*Synoptic Composition* Adam J. Christian, 2023-09-01 The fascination with literary dependency in the most popular approaches to the synoptic problem has been built upon a faulty presupposition that oral tradition is incapable of producing the word for word verbal agreement found in the synoptic accounts Recent research in the area of oral tradition has shown that this is not the case but we still rely on increasingly complicated literary models to explain the relationships between the Synoptic Gospels This book engages in comparative analysis of Old Greek quotations found in more than one of the Synoptic Gospels along with the material that surrounds these quotations The resulting conclusions indicate that oral sources may better explain the similarities and differences found in the Synoptic Gospels and that we ought to reexamine our foundational presuppositions in order to craft a better model for understanding the origins of the Synoptic Gospels The hope is that the reader will join the author in seeking to better understand these books that include the climax of the greatest story of all time the true story of people marred by sin and their creator who seeks after them as he redeems all things to himself

Resurrection Faith of the Early Church J. D. Atkins, 2019-08-02 Why do the Gospels depict the risen Jesus as touchable and able to eat J D Atkins challenges the common view that Luke 24 and John 20 are apologetic responses to docetism by re-examining the redaction of the appearance stories in light of their reception among early docetists and church fathers Page 4 of cover

**The Original Ending of Mark** Nicholas P Lunn, 2015-04-30 Although traditionally accepted by the church down through the centuries the longer ending of Mark's Gospel 16:9-20 has been relegated by modern scholarship to the status of a later appendage The arguments for such a view are chiefly based upon the witness of the two earliest complete manuscripts of Mark and upon matters of language and style This work shows that these primary grounds of argumentation are inadequate It is demonstrated that the church fathers knew the Markan ending from the very earliest days well over two centuries before the earliest extant manuscripts The quantity of unique terms in the ending is also seen to fall within the parameters exhibited by undisputed Markan passages Strong indications of Markan authorship are found in the presence of specific linguistic constructions a range of literary devices and the continuation of various themes prominent within the body of the Gospel Furthermore the writings of Luke show that the Gospel of Mark known to this author contained the ending Rather than being a later addition the evidence is interpreted in terms of a textual omission occurring at a later stage in transmission probably in Egypt during the second century
