Ecology Oswald J. Schmitz, 2018-12-18 Our species has transitioned from being one among millions on Earth to the species that is single handedly transforming the entire planet to suit its own needs In order to meet the daunting challenges of environmental sustainability in this epoch of human domination known as the Anthropocene ecologists have begun to think differently about the interdependencies between humans and the natural world This concise and accessible book provides the best available introduction to what this new ecology is all about and why it matters more than ever before Oswald Schmitz describes how the science of ecology is evolving to provide a better understanding of how human agency is shaping the natural world often in never before seen ways The new ecology emphasizes the importance of conserving species diversity because it can offer a portfolio of options to keep our ecosystems resilient in the face of environmental change It envisions humans taking on new roles as thoughtful stewards of the environment to ensure that ecosystems have the enduring capacity to supply the environmental services on which our economic well being and our very existence depend It offers the ecological know how to maintain and enhance our planet s environmental performance and ecosystem production for the benefit of current and future generations Informative and engaging The New Ecology shows how today s ecology can provide the insights we need to appreciate the crucial role we play in this era of unprecedented global environmental transition Provided by publisher

General Technical Report RM. ,1987 The Governance of Rangelands Pedro M. Herrera, Jonathan Davies, Pablo Manzano Baena, 2014-10-10 Rangelands are large natural landscapes that can include grasslands shrublands savannahs and woodlands They are greatly influenced by and often dependent on the action of herbivores In the majority of rangelands the dominant herbivores are found in domestic herds that are managed by mobile pastoralists Most pastoralists manage their rangelands communally benefitting from the greater flexibility and seasonal resource access that common property regimes can offer As this book shows this creates a major challenge for governance and institutions This work improves our understanding of the importance of governance how it can be strengthened and the principles that underpin good governance in order to prevent degradation of rangelands and ensure their sustainability It describes the nature of governance at different levels community governance state governance international governance and the unique features of rangelands that demand collective action issues of scale ecological disequilibrium and seasonality A series of country case studies is presented drawn from a wide spectrum of examples from Africa the Middle East Central Asia Europe and North America These provide contrasting lessons which are summarised to promote improved governance of rangelands and pastoralist livelihoods
