POLITICAL  
THINKERS  
*PLATO TO THE PRESENT*

FOURTH EDITION

# Great Political Thinkers From Plato To The Present

**Donald C. Hodges**

## **Great Political Thinkers From Plato To The Present:**

**Great Political Thinkers** William Ebenstein, Alan O. Ebenstein, 1991-01 Celebrating its fiftieth year in publication *Great Political Thinkers* is an indispensable text for all students of political philosophy This text contains portions of great works in their original form to whet the appetite and to encourage discussion within classroom By providing historical context and current scholarship Alan Ebenstein builds upon the framework of influences that have shaped current political theory or political philosophy courses usually found in the political science department **Great Political Thinkers: Plato to the Present** William Ebenstein, 1969 Celebrating its fiftieth year in publication *GREAT POLITICAL THINKERS* is an indispensable text for all students of political philosophy This text contains portions of great works in their original form to whet the appetite and to encourage discussion within the classroom By providing historical context and current scholarship Alan Ebenstein builds upon the framework of influences that have shaped current political thoughts and theories *Great Political Thinkers* William Ebenstein, 1963 Philosophical Perspectives on Power and Domination, 2021-09-20 The essays in this volume explore in detail many of the ways power structures our daily personal political and intellectual lives and evaluate the workings of power using a variety of theoretical paradigms from Hobbesian liberalism to Foucauldian feminist postmodernism Taken as a whole the book aims towards an end to unjust and destructive uses of power and the flowering of an encouraging educated empowerment for all human beings in a pluralistic world Section I offers a progressive chain of arguments that moves from the acceptance of domination through the rejection of domination and finally to a new vision of power based on equality and mutual respect Section II explores the questions how is the philosophical self that is our very understanding of who we are implicated in the web of power and domination Section III responds to political realism as it explores morally ideal solutions to the global problems of poverty war and hunger Section IV discusses ways in which our thought and practice in both public and private life are bound up in hierarchies of domination *Great political thinkers; Plato to the present; 2nd ed* William Ebenstein, *Great Political Thinkers* William Ebenstein, Alan O. Ebenstein, 2000 Part I Ancient and Medieval 1 Roots of the West 2 The Greek Discover of Reason in Nature 3 Plato 4 Aristotle 5 Polybius 6 Cicero 7 Stoicism and Epicureanism Two Hellenistic Philosophies 8 The Jewish Belief in One God and Christian Love 9 St Augustine 10 John of Salisbury 11 St Thomas Aquinas 12 Dante 13 Marsilio of Padua Part II Sixteenth Through Eighteenth Centuries 14 Machiavelli 15 The Protestant Reformation 16 Bodin 17 Hobbes 18 Locke 19 Montesquieu 20 Hume 21 Rousseau 22 Kant 23 Smith 24 Burke Part III Nineteenth and Twentieth Centuries 25 Bentham 26 Tocqueville 27 Mill 28 Hegel 29 Revolutionary Communism 30 Nietzsche 31 Fascism 32 Freud 33 Gandhi 34 From Classical Liberalism to Democratic Socialism 35 The Welfare State 36 Libertarianism 37 Berlin 38 Rawls Political Thought: from Plato to the Present Mont Judd Harmon, 1964 Book covers Plato Aristotle Roman and Medieval political thought St Thomas Aquinas Machiavelli Luther and Calvin the Divine Right of Kings Hobbes Locke Marx Lenin Fascism and more **Introduction to Political Thinkers** William

Ebenstein, Alan O. Ebenstein, 1992      *Great Political Thinkers, Plato to the Present* William Ebenstein, 1951      **Approaches to Political Thought** William L. Richter, 2009-03-16 Approaches to Political Thought raises three important questions concerning traditional political thought 1 Why study the political writings and ideas of Plato Machiavelli and other long dead writers 2 Who among the writers and which of their works are worth studying 3 How should they be studied The book then explores ten contemporary approaches to understanding political thought and the diverse answers to these questions The approaches covered include those of Leo Strauss Hannah Arendt Eric Voegelin Sheldon Wolin the Cambridge School Quentin Skinner and J G A Pocock Psychobiography Critical Theory of the Frankfurt School Herbert Marcuse and Jürgen Habermas Hermeneutics Paul Ricoeur and Hans Georg Gadamer Michel Foucault and Feminist Criticism Susan Moller Okin and Jean Elshtain Each chapter includes an introductory essay and edited selections that illustrate or discuss that approach Each chapter concludes with discussion questions and suggestions for further exploration including books articles and web sites This exploration of contending contemporary approaches to political thought touches upon ongoing methodological and philosophical issues that are relevant to several academic disciplines including political science history philosophy and psychology      *Reconsidering Michael Polanyi's Philosophy* Stefania Ruzsits Jha, 2017-03-13 The chemist and philosopher Michael Polanyi 1891 1976 was one of the first twentieth century scientists to propose a program to resolve the internal conflict of the modern Enlightenment scientific detachment and moral nihilism with humanist values Stefania Jha s intellectual biography places Polanyi in the context of his time and culture analyzes his key philosophical ideas and explicates the application and at times misappropriation of his work Polanyi s method was not laid out in his published works and his vocabulary tends to make his writings difficult to understand By exposing the structure of his theory of tacit knowing and by tracing the growth of his thinking Jha shows how the various elements of his thought are integrated Through examination of his philosophical roots in Kant and the complexity of his evolving thought she counteracts the popular notion that Polanyi s philosophy stands apart from the western philosophic tradition Jha s deep analysis makes Polanyi s shift of focus from science to philosophy more intelligible his philosophy more approachable and the causes he championed such as the freedom of science and cultural freedom more understandable Applying his notion of tacit knowing in practical directions Jha seeks to bring the study of Polanyi s philosophy out of the specialists enclave and into such fields as ethics and clinical medicine      The Historical and Institutional Context of Roman Law George Mousourakis, 2017-03-02 Roman law forms an important part of the intellectual background of many legal systems currently in force in continental Europe Latin America and other parts of the world This book traces the historical development of Roman law from the earliest period of Roman history up to and including Justinian s codification in the sixth century AD It examines the nature of the sources of law forms of legal procedure the mechanisms by which legal judgments were put into effect the development of legal science and the role of the jurists in shaping the law The final chapter of the book outlines the history of Roman law during the Middle Ages and

