Green Made Easy The Everyday Guide For Transitioning To A Green Lifestyle:

Green Made Easy Chris Prelitz, 2009-04-15 A green lifestyle expert offers his best tips for going green so you can save money and help the environment at the same time Going green is not only good for our planet it's good for your pocketbook For over 20 years green pioneer and author Chris Prelitz has been helping businesses homeowners and corporations lower their monthly expenses by going green Chris and his wife Becky share a green solar powered home in Laguna Beach California which Chris designed and built Most months they produce more power than they use and receive a credit from their power company instead of a bill In this book Chris shares personal experiences lessons learned and reflections that humorously touch the heart and inspire the spirit The chapter Busting Green Myths will sway even the most cynical person toward better eco choices that will also save money Chris says We're rediscovering that it's so much healthier more lucrative and better for every living thing to transition away from wasteful polluting technologies and make choices that work in harmony with nature *Green Made Easy* is written in a friend to friend conversational style and examines our daily lives from personal care and cosmetics to solar energy systems This book will delight and inspire any and all who dream of making a difference and wish to create a thriving healthy future for generations to come

Deep Truth Gregg Braden, 2012-10-15 The Crisis Best selling author and visionary scientist Gregg Braden suggests that the hottest topics that divide us as families cultures and nations seemingly disparate issues such as war terrorism abortion genocide poverty economic collapse climate change and nuclear threats are actually related They all stem from a worldview based upon the false assumptions of an incomplete science The History The obsolete beliefs of our modern worldview have brought us to the brink of disaster and the loss of all that we cherish as a civilization Our reluctance to accept new discoveries about our relationship to the earth one another and our ancient past keeps us locked into the thinking that has led to the crises threatening our lives today The Facts The scientific method allows for and expects new information to be revealed and assimilated into our existing beliefs It's the updating of scientific knowledge with the new facts from new discoveries that is the key to keeping science honest current and meaningful To continue teaching science that is not supported by the new discoveries ones based upon accepted scientific methods is not in fact scientific But this is precisely what we see happening in traditional textbooks classrooms and mainstream media today The Opportunity Explore for yourself the discoveries that change 150 years of scientific beliefs yet are still not reflected in mainstream thinking including Evidence of advanced near ice age civilizations The origin of and reasons for war in our ancient past and why it may become obsolete in our time The false assumptions of human evolution and of the Darwinian theory Let the strongest live and the weakest die and how this plays out in corporations societies warfare and civilization today *Deep Truth* reveals new discoveries that change the way we think about everything from our personal relationships to civilization itself When the facts become clear our choices become obvious

Environmental Sustainability and American Public Administration J. Michael Martinez, 2016-11-01 Protecting the natural environment and

promoting environmental sustainability have become important objectives for U S policymakers and public administrators at the dawn of the twenty first century Institutions of American government especially at the federal level and the public administrators who work inside of those institutions play a crucial role in developing and implementing environmental sustainability policies This book explores these salient issues logically First it explores fundamental concepts such as what it means to be environmentally sustainable how economic issues affect environmental policy and the philosophical schools of thought about what policies ought to be considered sustainable From there it focuses on processes and institutions affecting public administration and its role in the policy process Accordingly it summarizes the rise of the administrative state in the United States and then reviews the development of federal environmental laws and policies with an emphasis on late twentieth century developments This book also discusses the evolution of American environmentalism by outlining the history of the environmental movement and the growth of the environmental lobby Finally this book synthesizes the information to discuss how public administration can promote environmental sustainability

Awakened by Autism

Andrea Libutti, M.D.,2015-04-01 Andrea Libutti began the work of reconstructing herself after her oldest son was diagnosed with severe autism several years ago Distraught and seemingly hopeless at the time a series of unfolding events moved her from sleepwalking through life toward a personal journey of inner transformation She immersed herself in research surrounding the causes and treatments for autism and after several years of learning she has come to understand the disorder from a physical emotional and spiritual perspective In Awakened by Autism Andrea shares her journey and the knowledge she has gained along the way She believes that the masses of children diagnosed today with autism are here to teach us some important lessons about the world we have created Humanity has gotten off track often motivated by profit leaving our bodies and our planet overburdened with toxins and our families exhausted stressed and broken It is for these very reasons that autism has emerged as an epidemic and a calling for humanity to wake up We cannot continue to deplete our planet and our souls and still expect our children to thrive Awakened by Autism is both a memoir and a practical guide for healing our children and a starting point for healing our planet
