Nelson, 2013-10-03 For courses in Greenhouse Management Based on the author s life long practical experiences both in the industry and in research *Greenhouse Operation and Management Seventh Edition* offers students a state of the art guide to the operation of commercial flower and vegetable greenhouses The text presents coverage in the order in which decision making concerns occur for a person entering the greenhouse business Exceptionally comprehensive yet accessible it provides detailed step by step instructions in layman s terms for ALL aspects of the business from the physical facilities to the day to day operations to business management and marketing *Handbook of Cannabis Production in Controlled Environments* Youbin Zheng, 2022-06-29 For thousands of years Cannabis sativa

commonly called cannabis or marijuana has been used for many different purposes. Due to its enormous medicinal values, increasing numbers of countries and regions have started to legalise the cultivation of this plant. When grown commercially, cannabis is most often produced in controlled environments including greenhouse and indoor growing rooms to ensure consistent growth and high quality. Even for field production, propagation is frequently conducted in controlled environments. Commercial operations and individual growers who cultivate cannabis for personal consumption require scientific information on how to cultivate cannabis most effectively and efficiently. To meet these needs, scientists have been conducting research on how to optimize cannabis cultivation both in small and large scales. *Handbook of Cannabis Production in Controlled Environments* is the result of collaborations between some leading cannabis scientists and highly experienced practitioners. Featuring full color illustrations and photographs throughout, this book covers a broad range of topics including cannabis biology, science and techniques for breeding and propagation, management and optimization of both aerial and rootzone environments, plant nutrition and nutrient disorder diagnosis, crop training and pest management, harvesting and post harvest processing. Along with the basic aspects of controlled environment cannabis production, this book summarises developments in these areas that may challenge old beliefs and improve production. Led by Editor Youbin Zheng, President of the Canadian Society for Horticultural Science (La Société Canadienne de Science Horticole), this book is a practical guide for cultivators, consultants and researchers, a reference for students and an information source for individuals who grow cannabis for personal consumption. *Container Nursery Production and Business Management Manual* JULIE P.

NEWMAN, 2014-06-10. This colorful manual includes research based information on all aspects of production of landscape plants in commercial nurseries.