discusses the way in which Roman law furnished the basis of the civil law systems of continental Europe The book combines the perspectives of legal history with those of social political and economic history Special attention is given to the political development of the Roman society and to the historical events and socio economic factors that influenced the growth and progress of the law Designed to provide a general introduction to the history of Roman law this book will appeal to law students whose course of studies includes Roman law legal history and comparative law It will also prove of value to students and scholars interested in ancient history and classics *Ethics, Technology and the American Way of War* Reuben E.

Brigety II,2007-06-11 A new investigation into how the advent of precision guided munitions affects the likelihood of US policy makers to use force As such this is an inquiry into the impact of ethics strategy and military technology on the decision calculus of national leaders Following the first Gulf War in 1991 this new study shows how US Presidents increasingly used stand off precision guided munitions or PGMs especially the Tomahawk cruise missile either to influence foreign adversaries to make specific policy choices or to signal displeasure with their actions Such uses of force are attractive because they can lead to desirable policy outcomes where conventional diplomacy has failed but without the large cost of lives economic resources or political capital that result from large scale military operations In a post 9 11 world understanding alternative uses of force under significant policy constraints is still of supreme importance Milton Friedman Lanny

Ebenstein,2024-09-04 The first biography of one of the twentieth century s greatest economic thinkers Milton Friedman Born the son of immigrant parents Milton Friedman went on to become a major figure during the resurgence of American conservatism As an advisor to the Reagan administration and a widely read columnist he played a vital role in shaping government policy and public opinion while he made headlines for his controversial views Drawing on author Lanny Ebenstein s unprecedented access to personal archives and to Friedman himself this is the first book to trace his life and development as an economic theorist With a combination of intimate personal detail and fascinating exploration of economic theory Milton Friedman A Biography provides a revealing look at the man regarded by many as a hero of libertarianism and laissez faire economics *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office,1972 *Power*

*and Politics in the Book of Judges* John C. Yoder,2015 John C Yoder examines political culture and behavior in the book of Judges Although the Deuteronomistic editor portrayed the judges as moral champions the men and women of valor were preoccupied with the problem of gaining and maintaining political power They were ambitious at times ruthless they might be labeled chiefs strongmen or even warlords in today s world They used violence patronage and the control of the labor and reproductive capacity of subordinates as well as other strategies that did not require the constant exercise of force such as using their association with YHWH to advance their political economic or military agenda *The Philosophy of Public*

*Administration- A Holistic Approach* J. S. H. Gildenhuys,2004-01-01 A user friendly textbook for students and teachers The Philosophy of Public Administration covers all aspects of the public administration and management process as an instrument

of serving the public It lays a sound foundation of the basic principles and values and it facilitates excellence in all the varied circumstances a professional public manager administrator may encounter in practice An MS PowerPoint presentation is also available on CD ROM for instruction

**The Advocates of Peace in Antebellum America** Valarie H. Ziegler, 2001 This book chronicles the political and intellectual development of the two major antebellum peace movements The American Peace Society a moderate peace group aimed to work through the institutions of church and state to achieve peace The New England Nonresistant Society constituted a radical group which advocated the individual's complete separation from all institutions and strict adherence to the example of Christ's life and teachings

**Socialism and International Economic Order** Elisabeth L. Tamedly, 1969 The theory of international economic order is concerned with two basically different types of human relationships those that belong to the private sphere of the individual and which are amenable to the rule of law the dominium and those that are backed by sovereign national power the imperium It is very important to know which fields of human activity are subject within a given state to imperium and which are left to the regulating influence of market values and private law

*Argentina's "Dirty War"* Donald C. Hodges, 2014-01-30 Argentines ask how their ultracivilized country reputedly the most European in Latin America could have relapsed into near barbarism in the 1970s This enlightening study seeks to answer that question by reviewing the underlying political events and intellectual foundations of the dirty war 1975 1978 and overlapping Military Process 1976 1982 It examines the ideologies and actions of the main protagonists the armed forces guerrillas and organized labor over time and traces them to their roots In the most comprehensive treatment of the subject to date Hodges examines primary materials never seen by other researchers including clandestinely published guerrilla documents and interviews important actors in Argentina's political drama His wide ranging scholarship traces the origins of the national security and national salvation doctrines to the Spanish Inquisition sixteenth century witch hunts and nineteenth century reactions to the modernizing ideologies of liberalism democracy socialism and communism Hodges posits that the dirty war Military Process and revolutionary war to which they responded represented the culmination of social tensions that arose in 1930 with the launching of the Military Era by Argentina's first successful twentieth century coup He offers the disquieting hypothesis that as long as the Argentine Question remains unsettled the military may intervene again the resistance movement will remain strong and violence may continue even under a democratic government

## Whispering the Techniques of Language: An Emotional Journey through **Great Political Thinkers From Plato To The Present**

In a digitally-driven world wherever monitors reign great and quick interaction drowns out the subtleties of language, the profound techniques and psychological subtleties concealed within words often get unheard.
