Johann Gottfried Herder J. Mace Address, 2015-07-12 Excerpt from Johann Gottfried Herder As an Educator In preparing this volume it seemed best to give a brief sketch of Herder s life which was one of the most interesting and picturesque among the great writers For biographical material I am indebted particularly to Rudolf Haym s masterly work Herder nach seinem Leben und seinen Wirken Berlin 1877 1885 Eugen Kuhnemann s artistic Herder Munchen 1912 Richard Burkner s brief but comprehensive little volume Herder sein Leben und Wirken Berlin 1904 Henry Nevinston s delightful volume A Sketch of Herder and His Times and the fascinating Errinerungen aus dem Leben Joh Gottfried von Herders Stuttgart any imperfections that remain are intentionally left to preserve the state of such historical works **Johann Gottfried Herder as an Educator** James Mace Address, 1916 The Well-Educated Mind: A Guide to the Classical Education You Never Had Susan Wise Bauer, 2003-08-17 An engaging accessible guide to educating yourself in the classical tradition Have you lost the art of reading for pleasure Are there books you know you should read but haven t because they seem too daunting In The Well Educated Mind Susan Wise Bauer provides a welcome and encouraging antidote to the distractions of our age electronic and otherwise In her previous book The Well Trained Mind the author provided a road map of classical education for parents wishing to home school their children and that book is now the premier resource for home schoolers In this new book Bauer takes the same elements and techniques and adapts them to the use of adult readers who want both enjoyment and self improvement from the time they spend reading The Well Educated Mind offers brief entertaining histories of five literary genres fiction autobiography history drama and poetry accompanied by detailed instructions on how to read each type The annotated lists at the end of each chapter ranging from Cervantes to A S Byatt Herodotus to Laurel Thatcher Ulrich preview recommended reading and encourage readers to make vital connections between ancient traditions and contemporary writing The Well Educated Mind reassures those readers who worry that they read too slowly or with below average comprehension If you can understand a daily newspaper there s no reason you can t read and enjoy Shakespeare s Sonnets or Jane Eyre But no one should attempt to read the Great Books without a guide and a plan Susan Wise Bauer will show you how to allocate time to your reading on a regular basis how to master a difficult argument how to make personal and literary judgments about what you read how to appreciate the resonant links among texts within a genre what does Anna Karenina

owe to Madame Bovary and also between genres Followed carefully the advice in The Well Educated Mind will restore and expand the pleasure of the written word **Classical Humanism and the Challenge of Modernity** Bas van Bommel,2015-03-10 In scholarship classical Renaissance humanism is usually strictly distinguished from neo humanism which especially in Germany flourished at the beginning of the 19th century While most classical humanists focused on the practical imitation of Latin stylistic models neohumanism is commonly believed to have been mainly inspired by typically modern values such as authenticity and historicity Bas van Bommel shows that whereas neohumanism was mainly adhered to at the German universities at the Gymnasien a much more traditional educational ideal prevailed which is best described as classical humanism This ideal involved the prioritisation of the Romans above the Greeks as well as the belief that imitation of Roman and Greek models brings about man s aesthetic and moral elevation Van Bommel makes clear that 19th century classical humanism dynamically related to modern society On the one hand classical humanists explained the value of classical education in typically modern terms On the other hand competitors of the classical Gymnasium laid claim to values that were ultimately derived from classical humanism 19th century classical humanism should therefore not be seen as a dried out remnant of a dying past but as the continuation of a living tradition *Johann Gottfried Herder as an Educator*

James Mace Andress,1916 **Indo-German Exchanges in Education** Martin Kämpchen,2020-08-14 In 1930 when Rabindranath Tagore met Paul and Edith Geheeb in Germany they formed a fruitful and long term association resulting in the exchange of ideas and vision Tagore s Brahmacharya Ashram founded in 1901 in Shantiniketan and the Geheeb s Odenwaldschule established in Germany in 1910 thereafter the Ecole d Humanit in Switzerland established in 1934 after the couple fled Nazi Germany emerged from vastly different cultural backgrounds and social exigencies Yet they recognized striking similarities between their educational endeavours The meeting also initiated a close association between India and Germany with the Geheeb s attracting many Indian intellectuals and Indophile Germans to their schools This book explores the areas where the lives of the Geheeb s and Tagore and their respective circles overlap Rather than being a biography a history or a comprehensive description this study is a comparison of Tagore and the Geheeb s and their schools Making use of the repository of unpublished correspondence available at the Ecole s archive the author studies the Indo German cultural exchanges in the early twentieth century that were initiated by these three educators and their pedagogical vision

