The textbook includes a focus on linguistic anthropology, unpacking the main contributions of linguistics to the study of human communication and culture. Aimed at the general education student, the textbook also provides anthropology, linguistics, and English majors with the resources needed to pursue advanced courses in this area. Written in an accessible manner that does not assume previous knowledge of linguistics, this new edition contains expanded discussions on linguistic anthropology, sociolinguistics, including an expanded section on trans and nonbinary language and pragmatics. The textbook incorporates a robust set of pedagogical features, including marginal definitions, a substantial glossary, chapter summaries, and learning exercises. Brand new to this edition are a full International Phonetic Alphabet chart, new exercises with languages other than English, and new illustrations.
