*Gratitude* Oliver Sacks, 2015-11-24 A deeply moving testimony and celebration of how to embrace life No writer has succeeded in capturing the medical and human drama of illness as honestly and as eloquently as Oliver Sacks During the last few months of his life he wrote a set of essays in which he movingly explored his feelings about completing a life and coming to terms with his own death A series of heart rending yet ultimately uplifting essays A lasting gift to readers The Washington Post It is the fate of every human being Sacks writes to be a unique individual to find his own path to live his own life to die his own death Together these four essays form an ode to the uniqueness of each human being and to gratitude for the gift of life My predominant feeling is one of gratitude I have loved and been loved I have been given much and I have given something in return Above all I have been a sentient being a thinking animal on this beautiful planet and that in itself has been an enormous privilege and adventure Oliver Sacks Oliver Sacks was like no other clinician or writer He was drawn to the homes of the sick the institutions of the most frail and disabled the company of the unusual and the abnormal He wanted to see humanity in its many variants and to do so in his own almost anachronistic way face to face over time away from our burgeoning apparatus of computers and algorithms And through his writing he showed us what he saw Atul Gawande author of *Being Mortal*
