The Pursuit of Human Well-Being Richard J. Estes,M. Joseph Sirgy,2017-01-09 This handbook informs the reader about how much progress we the human race have made in enhancing the quality of life on this planet Many skeptics focus on how the quality of life has deteriorated over the course of human history particularly given World War II and its aftermath This handbook provides a positive perspective on the history of well being Quality of life as documented by scientists worldwide has significantly improved Nevertheless one sees more improvements in well being in some regions of the world than in others Why This handbook documents the progress of well being in the various world regions as well as the differences in those regions The broad questions that the handbook addresses include What does well being mean How do

different philosophical and religious traditions interpret the concept of well being within their own context Has well being remained the same over different historical epochs and for different regions and subregions of the world In which areas of human development have we been most successful in advancing individual and collective well being In which sectors has the attainment of well being proven most difficult How does well being differ within and between different populations groups that for a variety of socially created reasons have been the most disadvantaged e g children the aged women the poor racial ethnic and sexual minorities

Econometrics of Money and Happiness in India T.

Lakshmanasamy,2023-01-01 This book quantitatively analyses the puzzle between money and happiness in India both at individual and aggregate levels and at cross section time series and panel levels The relevance of the Easterlin Paradox a positive income happiness relationship at a point in time but a lack association between income and life satisfaction at the aggregate level and over time and hence economic growth does not improve the human lot is evaluated Using data for a long period of 24 years over 1990 to 2014 from the World Values Surveys the cross country analysis of the happiness literature is replicated with cross states analysis applying robust econometric techniques The effects of individual absolute income variously defined relative income measures NSDP per capita social comparison social capital and income inequality on individual average and aggregate happiness and life satisfaction levels across states and over time are examined The rigorous econometric results validate the Easterlin Paradox in India in that there is no long run happiness gain from the

income growth and the income effects are not the same for all as the middle income groups do not gain in happiness from the rising average income Whatever short run gain in happiness is erased in the long run partially by the declining social capital and rising income inequality
