The Oxford Handbook of Sacramental Theology Hans Boersma, Matthew Levering, 2015-08-06 As a multi faceted introduction to sacramental theology the purposes of this Handbook are threefold historical ecumenical and missional The forty four chapters are organized into the following parts five parts Sacramental Roots in Scripture Patristic Sacramental Theology Medieval Sacramental Theology From the Reformation through Today and Philosophical and Theological Issues in Sacramental Doctrine Contributors to this Handbook explain the diverse ways that believers have construed the sacraments both in inspired Scripture and in the history of the Church's practice In Scripture and the early Church Orthodox Protestants and Catholics all find evidence that the first Christian communities celebrated and taught about the sacraments in a manner that

Orthodox Protestants and Catholics today affirm as the foundation of their own faith and practice. Thus for those who want to understand what has been taught about the sacraments in Scripture and across the generations by the major thinkers of the various Christian traditions this Handbook provides an introduction. As the divisions in Christian sacramental understanding and practice are certainly evident in this Handbook it is not thereby without ecumenical and missional value. This book evidences that the story of the Christian sacraments is despite divisions in interpretation and practice one of tremendous hope.

The Promise of Lutheran Ethics Karen L. Bloomquist, John R. Stumme, 1998-08-01 Here ten Lutheran theologians explore Lutheran emphases, themes and approaches to offer their account of Christian ethics as a way of life in today's world. Writing in dialogue they raise foundational concerns of biblical and theological sources and norms of Christian freedom and responsibility of call and social witness of justice and formation in prayer. Then in a lively Table Talk the participants discuss and debate the tradition's insights and oversights and show how it might illumine today's burning ethical issues such as homosexuality.

Truth-Telling and Other Ecclesial Practices of Resistance Christine Helmer, 2021-05-25 In this book leading American Lutheran theologians inspired by the Scandinavian emphasis on theology as embodied practice ask how Christian communities might be mobilized for resistance against systemic injustices. They argue that the challenges we confront today as citizens of the United States as a species in relation to all the other species on the planet and as members of the body of Christ require an imaginative reconceptualization of the inherited tradition. The driving force of each chapter is the commitment to truth telling in naming the church's complicity with social and political evils and to reorienting the church to the truth of grace that Christianity was created to communicate. Contributors ask how ecclesial resources may be generatively repurposed for the church in the world today for church building grounded in Christ and for empowering the church's witness for justice. The authors take up the theme of resistance in both theoretical and pragmatic terms on the one hand rethinking doctrine on the other reconceiving lived religion and pastoral care in light of the necessary urgencies of the time and bearing witness to the God whose truth includes both justice and hope.

A Liberation Theology of the Brain Carmelo Santos-Rolón, 2025-06-10 Drawing on experiences from the lab, the local congregation, the immigrant rights movement, the university classroom, the global church and brain science this book invites readers to discover the transformative possibilities that arise when we recognize that the insights of science and theology can complement and transform each other. Brain science and theology can be powerful partners in God's work of liberating all of us from the internalized structures of oppression that colonize imaginations, imprison emotions, subjugate bodies and fracture societies. Trained as a scientist, a pastor and a theologian Carmelo Santos Rolón brings together insights from various fields in neuroscience and the cognitive sciences such as the neuroscience of religious experience, the neuroscience of emotions, the cognitive science of religion and the neuroscience of decision making with data from liberation, postcolonial, decolonial and Lutheran ecumenical theologies to analyze the spiritual experience of holistic liberation. The result is a theological framework

informed by science that allows us to appreciate how the Spirit of God is at work in with and under neurons bodies and communities in all their beautiful messiness and complexity In the tradition of liberation theologies which insist that action and reflection belong together and must inform each other this book aims at a theology with dirty hands and worn out shoes It is meant for a people who are not just intellectually curious about who God is and how religion affects our brains but who are eager to join in God s work of bringing healing and hope to a wounded world Theology and neuro science together allow us to witness how the Spirit of God is at work deep inside the nooks and crannies of our brains in the chemistry of our nervous systems in the emotions that orient our actions and in the communities that shape our identities Through tangible means such as words and rituals symbols and narratives sacraments and community God liberates us for lives of meaning and purpose at the service of the beautiful future that God is bringing into being **Lutheran Theology** Paul R.

Rather than asking if theology is theoretical or practical a question that reveals a fundamental lack of understanding about the nature of theology in general it is better to ask What exactly is theology It is this question that Oswald Bayer attempts to answer in **Theology the Lutheran Way** clearing up misconceptions about the essence of theology Along with Luther himself Bayer claims that theology rather than being something that we do is really what God does Based primarily on the third section of Bayer s original German work of the same title this book evaluates certain approaches to theology that have been influential from Schleiermacher s understanding of theology to debates with Kant Hegel and Bultmann It also includes a substantial section on Luther from the original in order to clarify the Lutheran tradition **Doing Theology Today** Schubert
