alternative ethical perspective in which justice and care intertwine to supplement and balance each other Together care and justice are proven capable of addressing the challenge of the other distant in space the outsider the marginalized and the migrant and time future generations In the end Pulcini proposes a form of moral education that nurtures and develops desirable moral sentiments for a more just world at the interpersonal social political economic and environmental levels thereby providing an alternative social global model to current individual focused rights based purely rationalist ethical systems

Can Democracy Safeguard the Future? Graham Smith, 2021-02-01 Our democracies repeatedly fail to safeguard the future From pensions to pandemics health and social care through to climate biodiversity and emerging technologies democracies have been unable to deliver robust policies for the long term In this book Graham Smith asks why Exploring the drivers of short termism he considers ways of reshaping legislatures and constitutions and proposes strengthening independent offices whose overarching goals do not change at every election More radically Smith argues that forms of participatory and deliberative politics offer the most effective democratic response to the current political myopia as well as a powerful means of protecting the interests of generations to come

Handbook of the Anthropocene Nathanaël Wallenhorst, Christoph Wulf, 2023-08-21 This Handbook is a collection of contributions of more than 300 researchers who have worked to grasp the Anthropocene this new geological epoch characterised by a modification of the conditions of habitability of the Earth for all living things in its biogeophysical and socio political reality These researchers also sought to define a historical and prospective anthropology that integrates social

economic cultural and political issues as well as of course environmental ones What are the anthropological changes needed to ensure that our human adventure will be able to continue in the Anthropocene And what are the educational and political issues involved Anthropocene is fast becoming a widely used term but thus far there been no reference work explaining the thoughts of the greatest experts of the present day on this subject at the intersection of biogeophysical and socio political knowledge A scientific and political concept but which is also the conceptual vehicle for conveying the scientific community s sense of concern this complex term is explained by international experts as they reflect on scientific arguments taking place in earth system science the social sciences and the humanities What these researchers from different disciplines have in common is a healthy concern for the future and how to prepare for it in the Anthropocene and also the identification of possible anthropological changes This Handbook encourages readers to immerse themselves in reflections on the human adventure through descriptions of our differing heritages and the future that is in the process of being written **Towards the Ethics of a Green Future** Marcus Düwell, Gerhard Bos, Naomi van Steenbergen, 2018-05-15 What are our obligations towards future generations who stand to be harmed by the impact of today s environmental crises This book explores ecological sustainability as a human rights issue and examines what our long term responsibilities might be This interdisciplinary collection of chapters provides a basis for understanding the debates on the provision of sustainability for future generations from a diverse set of theoretical standpoints Covering a broad range of perspectives such as risk and uncertainty legal implementation representation motivation and economics Towards the Ethics of a Green Future sets out the key questions involved in this complex ethical issue The contributors bring theoretical discussions to life through the use of case studies and real world examples The book also includes clear and tangible recommendations for policymakers on how to put the suggestions proposed within the book into practice This book will be of great interest to all researchers and students concerned with issues of sustainability and human rights as well as scholars of environmental politics law and ethics more generally **Citizenship and Social Exclusion at the Margins of the Welfare State** Marianne Takle, Janikke Solstad Vedeler, Mi Ah Schoyen, Kjetil Klette-Bøhler, Asgeir Falch-Eriksen, 2023-06-01 This book presents a critical account of how citizenship unfolds among socially marginalised groups in democratic welfare states Legal political and sociological perspectives are applied to offer an assessment of the extent and depth of citizenship for marginalised groups in countries which are expected to offer their members a highly inclusive form of citizenship The book studies the legal and political status of members of a nation state and analyses how this is followed up in practice by examining the subjective feelings of membership belonging or identity as well as opportunities to participate actively and be included in different areas of society Showing how the welfare state and society treat citizens at risk of social exclusion and offering new insights into the conceptual interconnection between citizenship social exclusion and the democratic welfare state the book will be of interest to all scholars students and academics of social policy social work and public policy Aging Studies and Ecocriticism

