expert instructs readers in the basics of handwriting analysis. He shows how to employ a step by step method that gives a reliable description of a subject based on a sample of his or her handwriting. Just as our voices reveal much about our emotions, our motives and our needs, so too does our handwriting present a psychological profile to the analyst who knows how to decipher it. A simple but clever set of tools devised by the author is enclosed with this book. Its components are: A protractor to measure angles of handwriting slant and gauge emotions at the time of writing as well as to interpret enduring personality traits. A gauge for estimating the zones into which each part of a handwritten letter falls. A rule for measuring any letter's size and spacing. All components in the tool kit are printed on sturdy transparent acetate to be used as an overlay on handwriting samples. An opening chapter presents an overview of handwriting analysis, discussing handwriting pressure, size, spacing, slant, and the qualities these features indicate. Subsequent chapters discuss what handwriting reveals about a subject's public life and inner life. A final chapter offers an at a glance guide to decoding psychological meanings underlying the various ways in which a subject shapes each letter of the alphabet. This fascinating book provides a key to self understanding and the understanding of others. More than 250 instructive color illustrations.

Graphology-Secret of Yourself Nirja Singh, 2019-06-11. Graphology is the study and analysis of the patterns of handwriting to develop a perception of the writer's personality and psychological state at the time of writing. Human nature is difficult to comprehend and may take years before an understanding of the behavioral traits, motivations, and intentions of an individual can be closely understood. However, handwriting analysis allows an insight into these aspects of human nature. By examining a handwriting sample, a complete analysis of the person's character and personality can be developed. This book is a compilation of chapters that discuss about human traits, fears, and defences, strengths and weaknesses, and is focused on an understanding of human dynamics through the medium of handwriting analysis. It is meant to be a reference text for individuals who are keen to know about themselves. Extensive research was performed for writing this book, and the images, quotations, etc. used throughout the book have been derived from various books in Graphology and from different online resources, and the same has been mentioned in the references section.
