Winning While Losing Jennifer Green, 2017-05-29 As of right now we are no longer married These were the words I heard from my husband when he came to pick me up at the Ottawa International Airport after a week away He sat me in a corner and said I can't live with you anymore I took away your house key I closed our joint accounts Here is 500 for you to use You can stay at a friend's house or a hotel but you are not coming home You can see the kids tomorrow While this might sound like a scene from a novel or a movie this actually happened to Jennifer Green on Valentine's Day in 2015 In less than 5

minutes she learned that her previous life was over What followed was an almost two year journey from betrayal anger and despair to peace inner strength and a new beginning While often a painful process Jennifer now celebrates the growth that allowed her to realize I was not falling apart I was falling in to place Filled with honesty and insight Winning While Losing The Upside of Heartbreak is a must read book for anyone going through the searing pain of separation divorce or betrayal In it Jennifer shares her own experiences through blogs she wrote during her journey her knowledge as a life coach and tips and exercises to move past the pain into self appreciation mindfulness and gratitude **In It to Win It** Steven J. Maguire,2006 Draws on the wisdom of the Shakespeare to provide comfort empathy encouragement and practical suggestions for dealing with the vast complexities of everyday life identity relationships family loss love death and other universal concepts I Was Broken in All the Right Places William McGee,2022-06-10 Who do we become when our untreated traumas speak on our behalf How do we address the broken places in our lives if we never recognize their existence Most people that knew me or knew of me hardly knew anything about me Born and raised in Seattle Washington I grew up with my eyes wide open to the world but my heart closed off to its humanity not because I was taught this but primarily because of the effects of untreated trauma I grew up knowing God but not experiencing Christ there is a big

difference Throughout my life I was known by many things an athlete a businessman a gym rat a player an alcoholic a womanizer a violent offender But no one saw that I was broken They saw my circumstances but not my condition This book exposes and edifies what hides behind the veil of our broken pieces and what happens when those pieces go undetected I Was Broken in All the Right Places encourages us to find purpose among the pieces *Life's Dueling Dualities* Stephen Michael Soreff MD,2020-12-04 Life is simple Follow a few maxima and it is easy No In growing up everyone must deal with a series of opposing dual messages For example one hears If you hesitate you lose Good Then one also learns Look before you leap Both are correct What to do And this is only one of life s six contradictions This book identifies the six dual dueling ideas The first is Carpe Diem vs Reflection and Contemplation Or its variation the early bird gets the worm but the second mouse gets the cheese The second is ambivalence which amazingly means simultaneously loving and hating something or someone The third involves following your heart versus the head and we all root for the Hollywood ending The fourth looks at whether it is better to work alone or as part of a group The fifth deals with whether you should follow the rules or challenge them The sixth shows the advantages of having big picture views in your life while also appreciating your daily realities The final chapter Transcendence offers a unique answer and alternative to all the six contradictions As a grandfather a father a psychiatrist a son a brother a wishing to be better golfer a jogger a sailor a hiker an amateur geologist want to be comedian local newspaper reporter and a veteran of School of Hard Knocks the author has wrestled with all six of them and discovered moments of transcendence In this book he shares his observations and philosophy about all of them with his grandchildren and you Based on this book you can make better decisions The book itself is engaging insightful witty and entertaining It is full of examples from history literature and the author s experiences Welcome and enjoy *The Land & the Orchard of Human Species* Babajide M. Ola-Buraimo,2011-04-12 The analytical views in this book are not in any way serendipity rather they were well thought out and structured as simply received Thus arises the need to initiatively look back at the epoch of our existence on Earth as preceded by the following survival of the fittest search for food where to live sacrifices and rituals to appeal to God brutalism against one another religious sect formation and deforestation due to uncontrollable population increase Improvisation of wooden houses trees of concrete iron and steel have been initiated but in a way they have continually caused global warming to increase very much at a gradual pace as civilization advances through Machine Age mechanized farming industrialization and technological advancements space exploration and globalization of industries and corporate organizations The heat increases at an unusual unprecedented level due to greenhouse gas emission and thus the assumed greenhouse releases a light weight carbon dioxide CO₂ gas into the atmosphere which is speculated to have formed impenetrable blanket The presence of CO₂ is an indicator pointing to a fact that this gas in question had been released in the past and is presently being discharged uncontrollably More so there seems to be no end in sight as the CO₂ continues to be sporadically expunged into the atmosphere The process described above has continued to be expanding through all frontiers

with no end in sight where new neighborhoods are being built Suburbs margining together as new Castles are evolving block by block and concrete plazas are enveloping the Earth so are the vegetative forest of trees are disappearing causing global warming to increase exponentially The increase becomes very much intense at an alarming rate in that it has now been considered to be adversely effective when found to be dangerously impacting the essence and every facet of life Analytical research is hereby required to be conducted by the world s best researchers and scientists in their respective professional fields Necessary wisdom of advice has to be forwarded by religious leaders of all known notable reliable religious groups or denominations Leaders and heads of governments of all Nations that control every facet of life in every part of the globe must guide and monitor purposely to do proper checks and balances with intuition ideology predictions and prophecies contained in this book *The Land the Orchard of Human Species* This is to determine the level of damages caused by humanity thereby putting the Earth s conditions into a scale of ratio prior to civilization and as civilization progresses i e the condition of the Earth from time immemorial as the scientists and archaeologists can determine through lists of records and documentaries Precisely from premedieval periods to present days and age while projecting into the future of the planet Earth in order for us to be just and find peace among ourselves and on Earth If humanity cannot find peace on Earth then we cannot find peace elsewhere because human s trait is like a shadow that trails behind you when you take a walk in the light Source of all lives and the means of energy and growth [I've Lost Everything...Now What?](#) Tom Morris,2009-10-05 Even though it seems unrecoverable you can grow through loss and what feels like you have lost everything **The Fingers of God** Lisa Michele Neu,2018-02-06 The poems in this book reflect a life time of writing Christian Poetry to inspire teach and lead others to the grace and mercy of our Heavenly Father and to share that God s love does indeed reach down and touch the lives of each one of us in our journey here on earth with all the good bad happy uplifting depressing and sometimes lonely situations we each experience in our walk through life *The Fingers of God* is the first full length collection of poetry written and published by Lisa Neu with several books to follow in the future **Overcoming Redundancy: 52 inspiring ideas to help you bounce back from losing your job** Gordon Adams,2016-08-04 Most people say redundancy changes their lives for the better make sure you are one of them So you ve been made redundant or perhaps you just think it s coming Join the crowd Redundancy is now a very common life experience Almost a quarter of adults will be affected by redundancy during their lifetime But you are not a victim What matters now is how you react to this challenge *OVERCOMING REDUNDANCY* contains advice from survivors from people who have not only survived but turned it to their advantage Many now look back on that redundancy experience with hindsight as the best thing that could ever have happened to them You can use this book to benefit from their experiences and advice Redundancy is an intensely emotional experience It affects your self esteem and motivation You are only human if you feel a sense of anger betrayal or loss This book will help you cope with these social and emotional impacts of redundancy It will also provide valuable tips of managing the financial impacts of redundancy Most importantly it

will help you look forwards not backwards If you've been made redundant reading this book is the first step towards bouncing back GORDON ADAMS is Managing Director of Alternative Futures Research Limited a research company which specialises in helping businesses and individuals to change He has spent over 30 years working for leading organisations like Thomas Cook the BBC and Reed International He overcame redundancy himself when he invested his redundancy payment to set up his own business He has never looked back The company which made him redundant went on to become one of his biggest clients www.alternativefutures.biz
