**Rethinking Fundamental Theology** Gerald O'Collins,2011-05-26 This book identifies the distinguishing features of fundamental theology as distinct from philosophical theology natural theology apologetics and other similar disciplines Addressing the potential for confusion about basic Christian claims and beliefs Gerald O Collins sets out to relaunch fundamental theology as a discipline by presenting a coherent vision of basic theological questions and positions that lay the ground for work in specific areas of

systematic theology Rethinking Fundamental Theology examines central theological questions about God human experience and specifically religious experience the divine revelation coming through the history of Israel and through the life death and resurrection of Jesus human faith that responds to revelation the nature of tradition that transmits the record and reality of revelation the structure of biblical inspiration and truth as well as basic issues concerned with the formation of the canon the founding of the Church with some leadership structures the relationship between Christ's revelation and the faith of those who follow other religions O Collins concludes with some reflections on theological method Written with the scholarship and accessibility for which O Collins is known and valued this book will relaunch fundamental theology as a distinct and necessary discipline in faculties and departments of theology and religious studies around the world **Starting with the Spirit** Myk Habets, Gregory J. Liston, 2024-08-22 Trinitarian in its foundation pneumatological in its impetus and comprehensive in its scope Third Article Theology TAT is both a method and a theology As a method TAT intentionally views reality through the lens of the Spirit As a theology the insights that arise from an approach that prioritizes pneumatology are deep and rich offering a penetrating vision into today's central and defining theological issues This volume introduces the reader to the methodology of TAT and some of the many theological insights that have arisen from its utilization Further it provides the tools and techniques to invite and inform the reader to participate in the efficient and pastoral exercise of viewing reality from a pneumatological perspective to catch a vision of the world as infused with the power presence and potential of the Spirit and to lead their lives accordingly Designed for classroom use it includes several pedagogical features such as case studies engaging with critical areas of contemporary concern *Ecclesiology in Africa* David K. Ngaruiya, Rodney L. Reed, 2024-11-14 In spite of persecution and waning in some areas of the world Christianity in Africa has continued to grow Yet alongside the flourishing of the church comes challenges of syncretism and pluralism In this ninth volume from the annual conference of the Africa Society of Evangelical Theology contributors explore the African Christian's understanding of church through contextual ecclesiology These African theologians address irrefutable realities for the African church while covering an extensive range of topics such as the priesthood of all believers the functions and ministries of church in society and church growth strategies Presenting ecclesiology through the lenses of scriptural examinations historical theology systematic examinations and practical theology these essays work together to build a contemporary understanding of the burgeoning church in Africa through African voices *Our Priest is Christ* Albert Vanhoye, 1977 In our days the meaning of priesthood is questioned The Council reminded Christians that they were all priests because they participate in the priesthood of Christ The Dogmatic Constitution of the Church Lumen Gentium 10 11 34 It is clear that this doctrine calls for serious study Moreover today the function of priests is questioned and society demands on their part an intense renewal If they do not wish to wander in wrong directions priests must first of all be sure of the doctrinal basis of their vocation The following pages do not pretend to point out a solution for all the contemporary problems They are

intended to help others draw near to the source of light which in this instance is Christ the Priest We cannot have a correct idea of the priesthood common to all Christians or of the ministerial function of priest if first of all we do not have a better understanding of the priesthood of Christ himself The New Testament assists us in our quest by presenting over and above references scattered here and there a magnificent text which in its entirety treats this aspect of the mystery of Christ This text is not easy to handle Its title reveals nothing of its content and does not seem attractive The Epistle to the Hebrews is the text in question Why should a Christian read the Epistle to the Hebrews is the next question Indeed it would be better to use neither epistle nor to the Hebrews because the author speaks rather than writes and he speaks to Christians Were we to choose a title that would more clearly indicate its content we would have to say the Priesthood of Christ and then point out that its message is addressed to bewildered Christians From what the author presents it is clear that the Christians to whom he speaks were living in difficult times From the period of their conversion they had endured many painful trials 10 32 imprisonment the confiscation of their goods diverse vexations as had so many of their brothers in the newly founded churches cf 1 Th 2 14 *Theology of Transformation* Oliver Davies, 2013-11 Theology of Transformation is both a systematic and a practical theology of active discipleship and vocation which as a renewal of Christology has implications across the full range of theological topics Contemporary Christian theology needs to reflect science in pointing to the universal primacy of action in human life and experience Suffering in the Face of Death Bryan R. Dyer, 2017-04-20 Suffering and death are two topics that are frequently referred to in the Epistle to the Hebrews but have rarely been examined within scholarship on this important New Testament text Dyer redresses the balance in this study of these topics conducting a thorough investigation using semantic domain analysis He incorporates recent advancements in modern linguistics in particular the context of situation and then connects these topics to the social situation addressed in Hebrews In so doing he is able to reveal how the author is responding to the reality of suffering in the lives of his audience With this awareness it becomes clear how the author also responds to his audience's pain by creating models of endurance in suffering and death These serve to motivate his audience toward similar endurance within their own social context Dyer shows that it is possible to make significant determinations about the social setting of Hebrews based upon an examination and analysis of the language used therein

