Good And Faithful Servant Stewardship In The Orthodox Church:

Good and Faithful Servant Anthony L. Scott, 2003 Drawing on scriptural patristic historical dogmatic and liturgical foundations this pioneering volume develops an Orthodox Christian model of stewardship Renowned scholars explore the links among time talents and treasure and investigate concepts of stewardship from the early church to contemporary Orthodox Christianity in the United States **The First and Finest** Rev. Fr. Robert Holet, DMin., 2013-11 The First and Finest Orthodox Christian Stewardship as Sacred Offering explores the rich biblical and historical themes of Christian stewardship from an Eastern Orthodox perspective drawing insights from themes in the Old and New Testaments and ancient Christianity The study of stewardship in Church history reveals how contemporary concepts of the religious economy impact how and why Christians exercise stewardship today The premise for this study that Orthodox stewardship is centered in the priestly offering of Christ and His followers who comprise His Church helps Christians today to differentiate the holy way of Christian offering from false or misguided concepts of stewardship and offers suggestions for ways in which church communities can rediscover the richness of these insights from the ancient Orthodox tradition This study is intended to challenge every reader to consider whether he or she offers his or her first and finest to the Lord and encourages parishes to exercise stewardship as an act of divine worship in the service of God and the poor *Welfare and Religion in 21st Century Europe* Anders Bäckström, Grace Davie, Ninna Edgardh, Per Pettersson, 2023-04-21 Historically European churches have played a large part in the provision of welfare Responsibility however has gradually shifted to the state a shift that forms an integral part of the process of secularization and one that has been readily accepted by European populations But what happens when the state itself begins to recede a process that is occurring in most if not all European societies for a wide variety of reasons The implications for welfare are considerable not least for the role of the churches which begin to resume the responsibilities previously shed but in new and different ways This book looks at the connections between religion and welfare in Europe exploring in detail eight European societies Finland Norway Sweden England Germany France Italy and Greece The different theological traditions different church state relationships and different welfare regimes are all examined The analysis is based on first hand empirical research which considers not only the changing situation on the ground but attitudes towards this within a range of different constituencies the churches local government and the general public Particular attention is paid to the significance of gender in both the process of change and in attitudes towards this Welfare and Religion in 21st Century Europe Volume 1 represents comparative research at its best and highlights key policy implications for the future A companion book Welfare and Religion in 21st Century Europe Volume 2 explores thematically the changing nature of religion and welfare and the new relationships that are emerging between the religious and the secular and between church and state in the 21st century **Public Theology in Law and Life** Paul Babie, Brian Edgar, David Wilson, 2012-08-30 Public theology involves the application of biblical and theological principles outside the

confines of the church and assesses their implications for wider society. It examines both the theoretical structures of society, the nature of secularity, government, globalisation, pluralism, and so forth, and the myriad specific issues involved in daily life, everything from sport to work place relations to economics. Public theology is also very importantly a discipline that is practiced by the ordinary Christian as well as the academic and it is done in public with all the scrutiny that entails and in such a way that it communicates to non-Christians although it remains a theological endeavour. In a real sense it is theology for the world from the Word by the people of God. The volume has a variety of contributors and includes an article on the role of public theology in Islam.

The Making of Syriac Jerusalem Catalin-Stefan Popa, 2023-05-31. This book discusses hagiographic, historiographical, hymnological, and theological sources that contributed to the formation of the sacred picture of the physical as well as metaphysical Jerusalem in the literature of two Eastern Christian denominations, East and West Syrians. Popa analyses the question of Syrian beliefs about the Holy City, their interaction with holy places, and how they travelled in the Holy Land. He also explores how they imagined and reflected the theology of this itinerary through literature in Late Antiquity and the Middle Ages, set alongside a well-defined local tradition that was at times at odds with Jerusalem. Even though the image of Jerusalem as a land of sacred spaces is unanimously accepted in the history of Christianity, there were also various competing positions and attitudes. This often promoted the attempt at mitigating and replacing Jerusalem's sacred centrality to the Christian experience with local sacred heritage, which is also explored in this study. Popa argues that despite this rhetoric of artificial boundaries, the general picture epitomises a fluid and animated intersection of Syriac Christians with the Holy City, especially in the medieval era and the subsequent period through a standardised process of pilgrimage well integrated in the custom of advanced Christian life and monastic canon. *The Making of Syriac Jerusalem* is suitable for students and scholars working on the history, literature, and theology of Syriac Christianity in the late antique and medieval periods.

Religious Communities and Civil Society in Europe Rupert Graf Strachwitz, 2020-06-08. The seemingly vitalizing impact of religiosity on civil society is a research topic that has been extensively looked into, not only in the USA but increasingly also in a European context. What is missing is an evaluation of the role of institutionalized religious communities and of circumstances that facilitate or impede their status as civil society organisations. This anthology in 2 volumes aims at closing this gap by providing case studies regarding political, legal, and historical aspects in various European countries. Vol. 2 provides some theoretical aspects, a report on the final conference, and case studies from Germany, France, United Kingdom, Italy, Poland, and the Ukraine, as well as a special chapter on Brazil and a Note on Religious Political Ideology.
