Governing China From Revolution Through Reform 2nd Edition:

Governing China Kenneth Lieberthal, 1995 Looks at the history of Chinese government from the original imperial system to the current communist government and describes some of the challenges China faces in the future

Higher Education as a Field of Study in China Xin Wang, 2010-03-18 Higher Education as a Field of Study in China Defining Knowledge and Curriculum Structure concerns the complexity of higher education as an academic field the evolving nature of the field in light of the overall development of higher education in China It reviews how higher education as a field of study has evolved in China since 1978 and how the field has been shaped by political and social forces as well as institutional culture Xin Wang argues that higher education is becoming an interdisciplinary field rather than a subfield under the discipline of education especially when higher education has become an enterprise with such a broad scope in China Wang also expresses a belief that the field of higher education is being challenged by the professional need for preparing and training competent professionals for various administrative positions in China Higher education as a field will be professionalized with its own knowledge base and a set of skills in applying this knowledge to practical areas This book also provides an account of the U S model of higher education as an example how the field was formed and developed how it has evolved from a generalized area of inquiry into a professional specialization how programs of higher education are structured what classes they offer and what challenges they face The U S model presents a comparative perspective for Chinese scholars and program directors about higher education as a field of study

[China Reconnects: Joining A Deep-rooted Past To A New World Order](#) Gungwu Wang, 2019-07-02 The book is engaging informative and provocative and can profitably be read by undergraduates and professors alike You do not have to agree with the dean of China studies to learn from him China Review International The book shows how the Chinese are now confident of their capacity to learn all they need from the developed world and are keen to know which parts of the past they would need to build a modern Chinese civilization They are very conscious of the challenges coming from the United States and are looking for ways and means to respond to a superpower that wants to preserve its dominant position in the international status quo The book seeks to explain what China is doing and what its immediate and long term interests are It is not to defend or judge China It does not employ theoretical frameworks that are not appropriate for describing Chinese conditions It calls for understanding why history is particularly relevant to the Chinese state and most of its people That way we also see how the present and hopes for the future changes our perspectives of the past Related Link s

[Work Safety Regulation in China](#) Jie Gao, 2022-03-31 Fatality quotas implemented in China s industrial section and local governments are being used to promote work safety and therefore reducing the number of work related deaths Given the controversial nature of this policy Gao analyzes how the fatality quotas are functioning to aid the country in balancing economic growth and social stability The book also examines significant implications caused of this policy s implementation in the local regions and reveals how local officials attempt to handle these

problems This is the first book to systematically examine the role of death indicators in work safety improvement in contemporary China revealing insight into Beijing's quota oriented approach to policy making **The Economic and Strategic Rise of China and India** D. Denoon,2007-09-03 This book demonstrates the connection between economic and strategic developments in Asia with several interrelated arguments The author asserts that there is no single explanation for the 1997 financial crisis in the Pacific Rim states nor for the slow recovery afterwards The author also points out that China is not the only major power rising in Asia India is close behind and warns that while many observers are proceeding as if current U S treaties will continue indefinitely Asia is already preparing for changing patrons Authoritarian Legality in China Mary E. Gallagher,2017-09-07 This book examines Chinese workers experiences and shows how disenchantment with the legal system drives workers from the courtroom to the streets **Chinese Politics** Daniel Lynch,Stanley Rosen,2024-04-18 Written by a team of leading China specialists this updated 2nd edition of Chinese Politics explores the dynamics of state power and politics in contemporary China focusing on the Xi Jinping era Through its multi disciplinary contributions this book explores the extent to which Xi has reshaped the political economic socio cultural and demographic terrains of the PRC as well as Beijing's foreign policy The book will help readers to think productively about the trajectory of these aspects of Chinese politics and society through Xi's current term and beyond The book also highlights the potential role outside countries and non state actors might play in shaping China's trajectory as the PRC's economic rise may be stalling Through each exploration of these issues the book addresses the central question of what The Xi Jinping Difference has been and will likely continue to be in Chinese politics Key subjects covered in this new edition include Law and the political system Socialization of youth The fate of the private sector Technology and digital authoritarianism The Belt and Road Initiative Population aging Chinese Politics continues to be an essential textbook for all students of contemporary China as well as scholars interested in the dynamics of political and social change China's International Behavior Evan S. Medeiros,2009-08-07 China is now a global actor of significant and growing importance It is involved in regions and on issues that were once only peripheral to its interests and it is effectively using tools previously unavailable China's international behavior is clearly altering the dynamics of the current international system but it is not transforming its structure China's global activism is continually changing and has so many dimensions that it immediately raises questions about China's current and future intentions This study provides a conceptual and empirical framework to assess these important trends It examines how China views its security environment how it defines its international objectives how it is pursuing them and the consequences for U S economic and security interests **Inside Out India and China** William Antholis,2014-09-30 One third of humanity is governed by two capitals New Delhi and Beijing Increasingly these two countries are being led not from the top down but rather from the Inside Out In 2014 India overwhelmingly elected Narendra Modi minister a man who rose to national prominence as chief minister of Gujarat India's fastest growing state Likewise in 2013 Xi Jinping took over as

