

Jetta

Quick Reference Guide

Dear Customer

We are happy to welcome you into the family of Jetta Drivers.

This Quick Reference Guide introduces a quick and clear overview of the operation and function of your vehicle. You'll also find described some additional features. Keep in mind that not all vehicle features are described in this Quick Reference Guide.

This Quick Reference Guide is not a substitute for the Owner's Manual. The Owner's Manual contains detailed information about all your vehicle's features plus important warnings about vehicle safety. Please read it carefully.

We wish you safe, reliable and enjoyable driving!

Volkswagen de México

Locking system

To **lock** only the driver's door, turn the key to the left once.

To **lock** all vehicle doors turn the key to the left twice. If your vehicle is equipped with power windows you can open all windows by locking the key in the "LOCK" position.

To **unlock** all doors, turn the key to the right once. If your car is equipped with power windows and power control you can close the windows and the sunroof by turning the key in the locking position.

Be careful!

Lock position:

- 1 - Door is locked/unlocked by using the remote control only
- 2 - Unlock using the key

Anti-theft alarm system and power locking switch

The anti-theft alarm system is automatically activated whenever you lock the driver's door from the outside. Remember, if you've locked the doors using the power locking switch, you can only open the doors either by pulling up on one of the locking cables in the door, or by using the power locking switch again.

WARNING: Do not leave children inside the vehicle unattended. If the locking system of all doors are depressed, the vehicle will be locked. In an emergency, it would be impossible to open the doors from the outside without the key. Passengers locked in the vehicle could not escape in an emergency.

Safety belts

All vehicle occupants, including those in the rear, must buckle up - even if it's just a short trip. For the best possible protection by the seat belts and airbags, do not position seats too close to the steering wheel or the dash board, keep the seats in an upright position, make sure that the belts are fitted properly to your height and keep your feet on the floor at all times.

Safety belt position/ head restraint position

The shoulder belt must run over the middle of the shoulder. The top portion of the safety belt must fit snugly across the pelvis. Both portions of the safety belt must fit tightly. The upper edge of the head restraint should be at eye level or higher.

Safety belt height adjustment

Push the adjuster upwards/ downwards to adjust the height. After you've adjusted the safety belt height, pull on the belt one more time to make sure the adjuster is locked into place.

WARNING: Thoroughly review your Owner's Manual for warnings and other important information about proper restraint use and reducing the risk of injury. In accidents, failure to properly use restraint systems can cause serious personal injury.

WARNING: Always fasten safety belts before driving off. Always make sure passengers are properly restrained. Children 12 years old and younger must ride in the rear seat and be properly restrained as indicated in the Owner's Manual. The seating is optional and does not replace safety belt use.

WARNING: Never drink and drive until safe or until sober as the front passenger seat. A child will be seriously injured when the passenger sitting reclines.

Always check the Owner's Manual for additional important details and safety information.

Note: Some features applied or available on some models.
