This short book rewrites the history of modern American liberalism. It shows that what we think of as liberalism the top and bottom coalition we associate with President Obama began not with Progressivism or the New Deal but rather in the wake of WWI in disillusionment with American society. In the 1920s the first thinkers to call themselves liberals adopted the hostility to bourgeois life that had long characterized European intellectuals of both the left and right. The aim of liberalism's founders such as Herbert Croly, Randolph Bourne, H. G. Wells, Sinclair Lewis and H. L. Mencken was to create an American version of the aristocracy long associated with European statism. Critical of mass democracy and middle class capitalism, liberals despised the businessman's pursuit of profit as well as the conventional individual's pursuit of pleasure and in the 1950s liberalism expressed itself in the scornful critique of popular culture. It was precisely the success of a recently elevated middle class culture that frightened the leaders of the New Class who took up the priestly task of de-democratizing America in the name of administering newly developed rights. The neo-Malthusianism that emerged from the 1960s did not aim to control the breeding habits of the lower classes as its eugenicist precursors had done but to mock and restrain the buying habits of the middle class. Today's brand of liberalism led by Barack Obama has displaced the old Main Street private sector middle class with a new middle class composed of public sector workers allied with crony capitalists and the country's arbiters of elite style and taste.

Eden and the Individual: Christianity for the 21st Century Emil Mihelich, 2006-07-05 Even more than we might realize the Garden of Eden story has supplied the foundation for Western civilization ever since the Roman Emperor Theodosius the Great granted the orthodox version of Christianity imperial support in the fourth century AD. Faced with the scientific and economic challenges of the 21st century however it's time to revisit our traditional understanding of our Christian heritage. St. Augustine's monumental work *The City of God* built on his original sin interpretation of the Garden of Eden story traditionally defined the role of the responsible individual living within the resulting orthodox structure. But what is the role of such an individual living in an era that has witnessed the waning of the power and influence of that institutional authority the authority built on Augustine's persuasive interpretation of the events described in the Garden of Eden story. Without throwing the baby out with the bath water and by paying homage to Augustinian sacrifice and commitment to belief *Eden and the Individual: Christianity for the 21st Century* explores that question. In the process it offers creative conclusions directed toward enhancing the meaning and value of individual lives. Given a fresh sense of purpose every individual can then work toward creating and preserving the order and structure that have governed collective Western life. In this awe-inspiring chronicle indeed revelation of Christianity. Misapplied Mr

Mihelich courageously has given us a pearl to keep for ourselves And we must Ben Swearson eBook Reviews Weekly
