Gun Crusaders Gun Crusaders:

Gun Crusaders Scott Melzer, 2012-09-01 Uses National Rifle Association materials meetings leader speeches and interviews with NRA members to examine how the organization perceives threats to gun rights as an attack in a broad culture war that will ultimately lead to gun confiscation and socialism

Gun Crusaders Scott Melzer, 2009-10 Nothing conjures up images of the American frontier and a pick yourself up by the bootstraps view of freedom and independence quite like guns *Gun Crusaders* is a fascinating inside look at how the four million member National Rifle Association and its committed members come to see each and every gun control threat as a step down the path towards gun confiscation and eventually socialism Enlivened by a rich analysis of NRA materials meetings leader speeches and unique in depth interviews with NRA members *Gun Crusaders* focuses on how the NRA constructs and perceives threats to gun rights as one more attack in a broad liberal cultural war Scott Melzer shows that the NRA promotes a nostalgic vision of frontier masculinity whereby gun rights defenders are seen as patriots and freedom fighters defending not the freedom of religion but the religion of individual rights and freedoms

Crusader and Covenanter Cruiser Tanks 1939-45 David Fletcher, 2012-05-20 The Covenanter which never saw active service and Crusader Cruiser tanks were developed between 1939 and 1940 The Crusader first saw action in the North African desert in June 1941 its speed and sleek design made it a hard target to hit and the tank was well respected by the Afrika Korps for its velocity in combat But its hurried development prior to World War II also made it prone to mechanical failure This book examines the Covenanter and the many variants of the Crusader tank detailing the designs developments and disappointments of these infamous World War II tanks

Laboratory and the Depth and Simultaneous Attack Battle Lab have performed the first Battle Lab Warfighting Experiment that evaluated operational concepts for the Crusader system. The experiment was conducted during June and July of 1996 in the Janus Battle Simulation Center at Ft Sill Oklahoma. The research addressed critical operation issues focused on the employment of the Crusader system on the 21st century digitized battlefield. Command and control and ammunition logistics and resupply systems used by a direct support field artillery battalion when employing the simulated Crusader system were evaluated to identify innovative tactics, techniques, and procedures that could be introduced in conjunction with the fielding of the Crusader system. This research was conducted using a synthetic battlefield environment that placed field artillerymen into distributed interactive simulation technologies where they used actual tactical data processing equipment to perform fire support functions. There were four major outcomes of this research: 1. A preliminary set of tactics, techniques, and procedures that addressed command and control functions, situation awareness, fire order consistency, and sustainment was identified. This information will be evaluated further by the system developer and field artillery community and will be considered for additional testing during later experiments or closed loop studies. 2. Major findings were: a. The Crusader system as currently specified will deliver effective fires to defeat the projected threat and provide timely support to maneuver forces. b. The pooled resupply concept was successfully demonstrated and shown to be a robust technique in the face of losses of individual resupply vehicles.

The Temperance Crusader, 1877 *F-8 Crusader* Peter E. Davies, 2023-07-20

With specially commissioned artworks and dynamic combat ribbon diagrams, this volume reveals how the last of the gunfighters, as the F-8 was dubbed by its pilots, prevailed against the growing MiG threat of the Vietnamese People's Air Force. When the Vietnam War began, the F-8 was already firmly established as a fighter and reconnaissance aircraft. It entered combat as an escort for Alpha strike packages, braving the anti-aircraft artillery and surface-to-air missiles alongside the A-4 Skyhawk bombers and meeting MiGs for the first time on 3 April 1965. Although the Crusader was nicknamed 'last of the gunfighters', its pilots employed secondary AIM-9D Sidewinder missiles in all but one of their MiG kills, with guns also used as back-up in three. Its 20 mm guns were unreliable as they often jammed during strenuous manoeuvres, although they were responsible for damaging a number of MiGs. However, in combat, the F-8 had the highest exchange ratio: kills divided by losses at six to one of any US combat aircraft involved in the Vietnam War. Through the copious use of first-hand accounts, highly detailed battlescene artwork, combat ribbon diagrams, and armament views, Osprey's Vietnam air war specialist Peter E. Davies charts the successful career of the F-8 Crusader over Vietnam.