president of China having served as top official in Zhejiang and Shanghai two of China's most prosperous provinces

Anticipating these trends and leadership transitions William Antholis spent five months in 2012 traversing twenty Indian states and Chinese provinces conducting over three hundred interviews including with Narendra Modi Antholis's detailed narratives show what both Modi and Xi Jinping learned firsthand that local successes and failures will determine the future of the world's largest two nations And his new forward prepared for this edition lays out key takeaways from the transitions of 2013 and 2014

Law and Legal Institutions of Asia E. Ann Black, Gary F. Bell, 2011-03-10 The study of Asia and its plural legal systems is of increasing significance both within and outside Asia Lawyers whether in Australia America or Europe or working within an Asian jurisdiction require a sound knowledge of how the law operates across this fast growing and diverse region Law and Legal Institutions of Asia is the first book to offer a comprehensive assessment of eleven key jurisdictions in Asia China Hong Kong Taiwan Japan Korea Vietnam Malaysia Indonesia Brunei Darussalam Singapore and the Philippines Written by academics and practitioners with particular expertise in their state or territory each chapter uses a breakthrough approach facilitating cross jurisdictional comparisons and giving essential insights into how law functions in different ways across the region and in each of the individual jurisdictions

Run of the Red Queen Dan Breznitz, Michael Murphree, 2011-01-01 This work closely examines the strengths and weaknesses of the Chinese economic system to discover where the nation may be headed and what the Chinese experience reveals about emerging market economies

State-Society Relations and Governance in China Sujian Guo, 2014-07-09 State society relations and governance are closely related areas of study and have become important topics in the social sciences in the past decades not only in developed countries but also in the developing world In China state society relations have been changing in the new era of reform and opening and governance has become a central concern in policy practice and in academia In this wide ranging collection of essays written by scholars from both inside and outside China the contributors explore the complexity of the changing state society relationship and the modes and practices of governance in China by combining theoretical exploration and empirical case studies

Political Science and Chinese Political Studies Sujian Guo, 2012-07-25 We have witnessed the substantial transformation of China studies particularly Chinese political studies in the past 30 years due to changes in China and its rising status in the world as well as changes in our ways of conducting research As area studies specialists we are no longer isolated from the larger disciplines of Political Science and International Relations IR but an integral part of them This book contains theoretically innovative contributions by distinguished political scientists from inside and outside China who together offer up to date overviews of the state of the field of Chinese political studies combines empirical and normative researches as well as theoretical exploration and case studies explore the relationship between Western political science scholarship and contemporary Chinese political studies examine the logic and methods of political science and their scholarly application and most recent developments in the study of Chinese politics and discuss the hotly contested and

