Donald L Caldwell

M3 Infantry Half Track 1940 73 New Vanguard:

M3 Infantry Half-Track 1940-73 Steven J. Zaloga, 2013-06-20 As armoured warfare tactics matured mechanised infantry became a key ingredient in what is now called combined arms doctrine For the US Army of World War 2 the most important technical aspect of infantry mechanisation was the development of the M3 half track personnel carrier Steven Zaloga explores the early 1930s development of the half track its first deployment in action in the Philippines in 1941 and its varied and vital role in international deployments since World War 2 This authoritative text also examines the operators of half tracks and the troops that they carried **Browning .50-caliber Machine Guns** Gordon L. Rottman, 2011-03-15 The Browning 50 cal has become the longest serving weapon in the US inventory The fifty has been employed in every imaginable role for a machine gun It is considered such an effective and reliable weapon that few countries ever attempted to develop an equivalent weapon Even the Japanese created a copy of it during World War II when the US was producing literally thousands every month to use in every theater This is a history of the development of this famous weapon its most critical operational use and the variants that have been produced to keep it at the forefront of the action Soviet Lend-Lease Tanks of World War II Steven J. Zaloga, 2017-06-29 The Red Army suffered such catastrophic losses of armour in the summer of 1941 that they begged Britain and the United States to send tanks The first batches arrived in late 1941 just in time to take part in the defence of Moscow The supplies of British tanks encompassed a very wide range of types including the Matilda Churchill and Valentine and even a few Tetrarch airborne tanks American tanks included the M3 Stuart light tank and M3 Lee medium tank and the M4 Sherman tank which became so common in 1944 45 that entire Soviet tank corps were equipped with the type With these Western tanks the Soviets were finally able to beat back the German tide in the East This study examines the different types of tanks shipped to the Soviet Union during the war Soviet assessments of their merits and problems and combat accounts of their use in Soviet service using full colour artwork contemporary photographs and detailed cut away illustrations World War II US Cavalry Groups Gordon L. Rottman, 2012-07-20 An introduction to the US Cavalry units equipped with light armor and their role in the European Theater during World War II The cavalry regiments of the US Army were in the process of being transformed into a mechanized force when the USA entered World War II While those cavalry regiments deployed to the Pacific to fight the Japanese were turned into infantry units those sent to Europe were employed as light armor in the cavalry s traditional spearhead roles reconnaissance the screening of advances and flanks and the pursuit of beaten enemy forces Equipped with M8 Greyhound armored cars M5 Stuart and M24 Chaffee light tanks and halftracks these units were designated cavalry groups mechanized each c 1 700 strong and divided into two heavily armed squadrons They were seldom attached to divisions but to higher level corps commands meaning they could be shifted around quickly and independently and be formed at need into flexible battle groups with armored infantry and other units depending on the mission Featuring specially drawn full color illustrations depicting uniforms insignia armored vehicles

and tactical scenarios this is the story of the US cavalry units that led the advance to victory in Europe during World War II

