Fostering Culture Through Film Elda Buonanno Foley,Patrizia Comello Perry,2016-05-11 The perceived lack of understanding of cultural diversity in the American learning community has led instructors to challenge assumptions and stereotypes while addressing misconceptions Teachers of foreign languages and cultural studies in particular feel the need to redesign curricula and lesson plans to better serve the learning community of the twenty first century The common starting point resides in the paradox that exists in today s connected world while global access to information makes learners aware of the infinite variety of cultural diversity it does not however make them critical thinkers For this reason there is opportunity to reshape critical thinking within a more global perspective while enhancing the tools to identify interpret and compare the different cultural models that learners encounter The book demonstrates the theories and practical applications by which instructors use contemporary film to provide insightful readings on diverse local communities communities that form the basis of global culture This collection of essays will serve as a pedagogical tool and resource offering methods and examples of a communicative approach to analyze and integrate cultural diversities similarities and problems in the second language curricula methods that expose students to different cultural models while scaffolding their critical approach to multiple layers of common and specific values This work will encourage a dialogue and long lasting conversation on methodologies and teaching strategies rethought reappplied and remolded to the new learning environments

The God Debaters Adrian Rosenfeldt, 2022-05-04 This book examines the post 9 11 God debate in the West Through a close study of prominent English God debaters Richard Dawkins Karen Armstrong Christopher Hitchens and Terry Eagleton Adrian Rosenfeldt demonstrates that New Atheist and religious apologist ideas and arguments about God science and identity are driven by mythic autobiographical narratives and Protestant or Catholic cultural heritage This study is informed by criticism of the New Atheist polemic as being positivistic and the religious apologists as propagating sophisticated theology In both cases the God debaters are perceived as disassociating themselves from human lived experience It is through reconnecting the God debaters intellectual ideas to their cultural and social background that the God debate can be grounded in a recognisable human reality that eludes reductive distinctions and disembodied abstractions
