Jihad Academy:

Jihad Academy Nicolas Hénin, 2015-09-30 When you keep repeating that the worst is about to happen it finally does The threat of terrorism has caught up with us By invading Iraq in 2003 and not intervening in Syria since 2011 we have helped fuel radicalization And we continue to fuel it by making diplomatic compromises with dictators by refusing to heed the suffering of populations and by failing to invent counter speech What is the responsibility of our societies in the creation of these new jihadists How are they molded How have we played the Islamic State s game and spread its propaganda allowing it to invade our neighborhoods and enlist more and more recruits ready to fight for a distorted fantasy of Islam Nicolas Hénin presents the case against the West showing how its mistakes and inaction have contributed to the disaster He also advances possible strategies to repair what can still be repaired

Politics of Soft Power Diplomacy and its Responses Non Traditional Security Issues Dr. samson S. chiru, Politics of Soft Power Diplomacy and its Responses Non Traditional Security Issues Volume II is the outcome of Seminar Series at Mt Everest College Senapati Manipur for the past a decade of continual effort sustained by loving promotion and encouragement received from reputed ICSSR and UGC in granting Seminar grant to me as convener of this series The book covers wide ranges of inclusion and exclusion in accessing mainstream projects and government programmes rolled out from time to time to

time the government provisions enshrined for the regional growth i.e. Northeastern region of India both as hard power and soft power diplomacy which are dealt and discussed here by different contributors of papers from various academic cross disciplinary areas. It is felt that Soft Power Diplomacy is very instrumental in shaping the image of a country abroad. Joseph Nye coined the term and domestic policies are as important as foreign policies. Classical Realists too have the similar understanding view of domestic domain having ramification on foreign policies national interests for a country.

Terror in the Cradle of Liberty Ilya Feoktistov, 2019-11-19. In April of 2002 a mosque in Cambridge MA run by the Islamic Society of Boston ISB posted an appeal on its website. Chechen refugee family needs temporary place to live until they complete their permanent refugee status in the US. Husband has good business knowledge, auto mechanic experience and construction. Contrary to the Islamic Society of Boston's claims taken entirely at face value by most media that the Tsarnaev brothers only briefly and occasionally attended its Cambridge mosque over the year or so before they bombed the Boston Marathon, the Tsarnaevs were already involved with the ISB in April of 2002, the month that they arrived in the United States. The family which was not religious when it arrived in America began regularly praying at the ISB mosque and turned increasingly fundamentalist. This fits an alarming pattern. Since 9/11 fourteen leaders and members of the ISB have either been imprisoned, killed by law enforcement or declared fugitives for their involvement in Islamic terrorism. The stories of the Tsarnaev brothers have been told in countless places. The story of the mosque that they attended during their increasing radicalization and the organization that runs it has not been told in any meaningful way yet. *Terror in the Cradle of Liberty* documents the rise of Islamist networks within New England's historically moderate and century old Muslim community since the 1960s. It contains a detailed and personal account of the efforts by Massachusetts activists since 2002 to expose and counter the influence of Islamist networks in New England even as Jewish political and law enforcement leaders in the Bay State have decided to embrace these networks as interfaith and community allies.

Servants Of The Devil: The Facilitators Of The Criminal And Terrorist Networks Bernard Touboul, 2021-01-14. Since the end of the Cold War liberal capitalism has spread worldwide without any significant ideological rivalry characterized by the frenetic search for an ever increasing return on capital and constantly increasing profits, a generalized unconcern for the moral values of liberalism and for social inequalities and human misery. The book *Servants of the Devil: The Facilitators of the Criminal and Terrorist Networks* shows that this evolution has been possible thanks to legitimate actors equipped with the legal, financial, technical and influential means to facilitate the legitimization of criminals and the justification of such a criminal economy. The *Servants of the Devil* acting as the legitimate facilitators of the criminal and terrorist economies. The book aims to alert security authorities, government officials, business, professional and financial leaders and the media that criminal and terrorist networks have thoroughly penetrated the political, economic and social structures of the contemporary world and they could not operate without the extensive and willing cooperation of these facilitators. Recommendations are made in this book to alter the

targets of law enforcement forces and the justice system by putting more emphasis on the facilitators by naming shaming and prosecuting them to seriously disable the criminals and terrorists The legal structure needs to be altered detailing procedures to be used by critical institutions as well as the intelligence and analytic techniques to be developed to stay ahead of the criminals own constantly altered techniques The book provides a detailed account of the problem and how it is corrupting the Western society enhancing the need for a new economic paradigm that displays a real and actual economic understanding of the world and of any individual country s economic activity and shifting the ways of economic analysis to bring out the actual strength and role of criminal and terrorist activities in local regional and international governance from the shadows

Sectarianism and

Civil War in Syria Raymond Hinnebusch, Morten Valbjørn, 2025-04-14 As an epicentre of sectarian conflict before and after the Arab uprising Syria provides an excellent laboratory for the study of sectarianization This book compares variance in Syria's sectarianism over time and across place to expose its causes and its varying impact on Syria's society and polity The book begins with an introductory chapter examining key approaches to and debates over sectarianism in Syria from which a framework of analysis is derived Subsequent empirical chapters are divided into two sections Several chapters examine key aspects of sectarianism at the national level looking at the interaction of sectarianism and state formation over the long term the internal evolution of sectarianization during the uprising the impact of the regional power struggle on Syria's sectarianization and whether sectarianism was institutionalized by civil war governance in both regime and opposition controlled areas A second set of chapters looks at sectarianism in Syria's different cities regions and communities notably in Damascus Homs Hama Aleppo Idlib the Alawi coast and the Druze and Christian communities The concluding chapter makes use of the analytical framework to systematically compare the evidence from the empirical cases in order to identify regularities Providing nuanced insights into the Syrian case whilst informing broader theoretical discussions of sectarianism this book will appeal to students researchers and general readers interested in Middle Eastern politics and political science generally