Grace and Social Ethics Angela Carpenter, 2024-12-17

Grace and Social Ethics demonstrates why the doctrine of grace has significant implications for social ethics and for Christian engagement with culture. The book reframes Christian social ethics by illuminating how grace shapes human identity and community. Angela Carpenter integrates theology and social science to articulate a vision of human persons as constituted by gift rather than merit. This graced anthropology compellingly bridges theology and contemporary research on human

dependence and mutuality Carpenter insightfully applies this graced identity to pressing issues in social ethics such as criminal justice labor practices and gun violence Scholars and students of theological ethics as well as pastors seeking resources for moral formation will find illuminating perspectives in this integrative work which situates social justice imperatives within God's gracious purposes

Firepower Matthew J. Lacombe, 2023-05-09 Firepower explores how the NRA gradually transformed itself from a relatively small organization with close ties to the federal government and a mission dedicated to marksmanship competitive shooting and military preparedness to what it is today A political juggernaut that pushes a right wing populist world view and enjoys a prominent position in the Republican Party coalition As Lacombe shows NRA members and supporters participate in politics at unusually high rates and have for decades successfully opposing gun regulations despite the shockingly high rates of gun violence in the U S relative to other countries and deep durable public support for stricter rules on gun ownership Understanding how and why this came to be can not only teach us about the evolution of one of the most influential interest groups operating today but can also shed light on how interest groups more generally can marshal the political behavior of their supporters over time in order to build and exercise power Most of the work done on interest group influence focuses on behind the scenes tactics such as lobbying and campaign support Yet this is not the source of the NRA's power Instead it is the group's ability to shape the political outlooks of its supporters on behalf of its agenda The NRA has done this by creating a gun owner culture and social identity that mobilizes individuals to engage in various forms of political participation and by linking gun rights to other political issues generating a broader political ideology Drawing on almost a century of archival data Lacombe illuminates the NRA's identity and ideology building efforts in fine grained historical detail ultimately showing how the group came to align with the Republican Party and considering the causes and consequences of the NRA's increasingly deep relationship with the GOP in the age of Donald Trump

British Battle Tanks David Fletcher, 2017-08-24 This lavishly illustrated volume details the design development and operational history of the British made tanks in World War II Plagued by unreliable vehicles and poorly thought out doctrine the early years of World War II were years of struggle for Britain's tank corps Relying on tanks built in the late 1930s and those designed and built with limited resources in the opening years of the war they battled valiantly against an opponent well versed in the arts of armoured warfare This book is the second of a multi volume history of British tanks by renowned British armour expert David Fletcher MBE It covers the development and use of the Matilda Crusader and Valentine tanks that pushed back the Axis in North Africa the much improved Churchill that fought with distinction from

North Africa to Normandy and the excellent Cromwell tank of 1944 45 It also looks at Britain s super heavy tank projects the TOG1 and TOG2 and the Tortoise heavy assault tank designed to smash through the toughest of battlefield conditions but never put into production

Crusader Criminals Steve Tibble,2024-07-09 A vivid new history of the criminal underworld in the medieval Holy Land The religious wars of the crusades are renowned for their military engagements But the period was witness to brutality beyond the battlefield More so than any other medieval war zone the Holy Land was rife with unprecedented levels of criminality and violence In the first history of its kind Steve Tibble explores the criminal underbelly of the crusades From gangsters and bandits to muggers and pirates Tibble presents extraordinary evidence of an illicit underworld He shows how the real problem in the region stemmed not from religion but from young men Dislocated disinhibited and present in disturbingly large numbers they were the propellant that stoked two centuries of unceasing warfare and shocking levels of criminality Crusader Criminals charts the downward spiral of desensitisation that grew out of the horrors of incessant warfare and in doing so uncovers some of the most surprising stories of the time

F-8 Crusader vs MiG-17 Peter Mersky,2014-11-20 A detailed examination of the F 8 Crusader the primary naval fighter when the conflict in Vietnam escalated in 1964 versus its opposite number in the Vietnamese Peoples Air Force VPAF the MiG 17 Revered by Naval Aviators as the last of the gunfighters due to its quartet of Colt Browning Mk 12 20 mm cannon the F 8 Crusader enjoyed great success against VPAF MiG 17s during the Rolling Thunder campaign of 1966 68 Close to 500 examples served with no fewer than 17 frontline units But the MiG 17 s unequalled low speed manoeuvrability small size and powerful cannon armament meant that the American forces didn t have it all their own way This fully illustrated book featuring photographs maps and battlescene artwork reveals the tactics that were developed by pilots on both sides to give themselves the edge in air to air dogfights allowing the reader to understand how the differing design and development doctrines played a part in combat
