Youth and Inequality in Education Michael Heathfield,Dana Fusco,2015-07-30 The transition to adulthood for many is mediated by class culture and local global influences on identity This volume analyzes the global injustices that create

inequities and restrict future opportunities for young people during this transitional time including poverty unemployment human rights race ethnicity and location It critically examines global instances of youth discrimination offering positive strategies and practices such as youth work that successfully remediate these injustices With international contributions from Aotearoa New Zealand Australia England Malaysia Peru Philippines Portugal Morocco Jordan and the U S this volume is particularly important to researchers and scholars in the fields of youth studies education and social work

Comprehensive Community Initiatives for Positive Youth Development Jonathan F. Zaff, Elizabeth Pufall Jones, Alice E. Donlan, Sara Anderson, 2015-12-22 While Comprehensive Community Initiatives CCIs provide promising avenues to support the positive development of all young people research findings assessing the relation between CCIs and community level child and youth outcomes have been mixed Although there are exceptions few evaluations on the impact of CCIs on positive youth development have been conducted In this edited collection the authors draw on the field of developmental science to provide a basis for why CCIs are a powerful tool for providing all young people with opportunities to thrive The collection begins with a brief history of CCIs and their impacts to illustrate why a developmental framework is needed followed by a discussion of the editors proposed framework Each chapter that follows offers some of the most rigorous research and extant knowledge of CCIs In the final chapter the editors provide recommendations for future research that can systematically explore the impact of CCIs better indicating their effectiveness and offering proven strategies that can be implemented in varying contexts Altogether this collection offers researchers and practitioners in the field a means by which to better incorporate theory into the vision and practices of CCIs and as such the tools to better measure the outcomes of the CCIs

A Critical Approach to Youth Culture Pamela J. Erwin, 2010 The reality is youth culture and teenagers continue to change but you can stay connected and relevant by understanding culture and its power to influence and shape adolescents In this practical and insightful text you ll develop your own cohesive plan for evaluating cultural influences preparing for strategic ministry to teenagers that effectively addresses the youth cultural context

Surfing the Past Olivier Nyirubugara, 2012 This book discusses one of the most frequently discussed subjects in history education during the last two decades namely how secondary school pupils use the World Wide Web for their learning activities Based on two case studies in two Dutch schools the book shows some ways in which the use of the Web has changed history education in at least three respects first the findings of the two case studies show that the Web has a huge potential to turn the history class previously described as boring and too abstract into a livelier and more attractive environment where concepts events phenomena and processes of the past almost always have textual and or audio visual representations second strong indications were observed showing that the Web fosters historical understanding not only by triggering thinking processes that take pupils beyond the shown contents but also by prompting them to evaluate sources and sample relevant fragments for their assignments third the Web has brought into history education sources that were previously excluded including those described as unconventional This

book shows among other things that convergence is underway on both the user side since pupils use both conventional and unconventional online sources and the content production side where heritage institutions are increasingly getting involved in unconventional platforms like Wikipedia. The latter emerged from the two case studies as the most popular source of historical information while the websites of heritage institutions tended to appear at the bottom of the list of references. Unlike personal sites which also scored better, heritage sites face some obstacles including the still dominant desire to preserve institutions' identity and uniqueness, conservatism which often prevents the redefinition of collection management tasks and the tax payers dilemma. For that reason, collections are not hyperlinked and therefore remain invisible and not easy to find online.

Youth Studies James Côté, 2017-09-16 The burgeoning field of youth studies encompasses multiple viewpoints presenting a confusing picture to novices and experts alike. This insightful text goes to the heart of the fundamental issues and debates that characterize this developing field, giving readers a clearer understanding of its current progress and future prospects. James Côté's lively debate focused overview of the underlying paradigms and theories in youth studies, drawn from the overlapping disciplines of sociology, psychology and cultural studies, functions both as an introduction to the area and as an exercise in critical thinking, putting its readers on the cutting edge of the field. The chapters move from identifying the key threshold meta-concepts that influence research to showing readers how to critically evaluate key debates in areas that are central to students' lives, including education, work, family, technologies, youth culture, identity and politics. *Youth Studies* is the ideal companion to youth-related degree programmes and to youth modules in sociology, social work, social policy, psychology and other related disciplines.

Cyber-risk and Youth Michael Adorjan, Rosemary Ricciardelli, 2018-12-19 Cyber risks are moving targets and societal responses to combat cyber victimization are often met by the distrust of young people. Drawing on original research, this book explores how young people define, perceive and experience cyber risks, how they respond to both the messages they are receiving from society regarding their safety online and the various strategies and practices employed by society in regulating their online access and activities. This book complements existing quantitative examinations of cyberbullying, assessing its extent and frequency, but also aims to critique and extend knowledge of how cyber risks such as cyberbullying are perceived and responded to. Following a discussion of their methodology and their experiences of conducting research with teens, the authors discuss the social network services that teens are using and what they find appealing about them, and address teens' experiences with and views towards parental and school-based surveillance. The authors then turn directly to areas of concern expressed by their participants, such as relational aggression, cyberhacking, privacy and privacy management, as well as sexting. The authors conclude by making recommendations for policy makers, educators and teens, not only by drawing from their own theoretical and sociological interpretations of their findings, but also from the responses and recommendations given by their participants about going online and tackling cyber risk. One of the first texts to explore how young people respond to attempts to regulate

online activity this book will be key reading for those involved in research and study surrounding youth crime cybercrime youth culture media and crime and victimology and will inform those interested in addressing youth safety online how to best approach what is often perceived as a sensitive and volatile social problem

Middle School Today Holly Henderson Pinter, Kim K. Winter, Kayleigh Kassel, 2025-02-18 Middle School Today is clustered into major themes adolescent development and identity the adolescent learner curriculum and instruction and the contemporary middle school The book describes the components related to adolescent development starting with simple principles from psychology regarding the physical cognitive and social development of adolescents The book then explores current trends in research regarding contemporary topics such as trauma informed practices social emotional learning and social justice A large section of the book is devoted to curriculum and instruction This section will reach both broadly and deeply to the ins and outs of designing instruction implementing instruction and assessment across all content areas Readers will have access to resources for teacher candidates and teacher educators to utilize in practice Finally the book explores the historical grounding of middle level education relying on foundational principles from the Association of Middle Level Education AMLE and address how teachers can connect best practices to school settings where implementing best practice may be absent
