## **Gregory The Great And His World:**

Gregory the Great and His World R. A. Markus, 1997-10-09 Markus's new and accessible work is the first full study of Gregory the Great since that of F. H. Dudden 1905 to deal with both Gregory's life and work as well as with his thought and spirituality. With his command of Gregory's works, Markus portrays vividly the daily problems of one of the most attractive characters of the age. Gregory's culture is described in the context of the late Roman educational background and in the context of previous patristic tradition. Markus seeks to understand Gregory as a cultivated late Roman aristocrat converted to the ascetic ideal caught in the tension between his attraction to the monastic vocation and his episcopal ministry at a time of catastrophic change in the Roman world. The book deals with every aspect of his pontificate as bishop of Rome as landlord of the Church lands in his relations to the Empire and to the Western Germanic kingdoms in Spain, Gaul, and especially his mission to the English.

The Limits of Ancient Christianity Robert Austin Markus, 1999 Sixteen essays explore the end of ancient Christianity.

The Oxford Dictionary of Late Antiquity Oliver Nicholson, 2018-04-19 The Oxford Dictionary of Late Antiquity is the first comprehensive reference book covering every aspect of history, culture, religion, and life in Europe, the Mediterranean, and the Near East, including the Persian Empire and Central Asia, between the mid 3rd and the mid 8th centuries AD, the era now generally known as Late Antiquity. This period saw the re-establishment of the Roman Empire, its conversion to Christianity, and its replacement in the West by Germanic kingdoms, the continuing Roman Empire in the Eastern Mediterranean, the Persian Sassanian Empire, and the rise of Islam. Consisting of over 1.5 million words in more than 5,000 A-Z entries and written by more than 400 contributors, it is the long-awaited middle volume of a series bridging a significant period of history between those covered by the acclaimed Oxford Classical Dictionary and The Oxford Dictionary of the Middle Ages. The scope of the Dictionary is broad and multi-disciplinary across the wide geographical span covered from Western Europe and the Mediterranean as far as the Near East and Central Asia; it provides succinct and pertinent information on political history, law, and administration, military history, religion, and philosophy, education, social and economic history, material culture, art, and architecture, science, literature, and many other areas. Drawing on the latest scholarship and with a formidable international team of advisers and contributors, The Oxford Dictionary of Late Antiquity aims to establish itself as the essential reference companion to a period that is attracting increasing attention from scholars and students worldwide.

*Peoples of the Apocalypse* Wolfram Brandes, Felicitas Schmieder, Rebekka Voß, 2016-05-24 This volume addresses Jewish, Christian, and Muslim future visions on the end of the world, focusing on the respective allies and antagonists for each religious society. Extensive lists of murderous end-time peoples, whether for good or evil, and those who merit salvation, hold variably defined roles in end-time scenarios. Spanning late Antiquity to the early modern period, the collected papers examine distinctive aspects represented by each religion's approach as well as shared concepts.

It includes individuals from places such as medieval England, France, Germany, Iberia, Italy, and Scandinavia, as well as those from the Jewish and Islamic worlds. In one convenient volume, students, scholars, and interested readers will find the biographies of the people whose actions, beliefs, creations, and writings shaped the Middle Ages, one of the most fascinating periods of world history.

*The Invention of Peter* George E. Demacopoulos, 2013-06-26. By emphasizing the ways the Bishops of Rome first leveraged the cult of St. Peter to their advantage, George E. Demacopoulos constructs an alternate account of papal history that challenges the dominant narrative of an inevitable and unbroken rise in papal power from late antiquity through the Middle Ages.

