Japan in the Early Modern World Katja Triplett, Yoshimi Orii, Pia Jolliffe, 2025-09-03 Open Access Early modern transnational relations and personal encounters were influenced by interactions between Japan and the regions that had become connected to it through expanding global trade and missionary networks Translation activities linked to Christian missionary activities overseas trade and political upheaval in these places all contributed to shaping these interactions Adopting an interdisciplinary perspective this volume explores religion translation and transnational relations in

the context of the colonial and missionary enterprises involving Japan between 1550 and 1800 It focuses on the early Catholic mission to Japan discussing both Protestant and local religious reactions to it and the publications of the Jesuit mission press in Japan A survey of the subsequent centuries of scholarly involvement with translational materials in Asian languages further suggests that translation had a formative influence on the intellectual world in the Early Modern period

Frontiers of Evangelization Robert H. Jackson, 2017-07-21 The Spanish crown wanted native peoples in its American territories to be evangelized and to that end facilitated the establishment of missions by various Catholic orders Focusing on the Franciscan missions of the Sierra Gorda in Northern New Spain Mexico and the Jesuit missions of Chiquitos in what is now Bolivia *Frontiers of Evangelization* takes a comparative approach to understanding the experiences of indigenous populations in missions on the frontiers of Spanish America Marshaling a wealth of data from sacramental military and census records Robert H Jackson explores the many factors that influenced the stability of mission settlements including the indigenous communities previous subsistence patterns and family structures the evangelical techniques of the missionary orders the social and political organization within

the mission communities and epidemiology in relation to population density and mobility The two orders Jackson s research shows organized and administered their missions very differently The Franciscans took a heavy handed approach and implemented disruptive social policies while the Jesuits engaged in a comparatively kinder and gentler form of colonization Yet the most critical factor to the missions success Jackson finds was the indigenous peoples existing demographic profile in particular their mobility Nonsedentary populations like the Pames and Jonaces of the Sierra Gorda were more prone to demographic collapse once brought into the mission system whereas sedentary groups like the Guaran of Chiquitos experienced robust growth and greater resistance to disease and natural disaster Drawing on more than three decades of scholarly work this analysis of crucial archival material augments our understanding of the role of missions in colonization and the fate of indigenous peoples in Spanish America
