Waldie, Ed Ruscha, 2016-07-12 The renowned artist Ed Ruscha was born in Nebraska grew up in Oklahoma and has lived and worked in Southern California since the late 1950s Beginning in 1956 road trips across the American Southwest furnished a conceptual trove of themes and motifs that he mined throughout his career The everyday landscapes of the West especially as experienced from the automobile gas stations billboards building facades parking lots and long stretches of roadway are the primary motifs of his often deadpan and instantly recognizable paintings and works on paper as well as his influential artist books such as *Twentysix Gasoline Stations* and *All the Buildings on the Sunset Strip* His iconic word images declaring *Adios Rodeo* *Wheels over Indian Trails* and *Honey I Twisted through More Damn Traffic to Get Here* further underscore a contemporary Western sensibility Ruscha's interest in what the real West has become and Hollywood's version of it plays out across his oeuvre The cinematic sources of his subject matter can be seen in his silhouette pictures which often appear to be grainy stills from old Hollywood movies They feature images of the contemporary West such as parking lots and swimming pools but also of its historical past covered wagons buffalo teepees and howling coyotes Featuring essays by Karin Breuer and D J Waldie plus a

Berger, 2011-07-13 Zen Driving can make each driving experience enjoyable whether it's a daily hour long drive to work or a ten minute run to the local Safeway You may well ask what is Zen driving The Japanese word zen literally means meditation and meditation means being fully aware fully in touch with your surroundings When you are in a meditative state you are in your natural self your Buddha self and you can do it while driving But why Zen driving The purpose of Zen Driving the book is to introduce you to your natural self which is what remains when you still your mind and ignore your chattering ego When you do this you gain confidence in your ability and finally you are that ability The frustrations of other drivers cutting you off or causing you to sit through two red lights because they're too timid to make a left turn on yellow will no longer make your blood pressure explode Zen Driving will teach you to look simply observe without qualification and then make your move Zen driving is effortless spontaneous non-deliberate It is being one with the road And in turn driving becomes a pathway to consciousness an activity that clears the mind and soothes the soul something to take with you all those other times when you're not behind the wheel **Master Drawings in the Los Angeles County**

Museum of Art Los Angeles County Museum of Art, Bruce Davis, 1997 More than 100 masterworks from the collection all in full color each with a text about the artist and drawing as well as full documentation 105 colour illustrations Thomas Hirschhorn Lisa Lee, 2025-09-30 A groundbreaking study of the crossover relationship between art and graphic design in the work of widely acclaimed artist Thomas Hirschhorn b 1957 Drawing extensively from unknown or little known works and previously unpublished documents from the artist's archive Thomas Hirschhorn from Graphic Design to Art explores the formative decade of 1984 to 1994 It tells the story of Hirschhorn's initial commitment to the print medium with its basis in mass culture and distribution as a vehicle for his political energies Lisa Lee analyzes for the first time in Hirschhorn scholarship his works of self-commissioned graphic design which combine rudimentary collage and diagrammatic languages to assert an essential publicness She describes Hirschhorn's growing disenchantment with the practical and political limitations of graphic design and simultaneously his realization that artmaking with its freedoms and attendant responsibilities was the only framework in which to realize his political ambitions Finally and crucially the book offers original interpretations of Hirschhorn's dedicated reinvention of composition exhibition and dissemination of artworks to better embody his utopian desire to intervene in the world Lee shows that nearly all the artistic strategies we associate with Hirschhorn were first articulated in this formative decade the use of quotidian materials the appropriation of vernacular forms the processing of mass-circulated images an embrace of quantity and an emphasis on urban peripheries