Analytical Psychology and German Classical Aesthetics: Goethe, Schiller, and Jung, Volume 1 Paul Bishop, 2007-08-07 In this volume Paul Bishop investigates the extent to which analytical psychology draws on concepts found in German classical aesthetics It aims to place analytical psychology in the German-speaking tradition of Goethe and Schiller with which Jung was well acquainted Analytical Psychology and German Classical Aesthetics argues that analytical psychology appropriates many of its central notions from German classical aesthetics and that when seen in its intellectual historical context the true originality of analytical psychology lies in its reformulation of key tenets of German classicism Although the importance for Jung of German thought in general and of Goethe and Schiller in particular has frequently been acknowledged until now it has never been examined in any detailed or systematic way Through an analysis of Jung's reception of Goethe and Schiller Analytical Psychology and German Classical Aesthetics demonstrates the intellectual continuity within analytical psychology and the filiation of ideas from German classical aesthetics to Jungian thought In this way it suggests that a rereading of analytical psychology in the light of German classical aesthetics offers an intellectually coherent understanding of analytical psychology By uncovering the philosophical sources of

analytical psychology this first volume returns Jung's thought to its core intellectual tradition in the light of which analytical psychology gains new critical impact and fresh relevance for modern thought Written in a scholarly yet accessible style this book will interest students and scholars alike in the areas of analytical psychology comparative literature and the history of ideas *Applied Process Thought II* Mark Dibben, Rebecca Newton, 2013-05-02 Concentrating mainly on the process

philosophy developed by Alfred North Whitehead this series of essays brings together some of the newest developments in the application of process thinking to the physical and social sciences These essays by established scholars in the field demonstrate how a wider and deeper understanding of the world can be obtained using process philosophical concepts how the distortions and blockages inevitably inherent in substantivist talk can be set aside and how new and fertile lines of research in the sciences can be opened as a result **Confronting the Nation** George L. Mosse, 2024-01-16 Originally

published by the University Press of New England under the title *Confronting the Nation Jewish and Western Nationalism* copyright 1993 by Trustees of Brandeis University *Handbook of Religious Culture in Nineteenth-Century Europe* Anthony Steinhoff, Jeffrey Zalar, 2024-12-30 This handbook offers a guide to research on religious culture during Europe's long nineteenth century 1800-1914 Grounded in the latest theoretical approaches and in line with trends that have produced a religious turn in the study of modern Europe the volume assesses the state of the field while making provocative recommendations for its enlargement Unique and ambitious in its thematic breadth it addresses the histories of all five of Europe's main religious traditions Eastern Orthodox Christianity Judaism Islam Protestantism and Roman Catholicism and brings these histories into comparative analysis This analysis extends to a wide range of subjects from popular belief and practice education and modern knowledge formation and the arts to the intersections between religion and urbanization civil society and politics and missions and imperialism It also evaluates recent developments in work on religion vis vis both gender and nationalism while calling attention to newer research that proposes secularism as a form of belief in its own right Presenting the scholarship of eighteen leaders in their respective fields the volume explains why religion as a topic of research has moved from the periphery to the center of modern European historiography *The Failure of*

Competence-Based Education and the Demand for Bildung Luca Moretti, Alessia Marabini, 2025-07-24 This book contrasts two prominent models of education Competence Based Education CBE which is the dominant model in most school systems of the world and Bildung Oriented Education BOE once the basis of school systems of Northern Europe CBE interprets learning as the acquisition of clearly definable and allegedly measurable competences and it is supported by supranational organisations such as the OECD BOE characterises learning holistically aimed at the progressive articulation of a meaningful big picture in the student's mind Moretti and Marabini argue that in spite of its celebrated scientificity CBE is incoherent and unreliable and contributes to structural forms of oppression and injustice fosters social pathologies and fails to provide students with the kind of intellectual autonomy they need in our complex post industrial societies They defend BOE from

objections made by critical theorists poststructuralists and postcolonial thinkers and argue that it is a coherent and flexible model of education that endows students with autonomy and responsibility and can help heal social pathologies The book builds analytical bridges and explores connections between philosophy of education and important issues currently debated in critical theory political philosophy and social epistemology
