Handbook of Electrical Hazards and Accidents ME. Goodson, 1996 This reviewer was very excited when news of the upcoming book by Mr Geddes was released There has been a need in the forensic community for a good treatise on electrical accidents and deaths and certainly the author is qualified to write in this area After reading this text this reviewer is of the opinion that this book will have some value to the forensic practitioner but that it is not the ideal text for either the pathologist or the engineer investigating electrical injuries or deaths

Handbook of Human Factors and Ergonomics Gavriel

Salvendy, 2012-05-24 The fourth edition of the Handbook of Human Factors and Ergonomics has been completely revised and updated. This includes all existing third edition chapters plus new chapters written to cover new areas. These include the following subjects: Managing low back disorder risk in the workplace, Online interactivity, Neuroergonomics, Office ergonomics, Social networking, HF/E in motor vehicle transportation, User requirements, Human factors and ergonomics in aviation, Human factors in ambient intelligent environments. As with the earlier editions, the main purpose of this handbook is to serve the needs of the human factors and ergonomics researchers, practitioners, and graduate students. Each chapter has a strong theory and scientific base but is heavily focused on real world applications. As such, a significant number of case studies, examples, figures, and tables are included to aid in the understanding and application of the material covered.
