schooling is presented from all relevant sides to give a complete picture of the present status of the issue and its potential for future resolution Following this overview is a thorough and carefully selected bibliography of literature about home schooling from all viewpoints Easy access to his important resource is then provided via author title and subject indexes

Mechanically Inclined Jeff Anderson, Lisa Thibodeaux, 2024-12-09 Some teachers love grammar and some hate it but nearly all struggle to find ways of making the mechanics of English meaningful to kids As a middle school teacher Jeff Anderson also discovered that his students were not grasping the basics and that it was preventing them from reaching their potential as writers Jeff readily admits I am not a grammarian nor am I punctilious about anything so he began researching and testing the ideas of scores of grammar experts in his classroom gradually finding successful ways of integrating grammar instruction into writer s workshop Just in time for its 20th anniversary this long awaited second edition of *Mechanically Inclined* continues to merge the best of writer s workshop elements with relevant theory about how and why skills should be taught It connects theory about using grammar in context with practical instructional strategies explains why kids often don t understand or apply grammar and mechanics correctly focuses on attending to the high payoff or most common errors in student writing and shows how to carefully construct a workshop environment that can best support grammar and mechanics concepts In this new edition longtime colleague Lisa Thibodeaux joins Jeff in emphasizing four key elements for grammar instruction short daily instruction in grammar and mechanics within writer s workshop using high quality mentor texts to teach grammar and mechanics in context visual scaffolds including wall charts and visual cues that can be pasted into writer s notebooks regular short routines like express lane edits that help students spot and correct errors automatically Comprising an overview of the research based context for grammar instruction a series of over forty detailed lessons updated research compelling new mentor texts and an appendix of helpful forms and instructional tools *Mechanically Inclined* is a boon to teachers regardless of their level of grammar phobia It shifts the negative rule plagued emphasis of much grammar instruction into one which celebrates the power and beauty these tools have in shaping all forms of writing

Supporting Reading in Grades 6-12

Sybil M. Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation and motivate young people to incorporate reading into their lives beyond the required schoolwork. *Supporting Reading Grades 6-12: A Guide* addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity, Explore characteristics, history, and awards of creative works, Analyze structure and aesthetic features of creative works, Develop a literary-based product, and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities support classroom teachers' instruction and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st Century Learner. *Literature for Young Adults* Joan L.

Knickerbocker, 2017-03-15 Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout *Literature for Young Adults* have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, *Literature for Young Adults* includes chapters on literary nonfiction, poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that while films can be used to complement print literature, they are also a literacy format in their own right and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language, including traditional elements as well as metafictional terms, enables readers to share in a literary conversation with their students and others when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.
