*The Witness of the Magi: The Meaning of the Visitors from the East in Art and Culture* Christopher Silva, 2018-12-20 Looking to discuss the purpose of the Magi in the Gospel this book turns to tradition and iconography and draws conclusions about the Magi in the religious imaginations of Christians from the earliest times of Christianity until the Protestant Reformation as well as considers what the Magi could possibly mean for today The Magi become more than simple characters on a page and communicate a larger truth to the people of every age Whether they existed as three men two men a caravan of peoples or

literary devices the Magi communicate a deep desire for something outside of ourselves They call for change and renewal in the lives of people in the act of giving to something much more than themselves

**Sacred Ritual, Profane Space** Jenn Cianca, 2018-05-23 The first three centuries of Christianity are increasingly seen in modern scholarship as sites of complexity Sacred Ritual Profane Space examines the Christian meeting places of the time and overturns long held notions about the earliest Christians as utopian rather than place bound people By mapping what is known from early Christian texts onto the archaeological data for Roman domestic spaces Jenn Cianca provides a new lens for examining the relationship between early Christianity and sites of worship She proposes that not only were Roman homes sacred sites in their own right but they were also considered sacred by the Christian communities that used them In many cases meeting space would have included the presence of the Roman domestic cult shrines Despite the fact that the domestic cult was polytheistic Cianca asserts that its practices likely continued in places used for worship by Christians She also argues that continued practice of the domestic cult in Roman domestic spaces did not preclude Christians from using houses as churches or from understanding their rituals or their meeting places as sacred Raising a host of questions about identity ritual affiliation and domestic practice Sacred Ritual Profane Space demonstrates how sacred space was constructed through ritual enactment in early Christian communities

**Heaven and the Popular Imagination** T. M. Allen, 2018-11-15 Popular culture continues to search the depths of the poetic imagination concerning heaven It seems to be a constant theme in literature film and music spanning genres throughout the Western world Yet some contemporary scholars suggest that all of these narratives are somewhat misguided and remain at best only partial constructions of a proper eschatology The creative imagination in popular culture especially in relation to the arts has often carried a less than trustworthy role in theology and philosophy Heaven and the Popular Imagination analyzes a number of approaches within the theology of culture conversation to suggest that a hermeneutic of popular imagery can open up new horizons for understanding and challenging the role heaven plays in Christian theology From ancient literature to popular music and films heaven is part of the framework of our ecumenical imagining about beginnings and endings Such a hermeneutic must encompass an interdisciplinary approach to theology

**My Journey as a Religious Pluralist** Alan Race, 2021-06-02 Christian theology of religions remains a central component of the Christian response to global religious diversity In the face of theological refusals to engage with issues of religious

absolutism and new impressions from interreligious encounters this book seeks to inject fresh energy into a debate that has stalled in recent years The encounter between Christians and people of different religious persuasions raises questions of how to interpret Christian absolutism for a new and developing consciousness that values the experience of the religious other This book argues that interreligious dialogue interreligious ethical collaboration and comparative studies all point to a pluralist future where we are obliged to recognize the spiritual authenticity of the experience animating many religions Building friendly relations between faith communities is to be applauded but it is insufficient in the face of the many challenges confronting the global human community Whether we are speaking of cooperation in civil society peace in the world or the overarching ecological crisis encompassing the planet as a whole the acceptance of the diversity of religions as a positive religious value will strengthen the sense of global responsibility that is needed **Muslim and Catholic**

**Pilgrimage Practices** Albertus Bagus Laksana, 2016-04-29 Exploring the distinctive nature and role of local pilgrimage traditions among Muslims and Catholics Muslim and Catholic Pilgrimage Practices draws particularly on south central Java Indonesia In this area the hybrid local Muslim pilgrimage culture is shaped by traditional Islam the Javano Islamic sultanates and the Javanese culture with its strong Hindu Buddhist heritage This region is also home to a vibrant Catholic community whose identity formation has occurred in a way that involves complex engagements with Islam as well as Javanese culture In this respect local pilgrimage tradition presents itself as a rich milieu in which these complex engagements have been taking place between Islam Catholicism and Javanese culture Employing a comparative theological and phenomenological analysis this book reveals the deeper religio cultural and theological import of pilgrimage practice in the identity formation and interaction among Muslims and Catholics in south central Java In a wider context it also sheds light on the larger dynamics of the complex encounter between Islam Christianity and local cultures *Material Christianity* Christopher Ocker, Susanna Elm, 2020-02-26 This collection of essays offers a series of rigorously focused art historical historical and philosophical studies that examine ways in which materiality has posed and still poses a religious and cultural problem The volume examines the material agency of objects artifacts and environments art ritual pilgrimage food and philosophy It studies the variable senses of materiality the place of materiality in the formation of modern Western religion and its role in Christianity s dialogue with non Western religions The essays present new interpretations of religious rites and outlooks through the focus on their material components They also suggest how material engagement theory a new movement in cultural anthropology and archeology may shed light on the cultural history of Christianity in medieval and early modern Europe and the Americas It thus fills an important lacuna in the study of western religion by highlighting the longue dur e from the Middle Ages to the Modern Period of a current dilemma namely the divide between materialistic and what might broadly be called hermeneutical or cultural critical approaches to religion and human subjectivity **Great City Maps** DK, 2016-09-06 Journey back in time and take a walk through the historic streets of the world s greatest cities Great City Maps is the