A New Model of the Authentic Church Robert Fuggi, 2018-02-08 In American church culture worldly benchmarks of achievement have all but blinded us to the true purpose of the body of Christ A New Model of the Authentic Church may be one of the most significant books written on the American church in decades It not only offers a scholarly analysis of the current state of the church but provides practical solutions The book offers a brilliantly well developed model for how to make church work more effectively If implemented it would provide a much needed paradigm shift in how we do church in America The book's main contribution is that it provides a workable framework not only on how to birth new missionally minded churches but how to reform existing ones back to the Authentic Church of the gospels If its principles are taken and

applied the book could alter the landscape of the American church which will be a breath of fresh theological air to a church that has lost its way in the new millennium The purpose of this book is not to just challenge and change the status quo its goal is to bring a real lasting transformation to how we do church The aspiration in writing this book is for it to be seen and read not just as a critical assessment of the condition of the American church but as a practical blueprint that will provide much renewed hope and purpose to the contemporary American church the bride of Christ *Liturgy, Theurgy, and Active Participation* Kjetil Kringlebotten, 2023-09-08 Providing a metaphysical grounding for liturgical participation this book argues that active participation in the liturgy must be understood principally as our participation in God's act particularly in the act of Christ and only secondarily as our ritual involvement Utilizing Neoplatonist philosophy Kjetil Kringlebotten proposes that this should be understood in terms of theurgy which is the human participation in divine action which finds its consummation in the incarnation of Christ Without the incarnation all acts will remain extrinsic and imposed but acts can become real and intrinsic precisely because the incarnation makes possible true union with the divine a metaphysical union in distinction without confusion because this union is not extrinsic Through union with Christ as the one common focus of the divine human relation we can have true union with God and may offer true worship In order to make sense of active participation then we need to understand theology in theurgic terms where theurgy is understood not as a mechanical coercion of God but as a participation in His act in creation and through Christ as the true theurgist the master theurgist Whose work transforms our act and the liturgy

**Locating Atonement** Zondervan, 2015-11-10 A Close Look at Atonement's Place in Contemporary Systematic Theology In light of renewed interest in the doctrine of atonement during which a range of atonement models have gained momentum among different traditions it's important to map these models to the broader context of theological thought on this aspect of Christ's work and to show how no single approach has the complete picture The proceedings of the third annual Los Angeles Theology Conference seek to identify the place of the doctrine of atonement in systematic theology Locating Atonement stays away from discussion of theories of atonement typologies of those theories and contests among various theories Instead its focus is on the question What else is there to do in atonement theology besides rehashing types and theories The twelve diverse essays in this collection include discussions on Atonement and the concept of punishment Atonement and ascension Atonement and human suffering Atonement and covenant Each of the essays collected in this volume engage with Scripture as well as with others in the field theologians both past and present from different confessions in order to provide constructive resources for contemporary systematic theology and to forge a theology for the future

**Toward a Priestly Christology** Adriani Milli Rodrigues, 2018-11-02 Toward a Priestly Christology is a constructive theology on the person and work of Christ from the standpoint of a systematic thinking about his priesthood This priesthood is usually discussed in biblical scholarship on the Christology of Hebrews and also explored in historical or systematic theology with its connections with soteriology and ecclesiology However there is a scarcity of studies that attempt to

systematize this topic in its basic components and their ontological foundations in order to provide conceptual clarity for a constructive discussion of the priestly Christology in systematic theology The book makes a contribution to this discussion by engaging firstly with the main models of Christ's priesthood in Christian theology and then with a theological reading of the letter to the Hebrews In both steps the author conceptually articulates the priesthood in terms of need agent actions and goal Then he observes the conceptual articulation from the macro hermeneutical point of view of ontology especially noticing how assumptions on time and space impact the internal logic of Christ's priesthood By using existing models of this priesthood as heuristic tools for systematic thinking the work attempts to push Christian theology toward a more dynamic understanding of Christ's priesthood especially regarding the relationship between the ascended Christ and our Christian life **Catholicism** Gerald O'Collins, Mario Farrugia, 2015 The bestselling Catholicism has now been revised and updated for an eagerly anticipated second edition This lucid and accessible account explains how Roman Catholicism and its beliefs and practices came to be what they are Renowned scholars Gerald O Collins and Mario Farrugia move through history to sum up the present characteristics of Catholic Christianity and the major challenges it faces in the third millennium Clear and engaging the authors present matters in a fresh and original way They skilfully depict the Catholic heritage and show that Catholicism is a dynamic and living faith O Collins and Farrugia engage with contemporary moral issues and explore the challenges which Catholics and other Christians must face This is an authoritative lively and up to date introduction to Catholicism for the twenty first century
