Breuning, 2015-12-16 Offers simple activities that help you understand the roles of your happy chemicals serotonin dopamine oxytocin and endorphins You ll also learn how to build new habits by rerouting the electricity in your brain to flow down a new pathway making it even easier to trigger these happy chemicals and increase feelings of satisfaction when you need them most SUMMARY - Habits Of A Happy Brain: Retrain Your Brain To Boost Your Serotonin, Dopamine, Oxytocin, Endorphin Levels By Loretta Graziano Breuning Shortcut Edition, 2021-06-02 Our summary is short simple and pragmatic It

allows you to have the essential ideas of a big book in less than 30 minutes As you read this summary you will discover that man is not as free as he thinks he is You will also discover that man is above all a mammal what are the different types of happiness hormones why the brain creates dissatisfaction the importance of the group the vicious circle of happiness how the brain wires itself how to create new habits for each hormone how to overcome obstacles to happiness how to use the tools you already have Man s cortex of which he takes just pride does not allow him to be as independent as he would like to be A whole automatic unconscious system acts behind the scenes to determine his behavior This complex system largely determines the satisfaction that the individual can have with his life but it can be consciously modified Understanding how the brain works allows us to adjust our goals and increase our happiness tenfold by establishing appropriate habits The human brain is subject to hormones that are largely determined by old unconscious circuits but which psychologically translate into happiness or unhappiness However by using determination and concentration man has the possibility to change these ancestral habits and achieve greater happiness within 45 days here is how Buy now the summary of this book for the modest price of a cup of coffee 14 Days to Sustainable Happiness Loretta Breuning, 2021-06 You have power over

your emotions It s limited so you need to understand your power Here is a simple explanation of the chemicals that make us feel good dopamine serotonin oxytocin and endorphin You ll find out what turns them on in animals and how you manage them with the animal part of your brain Then you ll learn to rewire your happy chemicals by feeding your brain new inputs in a new way We ll do the same for the unhappy chemical cortisol too It s a step by step method with no jargon based on the work of the Inner Mammal Institute A more complete presentation of the science is in the companion book Habits of a Happy

Brain Retrain your brain to boost your serotonin dopamine oxytocin and endorphin levels With one lesson a day for fourteen days you will discover your power over your happy brain chemicals This is not a checklist of activities It s a guide to the way your brain got wired long ago and the way to add on new wiring We humans get wired by early experience so we all need updates You can learn to blaze a new trail through your jungle of neurons to reach your happy chemicals in natural healthy ways Realistic expectations are the key Our happy chemicals are not designed to flow all the time for no reason They evolved to reward you for taking a step that meets your needs Our brain defines needs in a quirky way alas You will learn about these quirks so you can design realistic steps toward your happy chemicals You cannot rewire your whole brain in 14 days You can build one new neural pathway at a time You will learn to target the new pathway you want and the steps that will build it It will build with repetition so you will flow there as smoothly as you now flow into your old happy chemical pathways You can replace an unsustainable habit with a new habit designed by you You ll be glad you did [Summary of Loretta Graziano Breuning's Habits of a Happy Brain](#) Milkyway Media,2022-07-19 Buy now to get the main key ideas from Loretta Graziano Breuning s Habits of a Happy Brain Did you ever wonder if you can change your bad habits Loretta Graziano Breuning s Habits of a Happy Brain 2015 says you can and it s possible to build good habits in just forty five days Breuning first looks at the different brain chemicals that cause humans to be happy or miserable She examines how they operate and why they re vital Then she explains how the brain forms habits and why they re so tough to stop Finally you ll learn how you can prevent your brain from holding on to its old habits and discover tools that will help you form the new ones you desire [Happy Brain Sparks](#) Xena Mindhurst,AI,2025-01-11 Happy Brain Sparks presents a groundbreaking exploration of happiness through the lens of neuroscience offering readers a unique blend of scientific understanding and practical application The book demystifies the complex relationship between brain chemistry and emotional well being focusing on how neurotransmitters like endorphins and serotonin shape our happiness and how we can actively influence these processes through evidence based techniques The journey begins with a deep dive into the neurochemistry of positive emotions where readers learn about the fascinating role of neuroplasticity in emotional regulation The book then transitions into practical applications presenting specific protocols for triggering positive neurochemical responses through lifestyle choices exercises and daily practices What sets this work apart is its ability to translate complex neuroscientific concepts into accessible strategies while maintaining scientific integrity Through a careful integration of positive psychology cognitive behavioral therapy and cutting edge neuroscience the book builds a comprehensive framework for understanding and enhancing emotional well being Each chapter combines theoretical knowledge with practical exercises and case studies making it invaluable for both professionals and general readers interested in evidence based approaches to happiness The book s interdisciplinary approach drawing from neurobiology psychology and behavioral science provides readers with a thorough understanding of how they can actively participate in their own emotional well being through scientifically validated methods
