Religion in Personality Theory Frederick Walborn, 2013-12-03 Religion in Personality Theory makes clear the link between theory and research and personality and religion Presently most personality texts have a limited discussion of religion and reference few theorists other than Freud and Maslow in relation to the subject This book reviews the theory and the empirical literature on the writings of 14 theorists Every chapter concludes with a summation of the current research on the theorist s proposals Reviews Frederick Walborn

has written an excellent text that explores the degree to which classical personality theorists were personally influenced by and focused upon religion in developing their personality theories Each theorist is presented in sufficient detail so that their personal views of religion are seen to influence the theories they developed In addition the current status of the empirical evidence in the psychology of religion is explored in the context of the theorist and theory to which the data is most relevant Current and up to date this text is appropriate for either a course in Personality or as an introduction to the Psychology of Religion The author s own comprehensive theory of religion and spirituality creatively integrates the positive contributions of the classical personality theorist to the contemporary psychology of religion Ralph W Hood Jr Professor of Psychology University of Tennessee at Chattanooga In this interesting and accessible book Frederick Walborn thoughtfully probes the place of religion and spirituality in the writings of a broad range of classical psychological thinkers and offers an insightful critique of current empirical research on the complex relation of religion and spirituality to individual well being Michele Dillon Ph D Professor and Chair Department of Sociology University of New Hampshire Durham New Hampshire Identifies what major personality theorists say about religion Investigates whether evidence supports or refutes predictions made by different theories Concludes with a comprehensive integrative theory on religion and spirituality *Personality Theories* Albert Ellis, Mike Abrams, Lidia Abrams, 2009 Co authored by Albert Ellis a founder of modern psychology who has originated his own personality theory All theories are critically evaluated against current research making them meaningful to aspiring clinicians **Dialogue with R.D.
