Governance & Grievance Miriam J. Levy, 1988 Governance and Grievance touches on various aspects of Habsburg domestic policy focusing on how the rulers influenced and were influenced by developments in both Italian and German Tyrol and how they used to advantage the competing regional interests *A Companion to Eighteenth-Century Europe* Peter H. Wilson, 2014-01-28 A COMPANION TO EIGHTEENTH CENTURY EUROPE This is an impressive volume with leading experts providing a wide ranging coverage that should satisfy most requirements for effective and thoughtful introductory surveys All specialists on this period will find much of value in this excellent volume History The Journal of the Historical Association This Companion contains 31 essays by leading international scholars to provide an overview of the key debates on eighteenth century Europe It considers not just major western European states but also the often neglected countries of eastern and northern Europe Placing Europe within an international context contributors investigate key areas of society economics culture and political development The book concludes with the French and other European revolutions that brought the century to a close both chronologically and as regards the Ancien R gime A Companion to Eighteenth Century Europe examines both established and emerging areas of interest in the field making it an essential guide for students and scholars

The Habsburg Monarchy, 1618-1815 Charles W. Ingrao, 2000-06-29 This is a revised and updated edition of a highly acclaimed history of the early modern Habsburg monarchy Charles W Ingrao challenges the conventional notion of Habsburg state and society as peculiarly backward by tracing its emergence as a military and cultural power of enormous influence The Habsburg monarchy was undeniably different from other European polities geography and linguistic diversity made this inevitable but by 1789 it had laid the groundwork for a single polity capable of transcending its uniquely diverse cultural and historic heritage Charles W Ingrao unravels the web of social political economic and cultural factors that shaped the Habsburg monarchy during the period and presents this complex story in a manner that is both authoritative and accessible to non specialists This edition includes a revised text and bibliographies new genealogical tables and an epilogue which looks forward to the impact of the Habsburg monarchy on twentieth century events **Genealogies Cataloged by the Library**

The Habsburg Monarchy, 1490-1848 Paula Sutter Fichtner, 2017-03-07 The Habsburg monarchy was a singular experiment in diversity within the European continent By the eighteenth century it stretched from the Austrian Netherlands to the Balkans and southern Poland and south into Italy Its subjects spoke a number of languages and while the social and institutional structure of these lands shared common features there were also substantial differences among them Was the Habsburg monarchy therefore an empire like those of Great Britain France or Spain Drawing upon modern theoretical perspectives on European expansion to answer this question Paula Sutter Fichtner argues that the Habsburg

holdings did indeed constitute a form of European imperialism and that they are best understood in such terms

The Habsburg Monarchy 1490-1848 Examines the role of the interaction between Habsburg rulers territorial estates and religious institutions in the expansion of the empire Explores the reorientation of these relationships under the impact of the European Enlightenment the rationalization of dynastic government under Empress Maria Theresa and her son Joseph II the beginning of the Industrial Revolution and the rise of nationalism Assesses the effect of the Revolutions of 1848 on the strength of the connections between the crown and its nobles as well as its ties to its ecclesiastical elites and the bourgeoisie Discusses the parallel developments in cultural affairs as the coherence of a world outlook dominated by Catholicism gave way to linguistic and cultural particularism Incorporating the latest research this broad ranging study is an essential guide to one of Europe's most powerful and important dynasties

The Sinews of Habsburg Power William D. Godsey, 2018 The Sinews of Habsburg Power explores the domestic foundations of the immense growth of central European Habsburg power from the rise of a permanent standing army after the Thirty Years War to the end of the Napoleonic wars With a force that grew irregularly in size from around 25 000 soldiers to as many as half a million in the War of the Sixth Coalition the Habsburg monarchy participated in shifting international constellations of rivalry from western Europe to the Near East and in some two dozen partly overlapping armed conflicts Raising forces of such magnitude constituted a central task of Habsburg government one that ultimately required the cooperation of society and its elites The monarchy's composite territorial structures in the guise of the Lower Austrian Estates a leading representative body and privileged corps formed a vital if changing element underlying Habsburg international success and resilience With its capital at Vienna the archduchy below the river Enns the historic designation of Lower Austria was geographically politically and financially a key Habsburg possession Fiscal military exigency induced the Estates to take part in new and evolving arrangements of power that served the purposes of government in turn the Estates were able in previously little understood ways and within narrowing boundaries to preserve vital interests in a changing world The Estates survived because they were necessary not only thanks to their increasing financial potency but also because they offered a politically viable way of exacting ever larger quantities of money men and other resources from local society These circumstances would persist as ruling became more regularized formalized and homogenized and as the very understanding of the Estates as a social and political phenomenon was evolving

The Habsburg Empire 1700-1918 Jean Berenger, C.A. Simpson, 2014-09-19 This is the eagerly awaited second volume of Jean Berenger's history of the Habsburgs It covers the last two centuries of their rule and provides a compelling account of the fluctuations of Habsburg dynastic power and its disintegration after World War One Berenger gives a rich portrait of Habsburg greatness under Maria Theresa and Joseph II and shows how their successors proved more adroit at riding the tide of nationalism in their multi ethnic empire than is often recognised