Domestic Legal Pluralism and the International Criminal Court Justin Su-Wan Yang, 2021-09-20 This book explores how the unique historical development of Islamic Shari'a criminal law alongside English common law in northern Nigeria has created a hybridised criminal legal system through a pluralist dynamic of mutual accommodation It studies how this system may potentially be accommodated by the International Criminal Court The work examines how this could be accommodated through the current understanding and operation of complementarity and that it could ultimately prove to be preferable in encouraging the Shari'a courts to exercise criminal justice over the radical insurgents in northern Nigeria These courts would have the unprecedented ability to combine binding adjudicative judgments together with religious interpretation and guidance which can directly combat the predominantly unchallenged domain of ideology by extremist actors It is submitted that these pluralist perspectives are timely and welcome given the undeniably Western European foundations of modern International Criminal Law In exploring such potential avenues our shared understanding of modern international criminal justice is widened to necessarily include other stakeholders beyond its Western founders It is the aim and hope that such interactions and engagements with non Western traditions and cultures will lead to a greater shared ownership of the international criminal justice project which will only strengthen the global fight against impunity The book will be essential reading for academics researchers and policy makers working in the areas of International Criminal Law Legal Pluralism Islamic Shari'a Law Nigeria and religiously inspired violence

The Age of Violence Alain Bertho, 2018-10-02 Exploring the fury of the young in a world or crisis that seems to offer no alternatives Only martyrs know neither pity nor fear Believe me the day when the martyrs are victorious will be the day of universal conflagration Jacques

Lacan made this gloomy prophesy back in 1959 but doesn't it also apply to our own time Faced with a rise in attacks around the world can we really just blame the radicalization of Islam What hope is there for the alienated youth as the wars that have ravaged the Middle East spill out across the globe For Alain Bertho the mounting chaos we see today is above all driven by the weakening of states legitimacy under the pressure of globalization Add to this the hypocrisy of the elites who beat the drum of security measures even as they sow the seeds of violence around the world This disorder is the swamp of despair which can only produce fresh atrocities Today's youth are the lost children of neoliberal globalization the inheritors of the political and human chaos it produces When they find it easier to imagine the end of the world than the end of capitalism their revolt tends to take the paths of martyrdom and despair The closing of the revolutionary hypothesis allows only fury The answer Bertho argues is a new radicalism able to inspire a collective hope in the future

Herodotus in the Anthropocene Joel Alden Schlosser, 2020-07-15 We are living in the age of the Anthropocene in which human activities are recognized for effecting potentially catastrophic environmental change In this book Joel Alden Schlosser argues that our current state of affairs calls for a creative political response and he finds inspiration in an unexpected source the ancient writings of the Greek historian Herodotus Focusing on the Histories written in the fifth century BCE Schlosser identifies a cluster of concepts that allow us to better grasp the dynamic complexity of a world in flux Schlosser shows that the Histories which chronicle the interactions among the Greek city states and their neighbors that culminated in the Persian Wars illuminate a telling paradox at those times when humans appear capable of exerting more influence than ever before they must also assert collective agency to avoid their own downfall Here success depends on nomoi or the culture customs and laws that organize human communities and make them adaptable through cooperation Nomoi arise through sustained contact between humans and their surroundings and function best when practiced willingly and with the support of strong commitments to the equality of all participants Thus nomoi are the very substance of political agency and ultimately the key to freedom and ecological survival because they guide communities to work together to respond to challenges An ingenious contribution to political theory political philosophy and ecology Herodotus in the Anthropocene reminds us that the best perspective on the present can often be gained through the lens of the past

Perpetrators of Mass Atrocities Alette Smeulers, 2023-12-22 The 9/11 attacks as well as the ones in Madrid London Paris and Brussels the genocides in Nazi Germany Rwanda and Cambodia the torture in dictatorial regimes the wars in former Yugoslavia Syria and Iraq and currently in Ukraine the sexual violence during periods of conflict all make us wonder why would anyone do something like that Who are these people Drawing on 30 years of research in this book Alette Smeulers explores the perpetrators of mass atrocities such as war crimes crimes against humanity genocide and terrorism Examining questions of why people kill and torture and how mass atrocities can be explained Smeulers presents a typology of perpetrators with different ranks roles and motives Devoting one chapter to each type of perpetrator the book combines insights from academic research with illustrative case

studies of well known perpetrators from dictators to middlemen to lower ranking officials and terrorists Their stories are explored in depth as the book examines their behaviour and motivation Perpetrators of Mass Atrocities thus provides a comprehensive understanding of the causes of extreme mass violence Such knowledge not only can help the international criminal justice system to be able to attribute blame in a fairer way but can also assist in preventing such atrocities being committed on the current scale Perpetrators of Mass Atrocities is essential reading for all those interested in war crimes genocide terrorism and mass violence