debated issues in Chinese political studies such as universality and particularity regularity and diversity scientification and indigenization main problems challenges opportunities and directions for the disciplinary and intellectual development of Chinese political studies in the context of rising China Charting China's Future Jae Ho Chung, 2006-08-24 China has become an undisputed global phenomenon yet twenty five years ago its remarkable accomplishments were largely unforeseen In an ambitious effort to predict China's coming decades this book explores not only the economic development that has been a key indicator of its success but the often veiled political social and international determinants that will be crucial Leading scholars draw on their years of experience and on the ground understanding of current trends to make informed estimates of China's path positing that its future may well hold neither threat nor collapse All of the contributors provide a set of scenarios and order them in terms of likelihood including the seven factors they have identified as central to charting China's future the Communist Party local electoral reforms and rule of law the federalist possibility social unrest foreign policy orientations Sino American relations and the Taiwan conundrum This book is a must read for anyone who wants to understand China as it rises in power on the world stage Contributions by Jean Pierre Cabestan Jae Ho Chung Bruce J Dickson Peter Hays Gries Tao chiu Lam Yawei Liu Gilbert Rozman and Shiping Tang Food Safety Law in China Francis Snyder, 2015-12-22 This book is the first major study of the making of transnational food safety law in China Francis Snyder shows how the 2008 melamine infant formula crisis led to China's first food safety law and new food safety standards substantial reforms in government policy and closer relations with international organisations He also identifies current and future challenges and makes recommendations for dealing with them Chinese food safety law today is influenced strongly by cross border factors While transnational regimes help to shape domestic decisions many institutions deeply embedded in Chinese society have played key roles in this transformation Francis Snyder emphasises that in finding its own path toward ensuring food safety China can both learn from and teach other countries In May 2017 this title has been awarded a Gourmand World Cookbook Award in Yantai Shandong Province China Best in the World in two categories Best Wine Law Book and Food Safety Institutions *Modern China* Xiaobing Li, 2015-11-23 Providing an indispensable resource for students educators businessmen and officials investigating the transformative experience of modern China this book provides a comprehensive summary of the culture institutions traditions and international relations that have shaped today's China In *Modern China* author Xiaobing Li offers a resource far beyond a conventional encyclopedia providing not only comprehensive coverage of Chinese civilization and traditions but also addressing the values issues and critical views of China As a result readers will better understand the transformative experience of the most populous country in the world and will grasp the complexity of the progress and problems behind the rise of China to a world superpower in less than 30 years Written by an author who lived in China for three decades this encyclopedia addresses 16 key topics regarding China such as its geography government social classes and ethnicities gender based identities arts media and food each followed by roughly 250 short

entries related to each topic All the entries are placed within a broad sociopolitical and socioeconomic contextual framework The format and writing consistency through the book reflects a Chinese perspective and allows students to compare Chinese with Western and American views *Embedded Courts* Kwai Hang Ng,Xin He,2017-10-26 *Embedded Courts* is laden with tension Chinese courts are organized as a singular and unified system yet grassroots courts in urban and rural regions differ greatly in the way they use the law and are as diverse as the populations they serve Based on extensive fieldwork and in depth interviews this book offers a penetrating discussion of the operation of Chinese courts It explains how Chinese judges rule and how the law is not the only script they follow political administrative social and economic factors all influence verdicts This landmark work will revise our understanding of the role of law in China one that cannot be easily understood through the standard lens of judicial independence and separation of powers Ng and He make clear the struggle facing frontline judges as they bridge the gap between a rule based application of law and an instrumentalist view that prioritizes stability maintenance **Building New China, Colonizing Kokonor** Gregory Rohlf,2016-03-04 *Building New China Colonizing Kokonor* Resettlement to Amdo and Qinghai in the 1950s examines rural resettlement to the Sino Tibetan cultural borderlands in the 1950s More than 100 000 eastern Han and Hui Chinese were sent to Qinghai province known in Mongolian as Kokonor and Amdo to Tibetans to plow up new fields in areas that were being incorporated into the Chinese state for the first time The settlers were to bring their skilled labor literacy and modern thinking to backward Qinghai to fully exploit its natural resources of oil natural gas gold and empty lands for the benefit of the industrializing nation The book is a social and political history of resettlement focusing on the people who were moved and the overall impact the program had on the province It is a frontier history but it also narrates a story of state building in modern China that spans the twentieth century and the opening years of the twenty first Chinese Communist Party School and its Suzhi Education Chunqi Zhou,2023-03-03 Zhou applies network governance theories to Chinese education and focuses on Chinese education policy implementation particularly with the Chinese Communist Party Schools CCPS The CCPS is the institution which follows the Chinese Communist Party CCP s ideas and decisions to educate key education leaders at all levels with different political purposes In the Chinese education policymaking process the CCP is the leading power which provides policy directions but the education department is the main vehicle for the delivery of education policy Using document analysis and interviews Zhou argues that an education policy implementation process can be successful from top to bottom level in cooperation with the education department He further posits that formulating and implementing Chinese education policy can be characterised as a form of network governance which coordinates actors and stakeholders motivation to comply with collective decisions in Chinese education implementation The book offers fresh data for the study of policy networks in Chinese education the study of CCPS and Chinese network governance This book will be of interest to scholars and postgraduate students studying Chinese education comparative educational policy and comparative education research
