Habits Of Hope A Pragmatic Theory The Vanderbilt Library Of American Philosophy:

Habits of Hope Patrick Shade,2001-01 Shade shows that hoping can be made practical without losing its capacity to transcend practical limitations He first discusses the particular hopes we pursue and then turns to the habits of hope persistence resourcefulness and courage that are vital to their realization Each of these habits can be developed individually but their coordination and mutual reinforcement is most desirable Indeed habits of hope are the basis for developing hopefulness a complex habit that nurtures and sustains us even when we fail to realize particular hopes Hopefulness Shade maintains helps us to avoid the paralysis of despair Without it the life of hope is greatly diminished BOOK JACKET **The Pragmatic Turn in Philosophy** William Egginton, Mike Sandbothe,2012-02-01 The Pragmatic Turn in Philosophy explores how the various discursive strategies of old and new pragmatisms are related and what their pertinence is to the relationship between pragmatism and philosophy as a whole The contributors bridge the divide between analytic and continental philosophy through a transcontinental desire to work on common problems in a common philosophical language Irrespective of which side of the divide one stands on pragmatic philosophy has gained ascendancy over the traditional concerns of a representationalist epistemology that has determined much of the intellectual and cultural life of modernity This book details how contemporary philosophy will emerge from this recognition and that in fact this emergence is already underway

Gabriel Marcel and American Philosophy David W. Rodick,2017-04-12 Gabriel Marcel and American Philosophy The Religious Dimension of Experience examines the philosophy of Gabriel Marcel and its relationship to key figures in classical American Philosophy in particular Josiah Royce William Ernest Hocking and Henry Bugbee Few scholars have taken sufficient note of the fact that Gabriel Marcel's thought is vitally informed by classical American philosophy Marcel's essays on Royce offer a window into the soul of Marcel's recent philosophical development The idealism of early Marcel stemmed from an omnipresent sense of a broken world an experience of rent or tear within the tissue of experience similar to what John Dewey referred to as an inward laceration of the spirit Furthermore Marcel's intuition concerning the primacy of intersubjective experience can help us understand W E Hocking's thought Finally Marcel's notion of l'exigence ontologique clarifies his relationship to Henry Bugbee Marcel and Bugbee explore the contour of experience the indigenous circuit of associations pertaining to the self as coesse Through a reflexive act Marcel refers to as ingatherdness the self undergoes increasing degrees of unification by experiencing an act of faith made explicit only in a dialectical act of participation David W Rodick shows that Marcel's relationship to these American philosophers is not coincidental but rather the philosophical expression of his Christian faith Marcel's most important legacy is his commitment to unity of Christian philosophizing a unity derived from both reason and revelation Its diversity stems from the objective plurality of what is pursued as well as the subjective plurality of those who pursue it Christian philosophizing seeks a truth that every Christian believes can never be untrue to itself **The Principle of Political Hope** Loren Goldman,2022-12-27 In The Principle of Political Hope Loren

Goldman draws on Immanuel Kant Ernst Bloch Charles Peirce William James and John Dewey to offer an account of political hope as a frame for navigating the relationship between subjective aspiration and objective possibility Considering what political hope is how it operates how it has been thought about and how to think about it in the contemporary world Goldman's conceptualization of hope rejects grand notions of progress while still maintaining the possibility of a brighter future Refreshing and lucid Goldman reconstructs hope as a necessary precondition for social and political engagement reinvigorating the possibility of utopia in the process

The Philosophical Review Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 2001

The Virtuous Physician James A. Marcum, 2012-01-02 Although modern medicine enjoys unprecedented success in providing excellent technical care many patients are dissatisfied with the poor quality of care or the unprofessional manner in which physicians sometimes deliver it Recently this patient dissatisfaction has led to quality of care and professionalism crises in medicine In this book the author proposes a notion of virtuous physician to address these crises He discusses the nature of the two crises and efforts by the medical profession to resolve them and then he briefly introduces the notion of virtuous physician and outlines its basic features Further virtue theory is discussed along with virtue ethics and virtue epistemology and specific virtues especially as they relate to medicine The author also explores the ontological priority of caring as the metaphysical virtue for grounding the notion of virtuous physician and two essential ontic virtues care and competence In addition to this he examines the transformation of competence into prudent wisdom and care into personal radical love to forge the compound virtue of prudent love which is sufficient for defining the virtuous physician Lastly two clinical case stories are reconstructed which illustrate the various virtues associated with medical practice and it is discussed how the notion of virtuous physician addresses the quality of care and professionalism crises

A Religion of Nature Donald A. Crosby, 2012-02-01 The beauty sublimity and wonder of nature have been justly celebrated in all of the religious traditions of the world but usually these traditions have focused on beings or powers presumed to lie behind nature providing nature's ultimate explanation and meaning In a radical departure Donald A Crosby makes an eloquent case for regarding nature itself as the focus of religion conceived without God gods or animating spirits of any kind and argues that nature is metaphysically ultimate He explores the concept of nature the place of humans in nature the responsibilities of humans to one another and to their natural environments and offers a religious vision that grants to nature the kind of reverence awe love and devotion formerly reserved for God Crosby also shares his personal journey from theistic faith to a religion of nature

Martin,2024-11-01 What exactly is hope and how does it influence our decisions In *How We Hope* Adrienne Martin presents a novel account of hope the motivational resources it presupposes and its function in our practical lives She contends that hoping for an outcome means treating certain feelings plans and imaginings as justified and that hope thereby involves sophisticated reflective and conceptual capacities Martin develops this original perspective on hope what she calls the incorporation analysis in contrast to the two dominant philosophical conceptions of hope the orthodox definition where hoping for an outcome is simply desiring it while thinking it possible and agent centered views where hoping for an outcome is setting oneself to pursue it In exploring how hope influences our decisions she establishes that it is not always a positive motivational force and can render us complacent She also examines the relationship between hope and faith both religious and secular and identifies a previously unnoted form of hope normative or interpersonal hope When we place normative hope in people we relate to them as responsible agents and aspire for them to overcome challenges arising from situation or character Demonstrating that hope merits rigorous philosophical investigation both in its own right and in virtue of what it reveals about the nature of human emotion and motivation *How We Hope* offers an original sustained look at a largely neglected topic in philosophy **Habits** Fausto Caruana,Italo Testa,2020-12-03 This pragmatist interpretation of habits provides a unifying concept for 4E cognitive science neuroscience philosophy and social theory **Philosophy of Hope** David Starr Jordan,2019 A Philosophy of Human Hope J.
