The Matrilineal Heritage of Louisa May Alcott and Christina Rossetti Azelina Flint,2021-07-29 In an unprecedented comparison of two of the most important female authors of the nineteenth century Azelina Flint foregrounds the influence of the religious communities that shaped Louisa May Alcott s and Christina Rossetti s visions of female creativity In the early stages of the authors careers their artistic developments were associated with their patrilineal connections to two artistic movements that shaped the course of American and British history the Transcendentalists and Pre Raphaelites Flint uncovers the authors rejections of the individualistic outlooks of these movements demonstrating that Alcott and Rossetti affiliated themselves with their mothers and sisters religious faith Applying the methodological framework of women s mysticism Flint reveals that Alcott s and Rossetti s religious beliefs were shaped by the devotional practices and life writing texts of their matrilineal communities Here the authors iconic portrayals of female artists are examined in light of the examples of their mothers and sisters for the first time Flint recovers a number of unpublished life writings including commonplace albums and juvenile newspapers introducing readers to early versions of the authors iconic works These recovered texts indicate that Alcott and Rossetti portrayed the female artist as a mouthpiece for a wider community of women committed to social justice and divine communion By drawing attention to the parallels in the authors familial affiliations and religious beliefs Flint recuperates a tradition of nineteenth century women s mysticism that departs from the individualistic models of male literary traditions to locate female empowerment in gynocentric relationships dedicated to achieving a shared revelation of God

Sacred Bliss Mark S. Ferrara, 2016-10-20 One of the most important relationships that human beings have with plants is changing our consciousness: consider the plants that give us coffee, tea, chocolate, and nicotine. *Sacred Bliss* challenges traditional attitudes about cannabis by tracing its essential role in the spiritual and curative traditions in Asia, the Middle East, Africa, Europe, and the Americas from prehistory to the present day. In highlighting the continued use of cannabis around the globe, *Sacred Bliss* offers compelling evidence of cannabis as an entheogen used for thousands of years to evoke peak experiences or moments of expanded perception or spiritual awareness. Today, the growing utilization of medical cannabis to alleviate the pain and symptoms of physical illness raises the possibility of using cannabis to treat the mind along with the body. By engaging sacred and secular texts from around the world, *Sacred Bliss* demonstrates that throughout religious history, cannabis has offered access to increased imagination and creativity, heightened perspective and insight, and deeper levels of thought.

American Sensations Shelley Streeby, 2002-05-10 *American Sensations* is an erudite and sweeping cultural history of the sensationalist literatures and mass cultures of the American 1840s. It is the finest book yet written on the U.S. Mexican War and how it was central to the making and unmaking of U.S. mass culture, class, and racial formation. Joselyn David Saldaña, author of *Border Matters: Remapping American Cultural Studies*. A major work that will challenge current paradigms of nineteenth-century literature and culture, *American Sensations* brilliantly succeeds in remapping the volatile and shifting terrain of both national identity and literary history in the mid-nineteenth century. Amy Kaplan, co-editor of *Cultures of United States Imperialism*.