**A History of Preaching Volume 1** Rev. O.C. Edwards JR., 2016-04-25. A History of Preaching brings together narrative history and primary sources to provide the most comprehensive guide available to the story of the church's ministry of proclamation. Bringing together an impressive array of familiar and lesser-known figures, Edwards paints a detailed, compelling picture of what it has meant to preach the gospel. Pastors, scholars, and students of homiletics will find here many opportunities to enrich their understanding and practice of preaching. Volume 1 contains Edwards's magisterial retelling of the story of Christian preaching's development from its Hellenistic and Jewish roots in the New Testament through the late twentieth century's discontent with outdated forms and emphasis on new modes of preaching, such as narrative. Along the way, the author introduces us to the complexities and contributions of preachers both with whom we are already acquainted and to whom we will be introduced here for the first time: Origen, Chrysostom, Augustine, Bernard, Aquinas, Luther, Calvin, Wesley, Edwards, Rauschenbusch, Barth. All of their distinctive contributions receive careful attention. Yet lesser-known figures and developments also appear from the ninth-century reform of preaching championed by Hrabanus Maurus to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members preaching to Howell Harris and Daniel Rowlands, preachers of the eighteenth century, Welsh revival to Helen Kenyon speaking as a layperson at the 1950 Yale Beecher lectures about the view of preaching from the pew. Volume 2, available separately as 9781501833786, contains primary source material on preaching drawn from the entire scope of the church's twenty centuries. The author has written an introduction to each selection, placing it in its historical context and pointing to its particular contribution. Each chapter in Volume 2 is geared to its companion chapter in Volume 1's narrative history. Ecumenical in scope, fair-minded in presentation, appreciative of the contributions that all the branches of the church have made to the story of what it means to develop, deliver, and listen to a sermon, *A History of Preaching* will be the definitive resource for anyone who wishes to preach or to understand preaching's role in living out the gospel. This work is expected to be the standard text on preaching for the next 30 years, says Ann K.

Riggs who staffs the NCC's Faith and Order Commission. Author Edwards, former professor of preaching at Seabury Western Theological Seminary, is co-moderator of the commission which studies church uniting and church dividing issues. *A History of Preaching* is ecumenical in scope and will be relevant in all our churches, we all participate in this field, says Riggs from EcuLink Number 65, Winter 2004/2005, published by the National Council of Churches.

**Holy Bishops in Late Antiquity** Claudia Rapp, 2013-05-01. Between 300 and 600 Christianity experienced a momentous change from persecuted cult to state religion. One of the consequences of this shift was the evolution of the role of the bishop as the highest Church official in his city from model Christian to model citizen. Claudia Rapp's exceptionally learned, innovative and groundbreaking work traces this transition with a twofold aim: to deemphasize the reign of the emperor Constantine, which has traditionally been regarded as a watershed in the development of the Church as an institution, and to bring to the fore the continued importance of the religious underpinnings of the bishop's role as civic leader. Rapp rejects Max Weber's categories of charismatic versus institutional authority that have traditionally been used to distinguish the nature of episcopal authority from that of the ascetic and holy man. Instead, she proposes a model of spiritual authority, ascetic authority and pragmatic authority in which a bishop's visible asceticism is taken as evidence of his spiritual powers and at the same time provides the justification for his public role. In clear and graceful prose, Rapp provides a wholly fresh analysis of the changing dynamics of social mobility as played out in episcopal appointments.

**The Singing-Masters** Aidan Nichols, 2023-02-25. A study of the theological achievements of the patristic age via sixteen representative figures. These Fathers were chosen especially for their influential and authoritative life in the Church.

**The Closing of the Western Mind** Charles Freeman, 2007-12-18. A radical and powerful reappraisal of the impact of Constantine's adoption of Christianity on the later Roman world and on the subsequent development both of Christianity and of Western civilization. When the Emperor Constantine converted to Christianity in 368 AD, he changed the course of European history in ways that continue to have repercussions to the present day. Adopting those aspects of the religion that suited his purposes, he turned Rome on a course from the relatively open, tolerant and pluralistic civilization of the Hellenistic world towards a culture that was based on the rule of fixed authority, whether that of the Bible or the writings of Ptolemy in astronomy and of Galen and Hippocrates in medicine. Only a thousand years later, with the advent of the Renaissance and the emergence of modern science, did Europe begin to free itself from the effects of Constantine's decision, yet the effects of his establishment of Christianity as a state religion remain with us in many respects today. Brilliantly wide-ranging and ambitious, this is a major work of history.

**Medieval Philosophy** Peter Adamson, 2019-09-26. Peter Adamson presents a lively introduction to six hundred years of European philosophy from the beginning of the ninth century to the end of the fourteenth century. The medieval period is one of the richest in the history of philosophy, yet one of the least widely known. Adamson introduces us to some of the greatest thinkers of the Western intellectual tradition, including Peter Abelard, Anselm of Canterbury, Thomas Aquinas, John Duns Scotus, William of Ockham.

and Roger Bacon And the medieval period was notable for the emergence of great women thinkers including Hildegard of Bingen Marguerite Porete and Julian of Norwich Original ideas and arguments were developed in every branch of philosophy during this period not just philosophy of religion and theology but metaphysics philosophy of logic and language moral and political theory psychology and the foundations of mathematics and natural science