Thunder on Bataan Donald L Caldwell, 2023-06-14 An incisive readable account of a group of National Guard tankers who fought in the Philippines in the opening phase of America's war in the Pacific Robert S Cameron Ph D military historian and author of *Mobility Shock and Firepower The Emergence of the U S Army's Armor Branch 1917-1945* The American Provisional Tank Group had been in the Philippines only three weeks when the Japanese attacked the islands hours after the raid on Pearl Harbor Sent north to meet the Japanese landings in Lingayen Gulf the men of the PTG found themselves thrust into a critical role when the Philippine Army could not hold back the Japanese When General MacArthur ordered the retreat to Bataan the PTG proved itself indispensable During early months of 1942 the light tanks of the PTG patrolled Bataan's beaches encircling and destroying Japanese penetrations and small amphibious landings By April 1942 the situation had become untenable and 15 000 Americans along with 60 000 Filipinos surrendered in one of the worst defeats in U S military history The Provisional Tank Group ceased to exist and its men endured the Bataan Death March the torture and starvation of POW camps the hell ships that took them to Japan and Manchuria for slave labor and the Palawan massacre In an evocatively written book Donald L Caldwell reveals the largely ignored role of tanks in the Philippine campaign Conducting impressive primary research to bring to life the combat history of the PTG Caldwell has dug deeper to tell the stories of soldiers from each of the group's six companies recounting their service from enlistment training and combat to imprisonment liberation and return home Remarkable A well told history highly recommended Jay A Stout LtCol Ret USMC author of *Air Apaches* [Tank Warfare, 1939-1945](#) Simon Forty, Jonathan Forty, 2020-07-19 On the battlefields of Europe and North Africa during the Second World War tanks played a key role and the intense pressure of combat drove forward tank design and tactics at an extraordinary rate In a few years on all sides tank warfare was transformed This is the dramatic process that Simon and Jonathan Forty chronicle in this heavily illustrated history They describe the fundamentals of pre war tank design and compare the theories formulated in the 1930s as to how they should be used in battle Then they show how the harsh experience of the German blitzkrieg campaigns in Poland France and the Soviet Union compelled the Western Allies to reconsider their equipment organization and tactics and how the Germans responded to the Allied challenge The speed of progress is demonstrated in the selection of over 180 archive photographs which record as only photographs can the conditions of war on each battle front They also give a vivid impression of what armoured warfare was like for the tank crews of 75 years ago [To Cage the Red Dragon](#) Damien Fenton, 2012 It is now 20 years since the Cold War effectively ended with the dramatic collapse of the Soviet Union and its client states in Eastern and Central Europe and just over three decades since the final bloody climax of the Vietnam War played itself out on the streets of Saigon Phnom Penh and Vientiane The historiography of the wider Cold War has burgeoned accordingly greatly assisted by increasing access to all manner of archival material belonging to former foes on both sides of what was once the Iron Curtain That of the Vietnam War at least

insofar as the West is concerned had already established itself as a field of significant depth and breadth by the end of the 1980s However it too has benefited and continued to grow in the wake of the large scale release by many Western governments of their remaining official material from that era into the public domain M26/M46 Pershing Tank 1943-53 Steven J. Zaloga,2000-11-25 From the moment that the M4 Sherman had been matched against German Panther and Tiger tanks the American tank crews had known that their vehicles were outclassed by the opposition What was needed was a more powerful tank more heavily armed and armored that could take on the powerful German panzers on a more equal footing Although it took time to develop by the latter months of the war numbers of M26 Pershing tanks were reaching the frontline US armored units Well armored and with a powerful 90mm gun the Pershing was a match for any tank in the German order of battle *The Maginot Line 1928-45* William Allcorn,2003-08-20 The Maginot Line the massive series of fortifications built by France in the 1930s to defend its borders with Germany and Italy is perhaps the most maligned collection of fortifications ever built Despite being a technological marvel and the most sophisticated and complex set of fortifications built up to that time it failed to save France from crushing defeat in 1940 Yet there are those who argue that it accomplished exactly what it was designed to do This book provides a concise and informative treatment of the Maginot Line from North East France to the Mediterranean Packed with plans contemporary and modern images plus digital artwork it presents a detailed visual exploration of this famous fortification system **The British National Bibliography** Arthur James Wells,1995 **Fallschirmjäger** Bruce Quarrie,2001-10-25 Few of the combatants of World War II have captured the imagination as compulsively as the Fallschirmjäger Boldness and courage were vital characteristics in the rigorous selection process and their training was highly demanding Hitler's airborne troops were involved in some of the most daring actions of the whole war from the 1940 assault on Eben Emael and the invasion of Crete in 1941 to the rescue of Mussolini and the attempt on Tito's life In addition they saw service as elite line infantry in the key theatres of North West Europe North Africa and the Eastern Front This title looks at the life and experiences of the average Fallschirmjäger and includes first hand accounts from different theatres and periods of the war **The SdKfz 251 Half-track** Bruce Culver,1983-01-01
