

FAQs and Navigational Guide to PKM Articles, Papers, and Posters with short Abstracts (Oct 2015)

Ulrich Schmitt, University of Stellenbosch Business School, South Africa
(http://www.researchgate.net/profile/Ulrich_Schmitt2/contributions)

Feedback from some visitors to this site requested advice regarding the logical sequence and/or thematic focus of the articles and papers. Some also asked for copies of publications not yet uploaded.

- Once the paper is published by the publisher and I am allowed to post a copy (which is mostly possible due to the conferences and journals I pick), I upload a copy to ResearchGate. If I am disallowed to post a copy, I just post an extended abstract (including keywords, subtitles, and references) together with the publisher's URL for accessing the publication.
- However, I do add contributions after the paper has been presented at a conference although the submission deadline set by the publisher for a publication is some months later. Sometimes, I also add an entry when a submission is still under review, because I like to utilize a ResearchGate URL-address for citing the in-the-pipeline-publications in my follow-up papers. Once the final version of such publication is published, the previous paragraph applies.

The Personal Knowledge Management (PKM) concept and prototype system introduced in the publications are based on autonomous capacities engaged in what Levy describes as creative conversations in order to enable the emergence of the distributed processes of collective extelligence and intelligence, which in turn feed them.

Their primary aim is advancing lifelong Personal Knowledge Management support and academic and professional growth benefitting individuals as contributors and beneficiaries of institutional and societal performance. As such it opens up opportunities to de-centrally tackle KM by employing grass roots, bottom-up, lightweight, affordable applications. Although this means departing from the centralized institutional top-down developments and strengthening individual sovereignty and personal capacities, it is not meant to be at the expense of Organizational KM Systems, but rather as the means to foster a fruitful co-evolution.

During the 90s, the author started to develop this PKM concept and with it the prototype system which has been continuously expanded and used personally for career support as a management consultant, scholar, professor, and academic manager. Recent advances in development, database, and hosting platforms have now provided a viable opportunity for innovation and its conversion into an application serving a wider audience across technological environments.

In parallel to further advancing the PKM prototype system, paper and poster presentations have focused on various aspects of the concept and design. In acknowledging the trans-disciplinarity of the PKM notion, the peer-reviewed papers received feedback from and addressed a wide scope of conference themes, including Knowledge Management and Knowledge Technologies, Management and Social Sciences, Higher Education and Educational Technologies, Human Resource Development, Innovation and Creativity Support Systems, Organizational Learning and e-Learning, as well as Informing Science, Sustainability, and Future Studies.

Table 1 provides short abstracts of the papers and articles published, accepted, or currently under review presented in six thematic clusters. I trust it will provide some navigational guidance.

Enjoy Ulli Schmitt
