

OFFICE OF THE CHIEF OF POLICE

NOTICE **13.5**

December 18, 2020

TO: All Department Personnel

FROM: Chief of Police

SUBJECT: REVISED BIASED POLICING/ALTERNATIVE COMPLAINT RESOLUTION – PILOT PROGRAM; AND THE ALTERNATIVE COMPLAINT RESOLUTION ACKNOWLEDGEMENT, FORM 01.28.96 – RENAMED AND REVISED

The Department currently uses two types of alternative dispute resolution processes to resolve complaints of misconduct: the Community Police Unification Program (CPUP) and the Alternative Complaint Resolution (ACR). Because alternative dispute resolution has been shown to increase understanding between parties and improve public trust, strategies to increase participation have been implemented. This Notice revises ACR procedural constraints and eligibility to include biased policing complaints for a three-year pilot study. The pilot program will become effective once the appropriate P-Learning course prerequisite has been posted on the Department's Local Area Network. This Notice also revises and renames the Alternative Complaint Resolution Acknowledgement, Form 01.28.96, as the Alternative Complaint Resolution Agreement.

Under current procedures, complaints of biased policing are not eligible for the ACR process. However, for this pilot study, selected biased policing complaints may be eligible for ACR when conducted by supervisors who have received specialized training. In addition to mediation and a full investigation, the ACR adds a third option for resolving eligible complaints.

Eligibility Guidelines. The ACR pilot process is limited to public complaints of biased policing and/or discourtesy where there are no additional allegations; or, only additional minor allegations of misconduct, including some unlawful detentions or searches. Complaints of biased policing and discourtesy shall be recorded with a Complaint Form (CF) No. by the same method as any other public complaint of misconduct.

Complaints involving the following circumstances shall not be resolved through the ACR process:

- A reportable use of force;
- Ethnic remark or other specific discourtesy directed at a class of persons;
- A complainant was arrested;
- A lawsuit was filed;
- A person was injured;
- Property was damaged;
- Excessive delay in reporting allegations; or,
- Allegations of criminal misconduct.

DARE to Say No Max Felker-Kantor,2024-04-02 With its signature DARE to keep kids off drugs slogan and iconic t shirts DARE Drug Abuse Resistance Education was the most popular drug education program of the 1980s and 1990s But behind the cultural phenomenon is the story of how DARE and other antidrug education programs brought the War on Drugs into schools and ensured that the velvet glove of antidrug education would be backed by the iron fist of rigorous policing and harsh sentencing Max Felker Kantor has assembled the first history of DARE which began in Los Angeles in 1983 as a joint venture between the police department and the unified school district By the mid 90s it was taught in 75 percent of school districts across the United States DARE received near universal praise from parents educators police officers and politicians and left an indelible stamp on many millennial memories But the program had more nefarious ends and Felker Kantor complicates simplistic narratives of the War on Drugs He shows how policing entered US schools and framed drug use as the result of personal responsibility moral failure and poor behavior deserving of punishment rather than something deeply rooted in state retrenchment the abandonment of social service provisions and structures of social and economic inequality

Calibrating Public Accountability Daniel E. Bromberg, Étienne Charbonneau, 2021-03-25 Accountability is a staple of Public Administration scholarship but scholars have been unsuccessful at developing a predictive model of accountable behavior Large swaths of research about accountability still focuses on scarcely read annual reports as video footage of police encounters are watched and discussed by citizens regularly In this Element we seek to further a predictive model of accountability by understanding the norms and expectations associated with the implementation of Body Worn Cameras Specifically this research examines when police departments release or do not release footage to the public and the expectations civilians have about the release of that footage Indirectly the norms and expectations associated with this technology have broad implications for societal values and the relationship between civilians and law enforcement Our findings suggest the relationship between law enforcement and civilians is central to the implementation of this policy and more broadly accountability
