introduces cultural geography as an alternative approach to the immigrant model Cultural geography allows Hoberman to
restore Jewish American writers to their roles as important active members of the American literary landscape from the
1850s to the present and to argue that Jewish history American literary history and the inhabitation of American geography
are and always have been contiguous entities A Hundred Acres of America makes its case by investigating both canonical and
extra canonical literary depictions of six geographies the frontier the small town the urban the suburban America as seen
from Europe and Israel as seen from America Hoberman reads dozens of representative texts closely and analyzes a wide
range of authors from frontier era memoirists and turn of the century native born reformers to contemporary novelists He
adroitly demonstrates that Jewish American authors are not only present throughout American literary history but actively

shaped this history with writings that often subverted or contradicted the ways their non Jewish peers depicted these geographies **Mines Register** ,1914 **The Great Bonanza.
