The Concept of Human Rights in Judaism, Christianity and Islam Catharina Rachik, Georges

Tamer, 2022-12-05 The second volume of the series Key Concepts in Interreligious Discourses points out the roots of the concept of human rights in Judaism Christianity and Islam It shows how far the universal validity of human rights opposes in some crucial points with religious traditions The volume demonstrates that new perspectives are introduced to the general discussion about human rights when related to religious traditions Especially the interreligious viewpoint proves that a new kind of debate about human rights and its history is necessary

Hannah Arendt And The Jewish Question Richard J. Bernstein, 1996-07-11 Hannah Arendt 1906 1975 was one of the most original and interesting political thinkers of the twentieth century In this new interpretation of her career philosopher Richard Bernstein situates Arendt historically as an engaged Jewish intellectual and explores the range of her thinking from the perspective of her continuing confrontation with the Jewish question Bernstein argues that many themes that emerged in the course of Arendt s attempts to understand specifically Jewish issues shaped her thinking about politics in general and the life of the mind By exploring pivotal events of her life story her arrest and subsequent emigration from Germany in 1933 her precarious existence in Paris as a stateless Jew working for Zionist organizations her internment at Gurs and her subsequent escape and finally her flight from Europe in 1941 he shows how personal experiences and her responses to them oriented her thinking Arendt s analysis of the Jews lack

of preparation for the vicious political anti-Semitism that arose in the last decade of the nineteenth century Bernstein argues led her on a quest for the ultimate meaning of politics and political responsibility Moreover he points out that Arendt's deepest insights about politics emerged from her reflections on statelessness and totalitarian domination Bernstein also examines Arendt's attraction to and break with Zionism and the reasons for her critical stance toward a Jewish sovereign state He then turns to the issue that in Arendt's opinion needed most to be confronted in the aftermath of World War II the fundamental nature of evil He traces the nuances of her thinking from radical evil to the banality of evil and finally reexamines Eichmann in Jerusalem her meditation on evil that caused a storm of protest and led some to question her loyalty to the Jewish people

Jewish Identity and Palestinian Rights David Landy, 2011-07-07 Diaspora Jews are increasingly likely to criticise Israel and support Palestinian rights In the USA Europe and elsewhere Jewish organisations have sprung up to oppose Israel's treatment of Palestinians facing harsh criticism from fellow Jews for their actions Why and how has this movement come about What does it mean for Palestinians and for diaspora Jews Jewish Identity and Palestinian Rights is a groundbreaking study of this vital and growing worldwide social movement examining in depth how it challenges traditional diasporic Jewish representations of itself It looks at why people join this movement and how they relate to the Palestinians and their struggle asking searching questions about transnational solidarity movements This book makes an important contribution to Israel Palestine and Jewish studies and responds to urgent questions in social movement theory

Jews, Sovereignty, and International Law Rotem Giladi, 2021-07-07 By departing from accounts of a universalist component in Israel's early foreign policy Rotem Giladi challenges prevalent assumptions on the cosmopolitan outlook of Jewish international law scholars and practitioners offers new vantage points on modern Jewish history and critiques orthodox interpretations of the Jewish aspect of Israel's foreign policy Drawing on archival sources the book reveals the patent ambivalence of two jurist diplomats Jacob Robinson and Shabtai Rosenne towards three international law reform projects the right of petition in the draft Human Rights Covenant the 1948 Genocide Convention and the 1951 Refugee Convention In all cases Rosenne and Robinson approached international law with disinterest aversion and hostility while nonetheless investing much time and toil in these post war reforms The book demonstrates that rather than the Middle East conflict Rosenne and Robinson's ambivalence towards international law was driven by ideological sensibilities predating Israel's establishment In so doing Jews Sovereignty and International Law disaggregates and reframes the perspectives offered by the growing scholarship on Jewish international lawyers providing new insights concerning the origins of human rights the remaking of postwar international law and the early years of the UN

Jews, Liberalism, Antisemitism Abigail Green,Simon Levis Sullam,2020-12-05 This is a timely

contribution to some of the most pressing debates facing scholars of Jewish Studies today It forces us to re think standard approaches to both antisemitism and liberalism Its geographic scope offers a model for how scholars can provincialize Europe and engage in a transnational approach to Jewish history The book crackles with intellectual energy it is truly a pleasure to read Jessica M Marglin University of Southern California USA Green and Levis Sullam have assembled a collection of original and provocative essays that in illuminating the historic relationship between Jews and liberalism transform our understanding of liberalism itself Derek Penslar Harvard University USA This book offers a strikingly new account of Liberalism s relationship to Jews Previous scholarship stressed that Liberalism had to overcome its abivalence in order to achieve a principled stand on granting Jews rights and equality This volume asserts through multiple examples that Liberalism excluded many groups including Jews so that the exclusion of Jews was indeed integral to Liberalism and constitutive for it This is an important volume with a challenging argument for the present moment David Sorkin Yale University USA The emancipatory promise of liberalism and its exclusionary qualities shaped the fate of Jews in many parts of the world during the age of empire Yet historians have mostly understood the relationship between Jews liberalism and antisemitism as a European story defined by the collapse of liberalism and the Holocaust This volume challenges that perspective by taking a global approach It takes account of recent historical work that explores issues of race discrimination and hybrid identities in colonial and postcolonial settings but which has done so without taking much account of Jews Individual essays explore how liberalism citizenship nationality gender religion race functioned differently in European Jewish heartlands in the Mediterranean peripheries of Spain and the Ottoman empire and in the North American Atlantic world

Trump to Harvard: Go Fund Yourself! Alan Dershowitz, 2025-08-12 President Donald Trump has declared war against elite American universities such as Harvard and has threatened to cut off federal funding end tax exemptions and limit foreign student visas Harvard has filed lawsuits and threatened additional legal action The nation is deeply divided over this conflict How should Americans who care deeply about universities about antisemitism and about the proper role of government respond to this dangerous rift Alan Dershowitz poses four basic questions about the decision whether to defund or otherwise punish universities that discriminate against or apply a double standard to Jews as victims of discrimination Is it ever permissible as a matter of policy and academic freedom to weaponize governmental funding of universities in an effort to influence their policies Is it constitutional or otherwise legal to cut off governmental funding based on the content of university speech or policies Is the Trump administration justified in defunding universities such as Harvard and Columbia for their failures to deal effectively with growing antisemitism on their campuses Can the government deny student or faculty visas to individuals who advocate or promote antisemitism or other actions that violate American policies Among the reforms Dershowitz advocates are a return to meritocratic admissions and hiring a return to rigorous blind grading the end of the non meritocratic diversity equity and inclusion bureaucracies the application of a single standard of free speech academic