Sacred Rhetoric Michael Pasquarello III, 2012-06-01 Modern approaches to preaching today are largely fixated on how to make preaching more relevant more interesting more entertaining Michael Pasquarello suggests that this fixation may stem from a preaching imagination more beholden to technical scientific reason than theological wisdom Rather than devising new techniques or strategies for effective speaking Pasquarello offers something more salutary portraits of ten exemplary preachers from the Christian tradition Included in Pasquarello's gallery are Augustine of Hippo Gregory the Great Benedict Bernard of Clairvaux Bonaventure Thomas Aquinas Erasmus Hugh Latimer Martin Luther and John Calvin These excellent preachers conceived of Christian speech as a unique theological practice learned through prayerful attention to the Bible and aimed at communion with God Sacred Rhetoric invites readers to join an extended conversation with the past in order to become faithful preachers of the gospel in a post Christian society Preachers seminarians and students of Christian history will find much to learn from Pasquarello's fresh perspective and passion for the past

**Ancient Wisdom for the Care of Souls** Coleman M. Ford, Shawn J. Wilhite, 2024-07-30 Recovering the Wisdom of Early Christian Figures to Effectively Shepherd Modern Churches In addition to the regular demands of preaching and shepherding modern pastors feel undue pressure to entertain congregants and increase attendance numbers Often churches resort to the latest business models to keep pace But true life giving guidance lies in Scripture and the wisdom of those having come before us Ancient Wisdom for the Care of Souls helps pastors to embrace a classic biblical vision of ministry through the study of selected pastoral virtues and early church figures Gregory of Nyssa and Gregory the Great both referred to ministry as the care of souls Calling for a return to the sources professors Coleman M Ford and Shawn J Wilhite ponder what a scriptural vision of ministry is how patristic voices help inform this vision and how pastors today can cultivate this pastoral vision in their churches Each chapter examines an important pastoral topic such as humility the sacraments and contemplative theology and brings it to life through a constructive model and profiles of early church fathers Encouraged by the patristic wisdom of Irenaeus Athanasius John Chrysostom and more readers learn a simple and slower model for pastoring that they can emulate as they care for their communities A slower pace of life may in fact help pastors cultivate the soil of souls more richly and as a result return to ministry as the care of souls Applicable Enriches the spiritual and ministerial practices of modern pastors through ancient church wisdom pastoral reflections and examples from Scripture Theological and Historical Features detailed profiles of church fathers including Ambrose of Milan Augustine Gregory of Nazianzus Basil of Caesarea Gregory of Nyssa and others Written for Students and Pastors Ideal for college level courses as well as new or seasoned ministers

Western Europe In particular there have been extensive additions with regards to the Christian Church in Asia Africa Latin America North America and Australasia Significant updates have also been included on topics such as liturgy Canon Law recent international developments non Anglican missionary activity and the increasingly important area of moral and pastoral theology among many others Since its first appearance in 1957 the ODCC has established itself as an essential resource for ordinands clergy and members of religious orders and an invaluable tool for academics teachers and students of church history and theology as well as for the general reader     Empires of Faith Peter Sarris,2011-10-27 A panoramic account of the history of Europe the Mediterranean and the Near East from the fall of Rome to the rise of Islam     **Bede and the Future** Peter Darby,Faith Wallis,2016-04-15 Bede c 673 735 was Anglo Saxon England s most prominent scholar and his body of work is among the most important intellectual achievements of the entire Middle Ages Bede and the Future brings together an international group of Bede scholars to examine a number of questions about Bede s attitude towards and ideas about the time to come This encompasses the short term future Bede s own lifetime and the time soon after his death and the end of time Whilst recognising that these temporal perspectives may not be completely distinct the volume shows how Bede s understanding of their relationship undoubtedly changed over the course of his life Each chapter examines a distinct aspect of the subject whilst at the same time complementing the other essays resulting in a comprehensive and coherent volume In so doing the volume asks and answers new questions about Bede and his ideas about the future and will undoubtedly stimulate further research in this field     *Desecularizing the Christian Past* Enrico Beltramini,2025-10-01 The essential objective of this study is to unpack the complicity between historians and secularization theory in the study of late ancient and early medieval Christianity and then suggest a way out In this work of historiography of religion Enrico Beltramini argues that religious history is inherently secular and produces distorted representations of the Christian past He suggests moving from an epistemological to a hermeneutical approach so that the supernatural worldview of the Christian past can be addressed on its own terms This work also engages Markus s saeculum and replaces Markus s secularized relationship between the Kingdom and the government of the civitas with the Augustinian association of the Kingdom and divine government
