IMF-Supported Programs on FDI in Low-income Countries Mr. Ali J Al-Sadiq, 2015-07-16 It is common for IMF supported adjustment programs with low income member countries LICs to project that they will facilitate FDI inflows The main objective of this paper is to empirically examine this hypothesis Using an unbalanced panel dataset for 73 low income countries over the period 1980 2012 and two different econometric methods that address the selection bias problem the empirical results robustly show that participating in IMF supported program is associated with a significant increase in FDI inflows **Business Forecasting** A. Reza Hoshmand, 2009-12-04 The information age has brought greater interconnection across the world and transformed the global marketplace To remain competitive business firms look for ways of improving their ability to gauge business and economic conditions around the world At the same time advances in technology have revolutionized the way we process information and prepare business and economic forecasts Secondary data searches data collection data entry and analysis graphical visualization and reporting can all be accomplished with the help of computers that provide access to information not previously available Forecasters should therefore learn the techniques and models involved as applied in this new era Business Forecasting A Practical Approach is intended as an applied text for students and practitioners of forecasting who have some background in economics and statistics The presentation is conceptual in nature with emphasis on rationale application and interpretation of the most commonly used forecasting techniques The goal of this book is to provide students and managers with an overview of a broad range of techniques and an understanding of the strengths and weaknesses of each approach It is based on the assumption that forecasting skills are best developed and retained by starting with simple models followed by repeated exposure to real world examples The book makes extensive use of international examples to amplify concepts **The Operations of Chinese Infrastructure Multinationals in Africa**

Yuxuan Tang, 2021-08-26 The book aims to analyse and evaluate the strategic positioning of China's participation in terms of firm level performance in the generation of infrastructure capacity in African countries Africa counts among its development

challenges a major bottleneck of infrastructure capacity and shortage of investable capital China's long period of high growth generates the strengths to secure availability of energy from Africa by enhancing infrastructure provision for the region To achieve this complementary macro level development beyond the traditional dimension of infrastructure provision ODA Chinese IMNEs become the vital players on the intersection of these processes Thus this research makes practical and analytical contributions to international business studies and development issues by making concrete the analysis of bilateral development processes from a macro context to a micro level framework e.g. focusing on ICT and construction sectors then fitting this into the real world story Infrastructure itself is a key element for potential investment and development processes Therefore how IMNEs achieve not only exist simply in a way of a commercial oriented investment but also in their implications for development and political related issues

The Oxford Handbook of Sovereign Wealth Funds Douglas J. Cumming, Geoffrey Wood, Igor Filatotchev, Juliane Reinecke, 2017-10-26 Sovereign Wealth Funds SWFs represent both an increasingly important and potentially dominant category of alternative investor and a novel form for

governments to project their interests both home and abroad As such they represent both economic actors and embody power vested in the financial and diplomatic resources they can leverage Although at times they have acted in concert with other alternative investors their intergenerational savings function should in theory at least promote more long termist thinking However they may be impelled in towards greater short termism in response to popular pressures demands from predatory elites and or unforeseen external shocks Of all the categories of alternative investment SWFs perhaps embody the most contradictory pressures making for diverse and complex outcomes The aim of this volume is to consolidate the present state of the art and advance the field through new applied conceptual and theoretical insights The volume is ordered into chapters that explore thematic issues and country studies incorporating novel insights in on the most recent developments in the SWF ecosystem This handbook is organized into four sections and 23 chapters The four sections are Governance of SWFs Political and Legal Aspects of SWFs Investment Choices and Structures of SWFs Country and Regional Analyses of SWFs

Climate Variability and Change in the Rift Valley and Blue Nile Basin, Ethiopia Abate Mekuriaw Bizuneh, 2013

This study deals with three interrelated problems First it pursues the quest for local knowledge to understand climate variability and change at local levels Due to controversies uncertainties skepticism and embedded economic and political interests in the climate change discourse effective world collective action is more likely to delay for quite some time to come Moreover as climate change discourse remains very weak at engaging local knowledge policies that emanate from the discourse might be less responsive to local climate problems both in terms of policy ingredients and time frame So having highlighting the paramount importance of local knowledge this study documents and critically analyzes this knowledge system among subsistence farmers in Ethiopia Secondly it analyzes the economic impacts of climate variability and change and adaptation through quantitative methods with a special focus on crop production Finally it analyzes the factors that influence adaptive behavior In so doing it challenges the traditional approach of adaptation research and brings in a conceptual framework borrowed from psychosocial theory and empirically tests the approach in explaining adaptive behavior of farmers
