City Fictions of the New India Alex Tickell, 2025-04-24 How does Indian fiction imagine urban transformation India s cities were once maligned as places of economic stasis and deprivation but in the era of the so called New India 2000 present centres like Delhi and Mumbai have been recast as engines of economic growth and reshaped by prestige infrastructure Yet the provision of core infrastructures for all remains a major challenge for urban governance City Fictions is the first study of its kind to read anglophone Indian writing infrastructurally by taking account of the centrality of water utilities waste processing residential architecture and road rail and telephonic networks in contemporary representations of urban citizenship In a detailed historicized account of India's changing cities City Fictions analyses selected literary works in relation to key governmental and political discourses from early nationalist ideas of command economy infrastructure and mid century town planning to futuristic visions of the Heritage Cities Smart Cities and new urban satellite developments It also plots changing ideas about civic identity shaped by the rise of a consumerist middle class and the consolidation of a popular Hindu majoritarian politics In the process City Fictions develops an interdisciplinary literary critical approach that draws on eco criticism urbanism and new materialism Covering key fictions by Arundhati Roy Aravind Adiga Vikram Chandra Raj Kamal Jha and Githa Hariharan as well as literary journalism by Katherine Boo and Saumya Roy graphic fiction by Sarnath Banerjee and television drama by Richie Mehta this book shows how fiction discloses vital issues of collective rights equality and resourcing that are immanent in the infrastructure of India s cities The Narratology of Comic Art Kai Mikkonen, 2017-05-08 By placing comics in a lively dialogue with contemporary narrative theory. The Narratology of Comic Art builds a systematic theory of narrative comics going beyond the typical focus on the Anglophone tradition This involves

not just the exploration of those properties in comics that can be meaningfully investigated with existing narrative theory but an interpretive study of the potential in narratological concepts and analytical procedures that has hitherto been overlooked. This research monograph is then not an application of narratology in the medium and art of comics but a revision of narratological concepts and approaches through the study of narrative comics. Thus while narratology is brought to bear on comics equally comics are brought to bear on narratology.
