**Events, Exhibitions, and Programs** National Endowment for the Humanities. Division of Public Programs, 2002      *From All Points* Elliott Robert Barkan, 2007-05-11 A history of immigrants in the American West in the nineteenth and twentieth centuries and their effect on the region At a time when immigration policy is the subject of heated debate this book makes clear that the true wealth of America is in the diversity of its peoples By the end of the twentieth century the American West was home to nearly half of America s immigrant population including Asians and Armenians Germans and Greeks Mexicans Italians Swedes Basques and others This book tells their rich and complex story of adaptation and isolation maintaining and mixing traditions and an ongoing ebb and flow of movement assimilation and replenishment These immigrants and their children built communities added to the region s culture and contended with discrimination and the lure of Americanization The mark of the outsider the alien the nonwhite passed from group to group even as the complexion of the region changed The region welcomed then excluded immigrants in restless waves of need and nativism that continue to this day Written in the fashion of Oscar Handlin this study makes a convincing

case that immigration history comprises an essential part of the history of the American West and that appreciation of the former and the roles played by myriad alien arrivals is essential for understanding the latter Barkan combines vignettes based on immigrant reminiscences with keen analysis to explore four related themes various groups arrivals their economic influences their effects on public policy and their adaptation and assimilation The resulting narrative is readable and informative Recommended Choice A remarkable synthesis of the West as a region of immigrants It tells the story of how vital immigrants were to economic growth and modernization This will be the prime reference for 21st century scholars of immigration and ethnicity in the American West Annals of Wyoming Spring 2010 Speaking American Zevi

Gutfreund,2019-03-07 When Lyndon B Johnson signed the Bilingual Education Act of 1968 language learning became a touchstone in the emerging culture wars Nowhere was this more apparent than in Los Angeles where elected officials from both political parties had supported the legislation and where the most disruptive protests over it occurred The city with its diverse population of Latinos and Asian Americans is the ideal locus for Zevi Gutfreund s study of how language instruction informed the social construction of American citizenship Combining the history of language instruction school desegregation and civil rights activism as it unfolded in Japanese American and Mexican American communities in L A this timely book clarifies the critical and evolving role of language instruction in twentieth century American politics Speaking American reveals how for generations language instruction offered a forum for Angelino educators to articulate their responses to policies that racialized access to citizenship from the national origins immigration quotas of the Progressive Era through Congress s removal of race from these quotas in 1965 Meanwhile immigrant communities designed language experiments to counter efforts to limit their liberties Gutfreund s book is the first to place the experiences of Mexican Americans and Japanese Americans side by side as they navigated debates over Americanization programs intercultural education school desegregation and bilingual education In the process the book shows these language experiments helped Angelino immigrants introduce competing concepts of citizenship that were tied to their actions and deeds rather than to the English language itself Complicating the usual top down approach to the history of racial politics in education Speaking American recognizes the ways in which immigrant and ethnic activists as well as white progressives and conservatives have been deeply invested in controlling public and private aspects of language instruction in Los Angeles The book brings compelling analytic depth and breadth to its examination of the social and political landscape in a city still at the epicenter of American immigration politics **White Washing American Education** Denise M. Sandoval,Anthony J. Ratcliff,Tracy Lachica

Buenavista,James R. Marín,2016-10-03 Recent attacks on Ethnic Studies revisionist actions in curriculum content and anti immigrant policies are creating a new culture war in America This important work lays out the current debates both in K 12 and higher education to uncover the dangers and to offer solutions In 2010 HB 2281 a law that bans ethnic studies in Arizona was passed in the same year Texas whitewashed curriculum and textbook changes at the K 12 level Since then the nation has

seen a rise in the legal and political war on Ethnic Studies revisionist actions in curriculum content and anti immigrant policies creating a new culture war in America White Washing American Education demonstrates the value and necessity of Ethnic Studies in the 21st century by sharing the voices of those in the trenches educators students community activists and cultural workers who are effectively using multidisciplinary approaches to education This two volume set of contributed essays provides readers with a historical context to the current struggles and attacks on Ethnic Studies by examining the various cultural and political wars that are making an impact on American educational systems and how students faculty and communities are impacted as a result It investigates specific cases of educational whitewashing and challenges to that whitewashing such as Tom Horne s attack along with the State Board of Education against the Mexican American studies in the Tucson School District the experiences of professors of color teaching Ethnic Studies in primarily white universities across the United States and the role that student activists play in the movements for Ethnic Studies in their high schools universities and communities Readers will come away with an understanding of the history of Ethnic Studies in the United States the challenges and barriers that Ethnic Studies scholars and practitioners currently face and the ways to advocate for the development of Ethnic Studies within formal and community based spaces
