Farmers and Consumers Market Bulletin, 2008 **Overseas Chinese in the People's Republic of China** Glen Peterson, 2013-03-01 Overseas Chinese in the People's Republic of China examines the experiences of a group of persons known officially and collectively in the PRC as domestic Overseas Chinese They include family members of overseas migrants who remained in China refugees fleeing persecution and former migrants and their descendants who returned to the People's Republic in order to pursue higher education and to serve their motherland In this book Glen Peterson describes the nature of the official state project by which domestic Overseas Chinese were incorporated into the economic political and social structures of the People's Republic of China in the 1950s examines the multiple and contradictory meanings associated with being domestic Overseas Chinese and explores how domestic Overseas Chineseness as political category shaped social experiences and identities This book fills an important gap in the literature on Chinese migration and Chinese transnationalism and will be an invaluable resource to students and scholars of these subjects as well as Chinese history and Asian Studies more generally **Webster's Royal red book; or, Court and fashionable register** Webster A. and co, 1847

Appearance Politics Lex Lu, 2024-11-15 Lex Lu argues in *Appearance Politics* that crafting an appealing and powerful outward image has long been an essential political instrument in China Its traces may be found in historical records imperial portraits physiognomic prognostications photographs posters statues and digital images Employing rare archival materials from Beijing Shanghai and Nanjing Lu tells the story of these political maneuverings We learn the ways in which political actors and their agents designed their images and we observe the shifting standards of male beauty that guided their decisions *Appearance Politics* examines five case studies the usurpation of Ming Prince Zhu Di the rise of Manchu masculinity and its mixed standards of Han Chinese and Manchu beauty at the Yongzheng court the use of modern photography and Western male beauty standards at the turn of the twentieth century the making of the Republican founding father Sun Yat sen and the creation of visual templates of Mao Zedong Lu's rich empirical study counters systematic stereotypical descriptions of Chinese male leadership embedded in Western media and scholarship Revolutionizing the Family Neil J. Diamant, 2023-04-28 In 1950 China's new Communist government enacted a Marriage Law to allow free choice in marriage and easier access to divorce Prohibiting arranged marriages concubinage and bigamy it was one of the most dramatic efforts ever by a state to change marital and family relationships In this comprehensive study of the effects of that law Neil J Diamant draws on newly opened urban and rural archival sources to offer a detailed analysis of how the law was interpreted and implemented throughout the country In sharp contrast to previous studies of the Marriage Law which have argued that it had little effect in rural areas Diamant argues that the law reshaped marriage and family relationships in significant but often unintended ways throughout the Maoist period His evidence reveals a confused and often conflicted state apparatus as well as cases of Chinese men and women taking advantage of the law to justify multiple sexual encounters

to marry for beauty to demand expensive gifts for engagement and to divorce on multiple occasions Moreover he finds those who were best placed to use the law's more liberal provisions were not well educated urbanites but rather illiterate peasant women who had never heard of sexual equality and it was poor men not women who were those most betrayed by the peasant based revolution This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 2000 In 1950 China's new Communist government enacted a Marriage Law to allow free choice in marriage and easier access to divorce Prohibiting arranged marriages concubinage and bigamy it was one of the most dramatic efforts ever by a state to change marriage

Combinatorial Approaches for Cancer Treatment: from Basic to Translational Research Daniela Spano, Aniello Cerrato, George Mattheolabakis, 2022-03-03

Climate-Environment Interactions under Global Warming, volume II Hainan Gong, Haipeng Yu, Zhiyuan Hu, Qinqian Jin, 2025-03-07 During recent decades the global climate and environment have experienced unprecedented changes Much evidence indicates that the global surface temperature is increasing rapidly especially in the Arctic and extreme climate and environmental events are frequently occurring Climate and environmental changes not only have a great impact on society and the economy but also seriously exert far reaching impacts on both human lives and health Therefore revealing the mechanisms behind the climate and environmental changes is critical to advancing our understanding and predicting of the global climate and environmental changes and their impacts Climate change can cause environmental change and environmental change may in turn affect climate change For example the faster Arctic warming can change the mid latitude large scale atmospheric circulation and further modulate the regional air quality through transport and diffusion Conversely the air pollution associated with industrial activities may also affect the regional and global climate through the complicated aerosol climate interaction The limited understanding of these feedback and interactions adds uncertainty to predicting the future evolution of the climate and environment

Landbouwmechanisatie, 1975 **British Power Farmer and Agricultural Engineer**, 1991 **Power Farming**, 1981 **GMD Report**, 2000 Multi-scale Variability of Ecosystem Functioning in European and Chinese Shelf Seas Xueen Chen, Qicheng Meng, Jie Nie, Wenyan Zhang, Jun Sun, Ute Daewel, 2024-08-26

Continued global warming and ocean acidification are predicted with high confidence while the direction and magnitude of changes of other atmospheric drivers e.g precipitation wind and nutrient loading are of high uncertainty and regionally dependent Biogeochemical responses of coastal shelf seas to external drivers are often nonlinear involving feedback that may amplify or dampen a perturbation imposed on the system Coupled physical biogeochemical process based numerical models have proven useful in elucidating the mechanistic interplay and relative importance of the different factors contributing to ecosystem functioning with increasing realism This research topic aims to understand and compare marine

ecosystem functioning in Chinese and European shelf seas based on studies that use state of the art modeling and monitoring of coastal ecosystem dynamics This topic will enable more efficient knowledge share and distribution through a comparative assessment between distinct coastal shelf systems in China and Europe to further our understanding of complicated ecosystem dynamics in response to a changing climate and increasing anthropogenic pressure It will allow us to better understand the sensitivity of coastal shelf ecosystem functioning to physical and biogeochemical perturbations the role of shelf seas in global carbon cycling and the resilience of Chinese and European shelf seas to ongoing and future changes in climate and anthropogenic activities
