One of the best books on narcotics that has yet appeared Medical Review of Reviews Volume 22 January 1916 No one can be better fitted to place such a treatise before the public than Mr Towns who is in a measure responsible for the present legislative campaign against the wholesale distribution of habit forming drugs heretofore considered almost harmless by druggists and consumers which however insidiously undermine the health progress and prosperity of the individual and the community at large by whom a habit is formed from which the victim can not easily and perhaps never be released He justly claims that the physician is almost invariably to blame for the development of this drug using curse due to his ignorance of the length to which he can safely go in the administration of narcotics We should say that all points of importance i e causes warning against the danger help and hope for the afflicted treatment and cure of these unfortunates are covered herein Mr Towns faces a terrific problem and handles the subject manfully truthfully bravely yea and despite all that he knows of it hopefully as well No one especially interested in these subjects among the profession or laity should be without a copy Medical Times Volume 43 January 1915 A solemn note of warning against the perils of the drug habit The Rock The work is interesting and deserves to be read by members of the medical profession Medical Record The recent sensational legislation against the traffic in habit forming drugs has brought to light startling facts about the prevalence of drug addiction among all classes of people not excluding doctors Mr Towns whose life work is the study and treatment of the victims of these habits and who is largely responsible for the present legislative campaign here sums up his experience in regard to the prevalence of drugs and the methods of treatment and cure and he extends his discussion also to alcohol and tobacco It is almost as important he believes that the public should be

wary about sanatoriums and even about many doctors as about drugs themselves and he outlines a practicable mode of cure the success of which he has himself repeatedly proved The work is at once interesting and instructive and should be in the hands of every practitioner Pacific Medical Journal Volume 58 January 1915 A few years ago he successfully treated some four thousand Chinese for opium The Bellman Volume 19 August 21 1915 CONTENTS I THE PERIL OF THE DRUG HABIT II THE NEED OF ADEQUATE SPECIFIC TREATMENT FOR THE DRUG TAKER III THE DRUG TAKER AND THE PHYSICIAN IV PSYCHOLOGY AND DRUGS V ALCOHOLICS VI HELP FOR THE HARD DRINKER VII CLASSIFICATION OF ALCOHOLICS VIII THE INJURIOUSNESS OF TOBACCO IX TOBACCO AND THE FUTURE OF THE RACE X THE SANATORIUM XI PREVENTIVE MEASURES FOR THE DRUG EVIL XII CLASSIFICATION OF HABIT FORMING DRUGS XIII PSYCHOLOGY OF ADDICTION APPENDIX **Habits that Handicap** Charles Barnes Towns,1919 Habits That Handicap Charles B.

Towns,2015-07-12 Excerpt from Habits That Handicap The Menace of Opium Alcohol and Tobacco and the Remedy It is interesting to note that a year or more ago a few deaths from bichlorid of mercury poisoning caused within a period of six months a general movement toward protective legislation This movement was successful and after the lapse of only a short time the public was thoroughly protected against this dangerous poison It will be observed that the financial returns from the total sale of bichlorid of mercury tablets could be but small Had the financial interests involved been of a magnitude comparable with those interested in the manufacture and promotion of habit forming drugs I have often wondered if the result would not have been less effective and as prompt Bichlorid of mercury never threatened any large proportion of the public and those falling victims to it merely die Opium and its derivatives threaten the entire public especially those who are sick and in pain and with a fate far more terrible than death a thralldom of misery inefficiency and disgrace About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *List of References on the Drug Habit and Traffic* Library of Congress. Habit Forming Elizabeth Kelly Gray,2023 Habitual drug use in the United States is at least as old as the nation itself Habit Forming traces the history of unregulated drug use and dependency before 1914 when the Harrison Narcotic Tax Act limited sales of opiates and cocaine under US law Many Americans used opiates and other drugs medically and became addicted Some tried Hasheesh Candy injected morphine or visited opium dens but neither use nor addiction was linked to crime due to the dearth of restrictive laws After the Civil War American presses published extensively about domestic addiction Later in the nineteenth century many used cocaine and heroin as medicine As addiction became a major public health issue commentators typically sympathized with white middle class drug users while criticizing such use by poor or working class people and people of color When habituation was associated with middle class morphine users few advocated for restricted drug access By the 1910s as use was increasingly associated with poor young men support for

regulations increased In outlawing users access to habit forming drugs at the national level a public health problem became a larger legal and social problem one with an enduring influence on American drug laws and their enforcement