Nassim W. Balestrini, Julia Hoydis, Anna-Christina Kainradl, Ulla Kriebner, 2023-08-15 *Aging Studies and Ecocriticism: Interdisciplinary Encounters* argues that both aging studies and ecocriticism address the complex dynamics of individual and collective agency, oppression and dependency, care and conviviality, vulnerability and resistance as well as intergenerationality and responsibility. Yet even though both fields employ overlapping methodologies and theoretical frameworks and scrutinize boundary texts in different literary genres which have been analyzed from ecocritical perspectives as well as from the vantage point of critical aging studies, there has been little scholarly interaction between ecocritical literary studies and aging studies to date. The contributors in this volume demonstrate the potential of specific genres to narrate relationality and age and the aesthetic and ethical challenges of imagining changes, endings and survival in the Anthropocene. As the first step towards putting both fields in conversation, this collection offers new pathways into understanding human and nonhuman ecological relations.

Environmental Rights Steve Vanderheiden, 2017-07-05 The essays selected for this volume present critical viewpoints from the debate about the need to establish rights on behalf of greater environmental protection. Three main areas for developing environmental rights are surveyed, including extensionist theories that link existing rights, for example to subsistence or territory, to threats of harm from exacerbated resource scarcity, pollution or rapid environmental change; proposals for rights to specified environmental goods or services such as rights to a safe environment and the capacity to assimilate greenhouse gas emissions; and rights that protect the interests of parties not currently recognized as having rights, including nonhuman subjects, natural objects and future generations. This volume captures the potential for and primary challenges to the development of rights as instruments for safeguarding the planet's life support capacities and features proposals and analyses which argue the need to create an avenue of recourse against ecological degradation, whether on behalf of human or nonhuman right holders.

Institutions For Future Generations Iñigo González-Ricoy, Axel Gosseries, 2016-12-15 In times of climate change and public debt, a concern for intergenerational justice should lead us to have a closer look at theories of intergenerational justice. It should also press us to provide institutional design proposals to change the decision-making world that surrounds us. This book provides an exhaustive overview of the most important institutional proposals as well as a systematic and theoretical discussion of their respective features and advantages. It focuses on institutional proposals aimed at taking the interests of future generations more seriously and does so from the perspective of applied political philosophy, being explicit about the underlying normative choices and the latest developments in the social sciences. It provides citizens, activists, firms, charities, public authorities, policy analysts, students and academics with the body of knowledge necessary to understand what our institutional options are and what they entail if we are concerned about today's excessive short-termism.

The Routledge Handbook of Ethics and Public Policy Annabelle Lever, Andrei Poama, 2018-10-26 What does it mean to do public policy ethics today? How should philosophers engage with ethical issues in policy-making when policy decisions are circumscribed by political

and pragmatic concerns How do ethical issues in public policy differ between areas such as foreign policy criminal justice or environmental policy The Routledge Handbook of Ethics and Public Policy addresses all these questions and more and is the first handbook of its kind It is comprised of 41 chapters written by leading international contributors and is organised into four clear sections covering the following key topics Methodology philosophical approaches to public policy ethical expertise knowledge and public policy Democracy and public policy identity integration and inclusion voting linguistic policy discrimination youth policy religious toleration and the family Public goods defence and foreign policy development and climate change surveillance and internal security ethics of welfare healthcare and fair trade sovereignty and territorial boundaries and the ethics of nudging Public policy challenges criminal justice policing taxation poverty disability reparation and ethics of death policies The Routledge Handbook of Ethics and Public Policy is essential reading for students and researchers in philosophy politics and social policy It will be equally useful to those in related disciplines such as economics and law or professional fields such as business administration or policy making in general

Handbook Of Intergenerational Justice Introduction

In the digital age, access to information has become easier than ever before. The ability to download Handbook Of Intergenerational Justice has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Handbook Of Intergenerational Justice has opened up a world of possibilities. Downloading Handbook Of Intergenerational Justice provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Handbook Of Intergenerational Justice has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Handbook Of Intergenerational Justice. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Handbook Of Intergenerational Justice. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Handbook Of Intergenerational Justice, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Handbook Of Intergenerational Justice has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the

most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Handbook Of Intergenerational Justice Books

1. Where can I buy Handbook Of Intergenerational Justice books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Handbook Of Intergenerational Justice book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.).