Joseph II T C W Blanning, 2013-11-26 Joseph II 1741-90 son and eventual successor of Maria Theresa has conventionally been seen in the context of the Enlightened Despot

reformers Today's turmoil in his former territories invites a rather different perspective however as Joseph grapples with the familiar and intractable problems of creating a viable unitary state out of his multi national empire in Central Europe Professor Blanning's brilliant short study based on extensive archival research offers a history of the Habsburg monarchy in the eighteenth century as well as a revaluation of the emperor's complex personality and his ill fated reform programme

European Border Regions in Comparison Katarzyna Stokłosa, Gerhard Besier, 2014-01-03 Borders exist in almost every sphere of life Initially borders were established in connection with kingdoms regions towns villages and cities With nation building they became important as a line separating two national states with different national characteristics narratives and myths The term border has a negative connotation for being a separating line a warning signal not to cross a line between the allowed and the forbidden The awareness of both mental and factual borders in manifold spheres of our life has made them a topic of consideration in almost all scholarly disciplines history geography political

science and many others This book primarily incorporates an interdisciplinary and comparative approach Historians sociologists anthropologists and political science scholars from a diverse range of European universities analyze historical as well as contemporary perceptions and perspectives concerning border regions inside the EU between EU and non EU European countries and between European and non European countries

The Rose Cross and the Age of Reason Christopher McIntosh,1992-04-01 The Rose Cross deals with the interaction between two movements of thought in eighteenth century Germany the philosophy of the Enlightenment and the complex of ideas known as Rosicrucian Dating from the early seventeenth century and drawing on Pietism Freemasonry Kabbalah and alchemy the Rosicrucianism movement enjoyed a revival in Germany during the eighteenth century Historians have often depicted this neo Rosicrucianism as a Counter Enlightenment force Dr McIntosh argues rather that it was part of a third force which allied itself sometimes with the Enlightenment sometimes with the Counter Enlightenment This book is the first in depth comprehensive study of the German Rosicrucian revival and in particular of the order known as the Golden and Rosy Cross Gold und Rosenkreuz Drawing on hitherto unpublished material Dr McIntosh shows how the order exerted a significant influence on the cultural political and religious life of its age

Perfectibilists Terry Melanson,2011-12-01 Presenting an advanced and authoritative perspective this definitive study chronicles the rise and fall of the Order of the Illuminati a mysterious Enlightenment era guild surrounded by myth Describing this enigmatic community in meticulous detail more than 1 000 endnotes are included citing scholars professors and academics Contemporary accounts and the original documents of the Illuminati themselves are covered as well Copiously illustrated and featuring biographies of more than 400 confirmed members this survey brings to light a 200 year old mystery

The Bounded Field Jaro Stacul,2018-01-15 Regionalism is one of the most debated issues in contemporary western Europe Yet why the region rather than the nation state can have such a strong appeal for the construction of social and political identity remains largely unexplored Drawing on data collected in the mountainous Trentino region of northern Italy the author investigates how ideas about village boundaries and private property form the background against which regionalist ideologies are understood In suggesting that ideas about regionalism largely reflect views about private property he provides an alternative to theories of nationalism that overlook the articulation between official ideologies and discourses at the local level

Staging the Past Maria Bucur,Nancy Meriwether Wingfield,2001 This volume contains three sections of essays which examine the role of commemoration and public celebrations in the creation of a national identity in Habsburg lands It also seeks to engage historians of culture and of nationalism in other geographic fields as well as colleagues who work on Habsburg Central Europe but write about nationalism from different vantage points There is hope that this work will help generate a dialogue especially with colleagues who live in the regions that were analyzed Many of the authors consider the commemorations discussed in this volume from very different points of view as they themselves are strongly rooted in a historical context that remains much

closer to the nationalism we critique **The German-speaking Countries of Europe** Margrit Beran Krewson, 1989

The Academy of Fisticuffs Sophus A. Reinert, 2018-12-28 The Italian Enlightenment no less than the Scottish was central to the emergence of political economy and creation of market societies Sophus Reinert turns to Milan in the late 1700s to recover early socialists preoccupations with the often lethal tension among states markets and human welfare and the policies these ideas informed Zone Di Frattura in Epoca Moderna Almut Bues, 2005 Until recently there have not been many researches on border zones in Early Modern Europe For the time before the emergence of nation states however it is convenient to think in European cases which indicate instability or cooperation in these zones of contact Three representative geographic regions have been central to an international conference which was questioning the specificities of zones of fracture Poland Lithuania has been linked with two zones the Baltic Sea and the Balkans The Northern Italian States were situated between two tectonic regions the Balkans and the Rhine valley The Balkans by themselves were divided into various mini zones and confronted with the Ottoman Empire The panels did not only try to look for comparisons but intended to find out the complexity and the different experiences within zones of frontiers in an European context The overlapping of various lines especially in the fields of law taxes and the Church has been brought into sharper focus
