otherwise of the spirit world Not since the founding of The Ghost Club in 1862 and the Society for Psychical Research in 1882 has ghost hunting been so popular Television and the internet in particular have fueled this new level of interest creating a modern media phenomenon that spans the globe But while the demand for information is high good information remains scarce A Brief Guide to Ghost Hunting leads us through the process of ghost hunting from initially weighing the first report to choosing equipment and investigating and identifying the phenomena with an analysis of the best places to go looking methods of contacting the spirit world how to explain paranormal activity and crucially how to survive the encounter However it is also a book about ghost hunting itself drawing on 130 years of research in the cavernous archives of the Society for Psychical Research and even older history to find the earliest ghost stories A Ghost Hunting Survey makes use of interviews with those billing themselves as ghost hunters to find out their views motivations and experiences New and original research makes use of statistics to map the nebulous world of apparitions while a Preliminary Survey of Hauntings offers an analysis of 923 reported phenomena from 263 locations across the UK This is as far as possible an objective presentation of ghosts and ghost hunting It is no wonder that mainstream science largely refuses to deal with the subject it is too complicated Without trying to convince you of any viewpoint this book is intended to help you understand more

Placing London John Eade, 2001-06-01 London continues to fascinate a vast audience across the world and an extensive diverse literature now exists describing and analyzing this metropolis The central question what is London has produced many answers but none of them the author argues uncovers the complex ways in which knowledge is constructed in the diverse attempts to represent places and people On the contrary a gulf has opened up between analysis of contemporary London as a global postcolonial city on the one hand and historical accounts of the imperial capital on the other The author shows how the gap can be bridged by combining an analysis of the representation over time by various experts of London and certain localities with an investigation of the ways in which residents have represented their communities through struggles over symbolic and material resources The British National Bibliography Arthur James Wells, 2009 Prague Andrew Beattie, 2014-07-30 Since its foundation in the ninth century Prague has punched way above its weight to become a fulcrum of European culture The city's most illustrious figures in the fields of music literature and film are well known Mozart staged the premiere of his opera Don Giovanni here in the early twentieth century Franz Kafka was at the forefront of the city's intellectual life while later writers such as Milan Kundera and film directors such as Milos Forman chronicled Prague's fortunes under communism Yet the city has a cultural heritage that runs far deeper than Kafka museums and Mozart by candlelight concerts It encompasses the avant garde punk group Plastic People of the Universe the new wave film directors of the 1960s who made their striking movies in the city's famed Barrandov studios and artists such as Alfons Mucha and Frantisek Kupka whose revolutionary canvases fomented Art Nouveau and abstract art at the dawn of the twentieth century Beyond art galleries concert halls and cinemas the history of Prague has been one of invasion and sometimes brutal

oppression The great German chancellor Otto von Bismarck once commented that whoever controls Prague controls mid Europe and a succession of imperialist powers have taken this advice to heart most recently Nazi Germany and the Soviet Union Opposition has taken many forms from the religious reformer Jan Hus in the fifteenth century to playwright and dissident Vclav Havel whose elevation to the Czechoslovak presidency in 1990 made him a symbol of the rebirth of democracy in Eastern Europe In this book Andrew Beattie also reflects on the modern city where bold new buildings such as Frank Gehry's Dancing House rub shoulders with monuments from the Gothic and Baroque eras such as the Charles Bridge and St Vitus Cathedral He considers the suburbs too home to world renowned soccer and ice hockey teams gleaming shopping centers and grim communist era apartment blocks that are often home to Vietnamese Romany and Muslim minority groups who live in a city with a growing international outlook The Prague he reveals is an increasingly confident and diverse city of the new Europe

Take The Gap - A South African handbook for two years in London Nicole

Canning, 2012-10-02 As an unemployed poverty stricken South African in London Nicole began to pen her thoughts on her two year experience into her diary These rambles were to become a weekly column in the South African the expat newspaper in London after a chance meeting with the editor Greg Greg's job exposed him to lots of useful information such as how to get a fake visa and where to buy blackmarket boerewors It seemed a shame to confine these insights to history's slosh bucket so once back home the two met up again It was common sense to combine their experiences put them all on paper and merge their knowledge into Take the Gap a use it or lose it book packed full of advice for those adventurous souls who are considering a stint in London Or for those who have been and seen and want to reminisce a first class ticket back to the Big Smoke that you grew to love like a pounding headache after a night down at the pub This book is not a guide guides are boring and go out of date Anxious parents should not read this book

Rome and The Guidebook Tradition Anna

Blennow, Stefano Fogelberg Rota, 2019-04-01 To this day no comprehensive academic study of the development of guidebooks to Rome over time has been performed This book treats the history of guidebooks to Rome from the Middle Ages up to the early twentieth century It is based on the results of the interdisciplinary research project Topos and Topography led by Anna Blennow and Stefano Fogelberg Rota From the case studies performed within the project it becomes evident that the guidebook as a phenomenon was formed in Rome during the later Middle Ages and early Renaissance The elements and rhetorical strategies of guidebooks over time have shown to be surprisingly uniform with three important points of development a turn towards a more user friendly structure from the seventeenth century and onward the so called Baedeker effect in the mid nineteenth century and the introduction of a personalized guiding voice in the first half of the twentieth century Thus the guidebook tradition is an unusually consistent literary oeuvre which also forms a warranty for the authority of every new guidebook In this respect the guidebook tradition is intimately associated with the city of Rome with which it shares a constantly renovating yet eternally fixed nature
